**AFFILIATED
ACCESSORIES**

REAR SEAT COVER NO HAMMOCK - BLACK, REGULAR

Rear Seat Dog Cover

This 4Knines Multi-Function Dog Split Rear Seat Cover features a fitted option and will help keep your car seats clean and looking brand new.

ACCESS TO ALL THREE SEAT BELTS AND FOLD-DOWN SEATS - Unique and patented design. Patented and/or Patent Pending.

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the seat bottom completely waterproof while the non-slip backing keeps the cover from moving around (seams and zippers are not watertight). K9-SHIELD is a special textile laminate developed by 4Knines to provide maximum protection for your vehicle.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean.

LIFETIME WARRANTY - No-hassle 100% Customer Satisfaction Guarantee & Lifetime Warranty (defects in materials or workmanship).

Split Cover Technology protected by US Patent No. 9,610,877.

4Knines is committed to giving back to the animal community.

We donate a percentage of each sale to animal advocacy groups.

68767126AA

MSRP*: \$113.99

REAR SEAT COVER WITH HAMMOCK - BLACK, REGULAR

Dog Hammock Car Seat Cover

This 4Knines Multi-Function Dog Split Rear Seat Cover is equipped with a hammock to keep both you and your pet safe while driving and to keep your car seats clean and looking brand new.

ACCESS TO ALL THREE SEAT BELTS AND FOLD-DOWN SEATS - Unique and patented design. Patented and/or Patent Pending.

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the seat bottom completely waterproof while the non-slip backing keeps the cover from moving around (seams and zippers are not watertight). K9-SHIELD is a special textile laminate developed by 4Knines to provide maximum protection for your vehicle.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean.

Split Cover Technology protected by US Patent No. 9,610,877.

4Knines is committed to giving back to the animal community.

We donate a percentage of each sale to animal advocacy groups.

68767127AA

MSRP*: \$113.99

CREW CAB REAR SEAT COVER - BLACK, DRIVE SIDE

Dog Hammock for Truck

This 4Knines Multi-Function Dog Crew Cab Truck Seat Cover comes equipped with a hammock to keep your car clean and your pet safe while driving.

ADVANCED PATENTED DESIGN

ACCESS ALL THREE SEAT BELTS AND 60/40 FLIP-UP SEATS

SPLIT TECH™ HAMMOCK OPTION

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the seat bottom completely waterproof while the non-slip backing keeps the cover from moving around (seams and zippers are not watertight). K9-SHIELD is a special textile laminate developed by 4Knines to provide maximum protection for your vehicle.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean.

US Patent Numbers 9,610,877 & 9,845,033.

4Knines is committed to giving back to the animal community.

We donate a percentage of each sale to animal advocacy groups.

68767128AA

MSRP*: \$153.99

FLOOR HAMMOCK - BLACK

Dog Floor Hammock® for Crew Cab Trucks with Fold-Up Seats

This 4Knines Floor Hammock® was designed from customer requests for this solution. This cover goes down the back of the front seats, along the bottom of the floor and back up the rear seats with the seats folded up. Keep your car clean and your pet safe while driving.

Novel design specifically for full-size crew cab trucks with fold-up rear seats. Protects the back of the front seats, the floor area and the folded-up seat bottoms. Patented and/or Patent Pending.

HEAVY-DUTY - Colorfast 600D polyester; thick UV-protected straps; durable nylon clips; no AZO dyes (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the cover's bottom completely waterproof while the non-slip backing keeps the cover from moving around.

EASY TO CLEAN - Hose it down or wipe down with a moist towel to keep it looking fresh and clean.

NOTE: The 4Knines Floor Hammock® does not protect door panels.

4Knines is committed to giving back to the animal community.

We donate a percentage of each sale to animal advocacy groups.

68767129AA

MSRP*: \$183.99

CARGO LINER - LARGE - BLACK

SUV Cargo Liner for Fold-Down Seats

The 4Knines Multi-Function Dog Split-Tech SUV Cargo Liner is a must for anyone owning a dog or pet wanting to keep their vehicle nice and tidy.

UNIQUE PATENTED SPLIT-TECH DESIGN - 60/40 or 50/50 split seat and/or center cargo pass-through. Patented and or Patent Pending.

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the cargo liner completely waterproof while the non-slip backing keeps the cover from moving around (seams and zippers are not watertight). K9-SHIELD is a special textile laminate developed by 4Knines to provide maximum protection for your vehicle.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean.

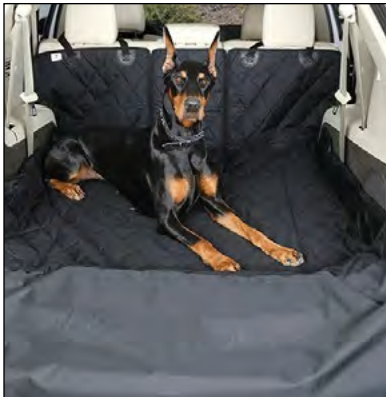

US Patent Number 9,963,086.

4Knines is committed to giving back to the animal community.

We donate a percentage of each sale to animal advocacy groups.

68767130AA

MSRP*: \$123.99

CARGO LINER - XL - BLACK

SUV Cargo Liner for Fold-Down Seats

The 4Knines Multi-Function Dog Split-Tech SUV Cargo Liner is a must for anyone owning a dog or pet wanting to keep their vehicle nice and tidy.

UNIQUE PATENTED SPLIT-TECH DESIGN - 60/40 or 50/50 split seat and/or center cargo pass-through. Patented and or Patent Pending.

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew proof. Please do not leave your pet in your vehicle unsupervised.**)

68767134AA

MSRP*: \$113.99

BUCKET SEAT COVER - BLACK

Bucket Seat Covers for Dogs

The 4Knines Premium Bucket Front Seat Cover for Cars, Trucks and SUVs is a must-have accessory for pet owners who want to keep their vehicle clean.

HEAVY-DUTY - Colorfast and free of AZO dyes and heavy metals like lead, arsenic or mercury. (**Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.**)

FOUR COLOR OPTIONS - Available in Black, Grey, Tan, and our new Limited Edition Version 2 Camo.

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof laminate layer makes the seat bottom completely waterproof while the non-slip backing keeps the cover from moving around (seams are not watertight). K9-SHIELD is a special textile laminate developed by 4Knines to provide maximum protection for your vehicle.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean.

4Knines is committed to giving back to the animal community. We donate a percentage of each sale to animal advocacy groups.

A note about airbags: 4Knines bucket seat covers do not cover the side of the seat back (where most side airbags are housed), so the cover should work well in most vehicles. The optional strap that goes around the back of the seat should not be used in seats with airbags. All vehicles are different, so we recommend installing the seat cover to ensure it does not cover where your airbag deploys.

68767135AA

MSRP*: \$58.99

SEAT EXTENDER - REGULAR - BLACK

EXTRA DURABLE SUPPORT - The 4Knines hard bottom car seat cover extends your rear bench seat into a stable platform for dogs of all sizes. Reinforced panels provide exceptional support, creating a sturdy, non-collapsing surface for a safer, more comfortable ride.

PERFECT FIT FOR ANY ADVENTURE - Regular Size fits most vehicle models and includes Velcro openings for easy access to seat belt receptacles. See how easy it is to install. **NOT recommended for use with captain chairs - this cover is not designed to bridge the gap between seats without support for the middle panel.

BUILT-IN DOOR PROTECTION WITH EZ OPEN DESIGN - Keep your car's interior in top shape with integrated door panel coverage, preventing scratches, dirt and slobber while allowing dogs to enjoy open windows without damage. Our EZ Open Door Panel Protection (Patent-Pending Design) features a one-zip system for effortless in-and-out access for your pup.

K9-SHIELD® WATERPROOF, NON-SLIP LAYER - Special non-quilted waterproof layer makes the seat bottom completely waterproof (seams and zippers are not watertight). The non-slip backing and anchors keep the cover in place.

EASY TO CLEAN - Hose it down, wipe down with a moist towel or toss it in the washer to keep it looking fresh and clean. The rigid panels are removable for machine washing.

BUILT TO OUTLAST AND OUTPERFORM - 4Knines products are known for durability and craftsmanship. *Do not use when heated seats are activated.*

Not recommended for aggressively destructive dogs, i.e., this is not chew-proof. Please do not leave your pet in your vehicle unsupervised.

4Knines is committed to giving back to the animal community. We donate a percentage of each sale to animal advocacy groups.

IMPORTANT SAFETY NOTE: When installed in a full-size truck, the hard bottom seat extender creates a high jump for your dog when getting in and out of your truck. Depending on your dog's size, health and agility, they may need assistance to safely enter and exit.

68767136AA

MSRP*: \$163.99

ACCUAIR
SUSPENSION

ACCUAIR 3.5-INCH DYNAMIC LIFT KIT

AccuAir 3.5-inch Dynamic lift kit designed to fit Jeep® Wrangler Unlimited (JL four-door version) equipped with V6/Turbo engines. AccuAir's Dynamic 3.5-inch lift kit provides a top-of-the-line performance suspension upgrade. Raise and lower your Jeep on demand to meet your needs. This lift kit easily clears 37-inch tires on 4.5-inch back-spaced wheels. System is controlled via touchpad controller or Bluetooth™-enabled ePlus app which allows for lowering and raising vehicle. System allows for maximum tow rating and allows for automatic load leveling. Kit allows for addition of winch bumper, tire carrier or rooftop tent as it automatically compensates for anything added to the vehicle including side steps. The underbody-mounted three-gallon air tank and compressor provide onboard air for quickly and efficiently inflating tires, water toys, camping furniture and more. Kit defaults to the standard 3.5-inch height when traveling 25 MPH or faster. When traveling under 25 MPH, vehicle can be raised by two inches or lowered by one inch. Individual corners can also be raised or lowered for handling the trail or leveling for camping.

MSRP*: \$295.00

KEG KEEPER INSULATED DRY BAG COOLER

Sold by Add-A-Tap, the Keg Keeper bag (fits sixtels and 20-liter key kegs) is a dry bag that is insulated! So instead of keeping water out (which it will do, too), it keeps all water in. When the ice melts, no need to fear because it's insulated and it keeps things at temperature longer. When you're not using it, fold it up, it's a bag after all. Product specifications are: designed to fit key kegs and sixtels, holds refillable kegs, growlers, cans or bottles, keeps beverages at temperature with advanced insulation technology (add ice if needed), water-proof and leak-proof, quality durable material, lightweight and easy to carry, zip it up and fold flat for storage.

MSRP*: \$101.00

SINGLE FAUCET DRAFT TOWER AND KEG KEEPER BAG

Sold by Add-A-Tap, the Single Faucet Tower Kit is a convenient and portable solution for serving draft beverages. With its clamp-on design, it can be easily secured on any surface, making it perfect for events and parties. Setup is quick and easy, allowing you to start pouring in seconds. Product specifications include: brushed stainless steel tower single faucet, four-foot hose installed with tail, steel shank/nut wrench, black standard tap handle (or use your own), brush plug for faucet, custom VinoDraft base and clamp-on system, VinoDraft Drip mat (or use your own). The dimensions are: 13 inches x 6.25 inches x 6.25 inches. Attaches to standard couplers. The Keg Keeper bag (fits sixtels and 20-liter key kegs) is a dry bag that is insulated! So instead of keeping water out (which it will do, too), it keeps all water in. When the ice melts, no need to fear because it's insulated and it keeps things at temperature longer. When you're not using it, fold it up, it's a bag after all. Product specifications are: designed to fit key kegs and sixtels, holds refillable kegs, growlers, cans or bottles, keeps beverages at temperature with advanced insulation technology (add ice if needed), water-proof and leak-proof, quality durable material, lightweight and easy to carry, zip it up and fold flat for storage.

Hammer black powder-coat finish
Satin black powder-coat panel finish
Winch mount
20-inch light bar mount

Our Stealth Fighter Full-Width Front Bumper features a radius plate steel construction that gives your Jeep® the perfect combination of strength and style. The extended side panels create a seamless transition between the bumper and fenders. A universal light mounting system in the center of the bumper allows you to mount up to a 20-inch radius light bar or 5 cube lights. The Stealth Fighter provides a greater approach angle and includes top hoop for additional protection. A winch mount sits behind the top hoop, and the bumper includes two reinforced clevis mounts that accept a 3/4-inch D-Ring for recovery options. This completely bolt-on front bumper comes in a hammer black powder-coat with satin black powder-coat panels. *Note: WARN winches require aftermarket fairlead for fitment.

ADDICTIVE DESERT DESIGNS F980393070103 JEEP® JL/JT PHANTOM WINCH STUBBY FRONT BUMPER

Fits: 2018–2026 Jeep® Wrangler, Gladiator JL, JLU, JT

- Knife's edge design
- High clearance fitment
- Heavy-duty standard winch mount
- Stubby width
- (1) 20-inch LED light bar mount
- (2) Mounts for cube or round lights
- (2) Integrated D-Ring clevis mounts
- Included 3/16-inch aluminum skid plate
- Retains OEM fender mounted turn signals
- Satin black powder-coated aluminum accent panels
- 2-stage hammer black powder-coat finish
- Steel construction
- Made in the USA

With its stubby width and high clearance fitment, our Phantom Series Winch Front Bumper is made for aggressive off-roading and rock crawling. The knife's edge design offers an aggressive look that compliments your Jeep's factory lines. Recovery options include a heavy-duty winch mount and two 1-inch-thick clevis mounts that take 3/4-inch D-Rings. For supplemental lighting, a 20-inch LED light bar can be mounted at the center of the bumper and a pair of cube or round lights can be mounted above the bull bar. The narrow width allows for maximum tire and obstacle clearance when on rocky terrain. Included with the bumper is a 3/16-inch lightweight aluminum skid plate that protects the sway bar disconnect. The Phantom is made from American steel that is finished in a dual-stage hammer black powder-coat and features satin black aluminum accent panels. As always, this is fully bolt-on and made in the USA.

ADDICTIVE DESERT DESIGNS R960191190103 JEEP® WRANGLER JL PHANTOM REAR BUMPER

Fits: 2018-2026 Jeep® Wrangler, JL, JLU

Knife's edge design
High clearance fitment
Heavy-duty winch mount
Full-width design that follows the factory fenders
Retains OEM fender mounted turn signals
(1) 20-inch radius light bar mount
Pair of 10-inch single row light bar mounts
(2) 1-inch thick D-Ring clevis mounts
Included 3/16-inch aluminum skid plate
Pair of cube or round light mounts
Satin black powder-coated aluminum accent panels
2-Stage hammer black powder-coat finish
Made in the USA

Our Phantom Series Rear Bumper features a low-profile knife's edge design for a sleek and trim fit that compliments your rig's factory styling. For supplemental lighting off-road, a 10-inch single row LED light bar can be mounted in the light pockets on each side. The integrated 1-inch-thick clevis mounts that take 3/4-inch D-Rings provide recovery options so you are prepared for tough situations off-road. The center of the bumper is pocketed to provide room for the spare tire. OEM features such as the parking sensors and the trailer wiring harness are fully retained in the design. The Phantom is finished in a 2-stage hammer black powder-coat with satin black aluminum accent panels and features a fully bolt-on installation. This was proudly designed and manufactured in the USA.

MSRP*: \$2,198.98

ADDICTIVE DESERT DESIGNS AC6202201NA 2021-2025 RAM 1500 TRX/RHO CENTER CONSOLE MOLLE PANELS & DIGITAL DEVICE BRIDGE

Fits: 2021-2025 Ram 1500 TRX, RHO

- Keeps EDC gear at arm's reach
- Driver and passenger side center console MOLLE panels with device bridge
- Profiled to wrap center console following OEM body lines
- Compatible with MOLLE accessories, straps, bolts and other attachment systems
- PEM nuts for 10-24 accessory bolts
- Fits Ram diamond base mounts and other device holders
- Conveniently keeps your smartphone, GPS, tablet and other devices accessible
- Side panels are great for pouches, sheaths, holsters or other EDC
- Retains full access to OEM features such as shifter, cup holder, wireless charger and storage compartment
- Does not interfere with adjusting the seats
- Dual stage hammer black powder-coat finish
- Drilling is required for installation
- Made in the USA

Our Center Console MOLLE Panels & Digital Device Bridge enables you to keep your everyday carry gear at arm's reach. It was designed to flow with the interior lines of your truck's center console and is finished in a dual-stage hammer black powder-coat to complement the factory styling. Driver and passenger side MOLLE panels offer mounting points for gear like pouches, multi-tools, holsters or other MOLLE accessories. Top plates with 10-24 PEM nuts run the length of the console and provide mounting points for Ram Mounts device holders. An additional bridge plate that crosses over the console features device mounting points, and is perfect for stowing your smartphone, GPS, radio mic, tablet and other device holders. *Please Note: Drilling is required for installation. 3 possible configurations: Side Panels Only - The side MOLLE panels can be installed on their own, without the bridge. This offers you MOLLE mounting options, as well as the upper side rails which are compatible with Ram Mounts device holders. Side Panels & Bridge - This configuration provides you with the maximum utility, offering plentiful MOLLE mounting options, and versatile device holder mounting locations at both the sides and the center of the console. Bridge Only - Although the device bridge can be installed on its own, we strongly encourage you to install the side panels along with the bridge for the cleanest aesthetic.

MSRP*: \$460.98

ADDICTIVE DESERT DESIGNS R620191190103 2021-2024 RAM TRX PHANTOM REAR BUMPER

Fits: 2021-2024 Ram 1500 TRX

- Hammer black powder-coat finish
- Satin black powder-coat panel finish
- (2) 10-inch single row led light mounts
- Parking sensor cutouts

Made with plate steel and constructed in a modern box design, the Phantom TRX Rear Bumper provides superior protection over the factory option. It's designed to flow with the truck's rear body style, and its wings flare out in a unique hammerhead style. The factory dual exhaust and tow hooks fit comfortably below the bumper, and sensor cutouts retain full functionality of the parking/backup warning system. Toward each end of the bumper are mounting points for a pair of 10-inch SR LED light bars set behind satin black aluminum accent panels. As always, this bumper is fully bolt-on and made in the USA.

ADDICTIVE DESERT DESIGNS AC96100801NA 2018+ JEEP® JL/JLU/JT WRANGLER®, GLADIATOR ADDICTIVE DESERT DESIGNS WAY BAR SKID PLATE

Fits: 2018-2026 Jeep® Wrangler, Gladiator JL, JLU, JT

Hammer black powder-coat finish
Constructed from 3/16-in. aluminum

The Addictive Desert Designs Skid Plate is a fully bolt-on design meant to protect the electric sway bar disconnect of your Jeep® Wrangler/Gladiator. The hammer black powder-coat provides a clean look, while giving a durable finish. 3/16-inch aluminum is used to supply the strength you need without unnecessary weight. If your skid plate gets abused off-road, the aluminum construction will also prevent corrosion issues. As always, this product is fully bolt-on and made in America.

68781034AA

MSRP*: \$480.98

ADDICTIVE DESERT DESIGNS AC6305101NA 2025+ RAM RHO ADAPTIVE CRUISE CONTROL RELOCATION BRACKET

Fits: 2025-2026 Ram 1500 RHO

MSRP*: \$310.98

ADDICTIVE DESERT DESIGNS F620012140103 2021-2024 RAM 1500 TRX BOMBER FRONT BUMPER

Fits: 2021-2024 Ram 1500 TRX

Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for two 20-inch light bars
Mounts for cube lights on sides

Transform the front end of your Ram TRX with the Addictive Desert Designs Bomber Front Bumper. The modern plate steel design brings aggressive styling while remaining low-profile. The center of the bumper provides inset mounting points for four Rigid 360 6-inch round lights, while each side panel provides a cube light mounting point. The Bomber does not take away from any of the factory features of the TRX. Accommodations for OEM marker lights and parking sensors are integrated into the TRX bumper design, and the OEM tow hooks remain intact. Addictive Desert Designs leads the industry in fit and finish and this bumper is no exception. The side wings follow the factory fender lines perfectly and the bumper sits almost flush to the front of the vehicle. A full 3/16-inch aluminum skid plate offers superior front end protection without adding unnecessary weight. As always, this product is fully bolt-on and made in America.

68781060AA

MSRP*: \$3,198.98

ADDICTIVE DESERT DESIGNS R620081280103 2021-2024 RAM 1500 TRX STEALTH FIGHTER REAR BUMPER

Fits: 2021-2024 Ram 1500 TRX

Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for cube lights

The Stealth Fighter Rear Bumper has a modern plate steel design that provides an aggressive look without being bulky. Clean lines and angles compliment the factory bodylines to give it a low-profile feel. Two rear-facing cube light mounts are featured behind the panels. Parking sensor cutouts and trailer plug accommodations ensure that every OEM feature is retained. Reinforced clevis mounts provide a mounting point for 3/4-inch D-Rings, and the OEM bed step and tow hooks also remain fully functional. Cutouts along the bottom of the bumper give room to keep the factory dual exhaust. As always, this product is fully bolt-on and made in America.

68781073AA

MSRP*: \$1,998.98

ADDICTIVE DESERT DESIGNS F620153030103 2021-2024 RAM 1500 TRX STEALTH FIGHTER FRONT BUMPER

Fits: 2021-2024 Ram 1500 TRX

Hammer black powder-coat finish
Satin black powder-coat panel finish
Mount for up to 10 cube lights or 40-inch curved light bar
Mounts for cube lights on side

The Stealth Fighter Front Bumper is a low-profile plate steel design. The radiused front end keeps it tight to the front of your Ram TRX while following key bodylines to make it look like it belongs from the factory. A universal light mount system allows for a 40-inch curved light bar or up to 10 cube lights in the center of the bumper, and there are two additional cube light mounts behind each side panel. A full skid plate comes down and attaches in factory mounting locations to make sure your shock reservoirs remain protected. OEM amenities such as parking sensors and marker lights are retained. Reinforced clevis mounts provide a mounting point for 3/4-inch D-Rings. As always, this product is fully bolt-on and made in America.

Fits: 2021-2024 Ram 1500 TRX

Sensor cutouts
Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for cube lights

The Addictive Desert Designs Bomber Rear Bumper takes the same low profile plate steel design from the front bumper and brings it to the rear of the truck. Unique styling is combined with unrivaled quality to deliver a product that follows bodylines and fits the TRX perfectly. The TRX Rear Bumper provides added utility with two rear-facing cube light mounts. All OEM features, such as parking sensors and tow hooks remain fully functional. Cutouts in the bottom of the bumper form around the factory exhaust, while the side wings leave enough room for the factory bed step. As always, this product is fully bolt-on and made in America.

ADDICTIVE DESERT DESIGNS AC6201801NA 2021-2025 RAM 1500 TRX/RHO DITCH LIGHT BRACKETS

Fits: 2021-2025 Ram 1500 TRX, RHO

Driver/passenger side pair
Installs to hood hinge
Locates pod light near A-pillar
Mounts LED light pods up to 6 inches
Integrated wire management
1/8-Inch American steel
Hammer black powder-coat
Fully bolt-on
Made in the USA

Our Ditch Light Brackets were designed for versatile forward or side angled lighting. The light brackets mount to the hood hinges and are positioned out of your sight lines at the base of the A-pillar. Lighting options include anything from a 3-inch Rigid or Baja cube light to a Rigid 360 or Baja Designs LP6 round light. They feature low-profile fitment that compliments the OEM body lines. Integrated wire management keeps the install looking clean. As always, these are fully bolt-on and made in America.

ADDICTIVE DESERT DESIGNS AC6201901NA-D RAM TRX BED SIDE MOLLE PANELS - DRIVER FULL SET

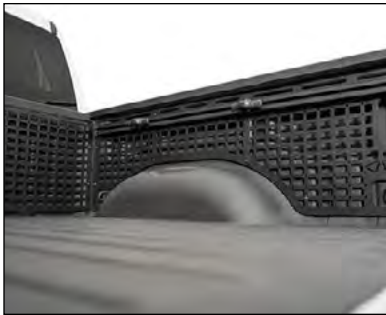

Fits: 2019-2024 Ram 1500 TRX, Standard

Driver and passenger side panels kits are available
MOLLE pattern offers diverse mounting solutions
Profiled to follow contours of truck bed
Retains access to OEM electrical panel box
Includes optional MOLLE expansion panel to cover electrical box if desired
Retains factory tie-down access
Offers additional tie-down options
High-quality American steel
Dual stage durable hammer black powder-coat finish
Fully bolt-on installation
Made in the USA

Our Bed Side MOLLE Panels optimize the cargo storage capabilities of your truck bed. Engineered for off-road durability and keeping your gear secure, these storage panels are compatible with various attachment systems. You can secure your gear to these panels with MOLLE mounts, straps, bolts or tie-down straps. Choose from several configurations for the driver side, passenger side or both sides to maximize your vertical storage – and leave the bed floor clear for larger cargo. Our panels are unrivaled in their fitment and closely follow the contours of the truck bed. Constructed from American steel and finished in a durable 2-stage hammer black powder-coat, these MOLLE panels add secure storage for essentials like shovels, hi-lift jacks, fluid tanks, recovery gear and more. The panels mount to the bed at several points, ensuring rigidity on rough terrain. Even so, they are easily removable when needed. As always, these are fully bolt-on and made in America. This modular system allows you to run 4 configurations on driver side, passenger side or both: Front Bed Panel Only; Rear Bed Panel Only; Front & Rear Bed Panels Only; Front, Center and Rear Bed Panels for full bed length coverage. *Please Note: Center panel cannot be installed on its own. It requires BOTH the front and rear panels for installation. The center panel can be installed to both the driver side or passenger side of the bed. **Please Note: Only fits the 5.7-foot-length bed.

ADDICTIVE DESERT DESIGNS AC6202101NA 2019-2025 RAM 1500 TRX/RHO BED CAB MOLLE PANELS

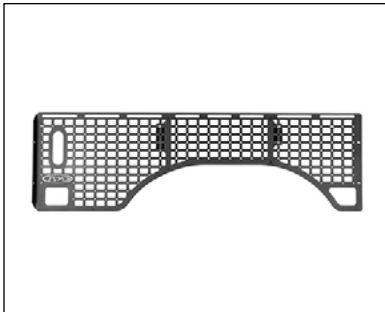

Fits: 2019-2025 Ram 1500 RHO, TRX, Standard

Sold as complete set or individual panels
Profiled to closely follow contours of the bed
MOLLE pattern offers diverse mounting solutions
Keeps bed floor clear for larger loads
Maximizes vertical storage space
Retains factory tie-down points
Offers additional tie-down options
Dual-stage durable hammer black powder-coat finish
Drilling required for installation
Made in the USA

Our Bed Cab MOLLE Storage Panels are the ultimate cargo solution for those who need effective truck bed storage solutions. Our MOLLE Panels provide a versatile platform for attaching and organizing your trail gear. They are compatible with a range of attachment systems, including quick fist mounts, MOLLE straps, bolts and other tactical solutions. The panels were designed to closely follow the contours of the truck bed, with a fitment unrivaled by others. The factory tie down points are retained and additional tie-down options are provided by our system. Manufactured from American steel, these panels maximize cargo storage by utilizing vertical storage space to keep the truck bed free for larger loads. The panels are ideal for storing gear such as shovels, hi-lift jacks, fluid tanks, recovery gear and more. Our panels are finished with a hammer black powder-coat, complementing the factory styling and providing resistance to the elements. Multiple mounting points ensure the panels are rigid and secure, yet are easily removable if needed. As always, these are made in America. The Bed Cab MOLLE Panels can be configured in 4 ways: Driver, Center and Passenger Side Full Set; Driver Side Panel Only; Passenger Side Panel Only; Driver and Passenger Side Panels Only. *Please Note: Center panel cannot be installed on its own. It requires BOTH the driver and passenger side panel for installation. **Please Note: Some drilling is required for installation.

ADDICTIVE DESERT DESIGNS F964900010103 2018-2026 JEEP® JL/JT ROCK FIGHTER FRONT BUMPER

Fits: 2018-2026 Jeep® Wrangler JL, JLU

Winch mount
 Stubby width
 Universal light mount - 20-inch radius bar or 5 cube lights
 Radius steel plate design
 Greater approach angle
 Top hoop
 Reinforced clevis mounts accept soft shackles
 Four cube light mounts on top corners
 Fully bolt-on
 100% Made in America

Break away from the pack with the Rock Fighter Front Bumper for the Jeep® Wrangler JL and Gladiator JT. Stand out on any ride with this unique stubby style bumper paired with any aftermarket or OEM fenders. Get the performance you need to take on even the toughest terrain with a greater approach angle, top hoop protection and solid steel construction. Conquer those remote trails and clear those rocks with ease. Keep your path lit up at night with a universal light mount system fit for a 20-inch radius light bar or 5 cube lights. There are additional lighting options for 1 round light or 2 cube lights on each side of the bumper. If you find yourself in an emergency situation facing potential recovery struggles, the Rock Fighter has you covered. Outfitted with a winch mount and two clevis mounts that accept soft shackles, you can get back on the trail. As always, this is fully bolt-on and made in America.

ADDICTIVE DESERT DESIGNS AC96157001NA 2018+ JEEP® WRANGLER JL, JLU ADDICTIVE DESERT DESIGN BACKUP CAMERA RELOCATION KIT - HERITAGE

Fits: 2018-2026 Jeep® Wrangler JL, JLU

Hammer black powder-coat finish
Allows use of the OEM backup camera and third brake light

The Addictive Desert Designs Stealth Fighter Tire Gate eliminates the Jeep® JL's spare tire mount, which also eliminates the OEM mounts for your backup camera and third brake light. When used in conjunction with our Tire Gate, the bracket provides new mounting points, letting you keep your camera and brake light. The installation is simple as it uses the OEM harness. There is absolutely no cutting or splicing involved. As usual, this product is made in America and finished in our hammer black powder-coat.

MSRP*: \$310.98

ADDICTIVE DESERT DESIGNS F560012140103 2019-2024 RAM 2500/3500 BOMBER FRONT BUMPER

Fits: 2019-2024 Ram 2500, 3500

Fits sensor and non-sensor models
Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for two 20-inch light bars
Mounts for cube lights on sides

The Addictive Desert Designs Bomber Front Bumper is the slimmest fitting design for your 2020 Ram 2500. A modern plate steel design gives a clean look, while the full 3/16-inch aluminum skid plate saves on weight. Reinforced mounts for 3/4-inch D-Rings bolt straight to your frame for unrivaled strength. Three different lighting options are available: 4 Rigid 360 6" light mounts, 3 Baja Designs LP6 light mounts, or two 20" light bar mounts. Each bumper comes with two additional cube light mounts behind the side panels. As always, this bumper is fully bolt-on and made in America.

MSRP*: \$3,298.98

ADDICTIVE DESERT DESIGNS C62001100103 2021-2024 RAM 1500 TRX RACE SERIES CHASE RACK

Fits: 2021-2024 Ram 1500 TRX

Light actuator kit
Color: Hammer black
Panel Color: Satin black
Upper Mount: 50-inch LED front-facing light

The Race Series Chase Rack brings a race-inspired look to the bed of your TRX. Sitting atop the rack is an actuator-controlled mounting point for a 50-inch light bar. This enables you to raise and lower your light bar, to fit in your garage or other low-clearance places. This was constructed using high-strength .120-inch wall steel tubing and lightweight CNC cut aluminum paneling. Installation is simple, as the chase rack bolts on without any modifications needed. Hardware and wiring harnesses for both the actuator and light bar are included with the rack. And as always, this is made in America.

Fits: 2019-2024 Ram 1500

6 backup sensor cutouts
Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for two cube lights

Upgrade your Dodge Ram 1500 rear bumper with the Stealth Fighter Steel Plate Bumper. The unique styling transforms the look of your truck while retaining the utility of your factory tow hitch and trailer plug. Two rear-facing cube light mounts provide your Ram with additional lighting and optional backup sensor cutouts retain your truck's utility. D-Ring mounts have been reinforced so your truck isn't left stranded in a crucial situation. Fully bolt-on Ram bumper means that no cutting or welding is required for installation.

68781038AA

MSRP*: \$1,998.98

ADDICTIVE DESERT DESIGNS F980335070103 JEEP® JL/JT PHANTOM WINCH FRONT BUMPER

Fits: 2018-2026 Jeep® Wrangler, Gladiator JL, JLU, JT

Knife's edge design
Low-profile fitment
(2) 10-inch single row led light bar mounts
(2) Integrated CNC D-Ring clevis mount recovery points
Pocketed design to cleanly fit spare tire
Retains OEM parking sensors
Retains OEM trailer plug and wiring
Heavy-duty license plate relocation
2-Stage hammer black powder-coat finish
Satin black powder-coated aluminum accent panels
Bolt-on installation
Made in the USA

The Phantom Series Winch Front Bumper prepares your rig for off-road driving with its various lighting and recovery options. Recovery options include a standard-sized heavy-duty winch mount and D-Ring mounts. For supplemental lighting, you have a variety of options. You can mount one center 20-inch LED light bar, a pair of side 10-inch single row LED light bars and a pair of cube or round lights above the bumper's bull bar. The Phantom Series Front Bumper follows the body lines and factory fenders with the tightest of tolerances. This low profile bumper was designed to improve ground clearance over the factory bumper. A heavy-duty 3/16-inch aluminum skid plate is included with the bumper and helps to guard your sway bar disconnect from damage. The durable dual-stage hammer black powder-coat finish and satin black aluminum accent panels offer a modern and sleek look that highlights your rig's factory lines. Made from high-quality materials, this bumper is built for the trail. As always, our bumpers are proudly made in the USA.

Hammer black powder-coat finish
Satin black powder-coat panel finish
20-inch light bar mount
(2) 10-inch single row led light mounts
Parking sensor cutouts

This low-profile TRX front bumper features a prerunner inspired layout. The Phantom is constructed from plate steel for a more enhanced style, rather than the traditional tube steel. Its knife's edge design was intended to mimic the look of trailing arms. A lightweight 3/16-inch aluminum skid plate provides full protection without adding excess weight. The skid also features vented cutouts for proper intercooler air flow. The Phantom has several lighting options, including a central 20-inch radius light bar mount and 10-inch SR light mounts behind each side panel. The bumper features sensor mounts in order to retain full functionality of the parking sensors. As always, this is fully bolt-on and made in America.

68781053AA

MSRP*: \$3,198.98

ADDICTIVE DESERT DESIGNS R960181280103 2018-2026 JEEP® WRANGLER JL STEALTH FIGHTER REAR BUMPER

Fits: 2018-2026 Jeep® Wrangler JL, JLU

Hammer black powder-coat finish
Satin black powder-coat panel finish
Two cube light mounts
Parking sensor cutouts

The Stealth Fighter Rear Bumper is a low-profile plate steel bumper that offers superior rear end protection with a tight fitment. OEM amenities such as, backup sensors, trailer hitch and trailer plug bracket are retained with this fully bolt-on bumper. Two rear-facing cube light mounts give the opportunity for additional rear lighting and reinforced clevis mounts offer mounting locations for 3/4-inch D-Rings for tough situations. The Stealth Fighter bumper can be used with the OEM spare tire carrier.

ADDICTIVE DESERT DESIGNS R628571280103 2021-2024 RAM 1500 TRX ADD PRO BOLT-ON REAR BUMPER

Fits: 2021-2024 Ram 1500 TRX

Backup sensor cutouts
Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for cube lights

ADD Offroad's Ram TRX PRO Bolt-On Rear Bumper is manufactured with a tubular steel frame coupled with steel and aluminum plates to provide solid protection to the rear of your truck, while still maximizing ground clearance. There are 2 rear-facing cube light mounting points that are protected by the tubular frame. The bumper retains holes for the OEM parking sensors, and also leaves the OEM tow hooks intact. The side wings of the bumper leave room for the factory bed step. As always, this is fully bolt-on and made in America.

ADDICTIVE DESERT DESIGNS F620014110103 2021-2024 RAM 1500 TRX BOMBER FRONT BUMPER

Fits: 2021-2024 Ram 1500 TRX

Hammer black powder-coat finish
Satin black powder-coat panel finish
Mounts for 4 RIGID 360 6-inch round lights

Transform the front end of your Ram TRX with the Addictive Desert Designs Bomber Front Bumper. The modern plate steel design brings aggressive styling while remaining low-profile. The center of the bumper provides inset mounting points for four Rigid 360 6-inch round lights, while each side panel provides a cube light mounting point. The Bomber does not take away from any of the factory features of the TRX. Accommodations for OEM marker lights and parking sensors are integrated into the TRX bumper design, and the OEM tow hooks remain intact. Addictive Desert Designs leads the industry in fit and finish and this bumper is no exception. The side wings follow the factory fender lines perfectly and the bumper sits almost flush to the front of the vehicle. A full 3/16-inch aluminum skid plate offers superior front end protection without adding unnecessary weight. As always, this product is fully bolt-on and made in America.

Winch mount
Sensor cutouts
Hammer black powder-coat finish
Satin black powder-coat panel finish
Mount for up to 40-inch light bar or 10 cube lights

The Dodge Ram 1500 has never looked better with the Stealth Fighter front bumper. A radius steel plate design gives your Ram truck added front end protection without all the extra bulk. Matching the Ram 1500 factory body lines, the Stealth Fighter front bumper is a tight-fitting steel plate bumper that compliments the Ram truck's look. A patented universal light mount system allows mounting up to a 40-inch radius LED or 10 cube lights. Mount any combination of brand, size and style light to give your Dodge Ram front bumper the added lighting that you need. Fully bolt-on means there is no cutting or welding required to install the Stealth Fighter front bumper. Reinforced D-Ring mounts provide your truck with added utility to pull through any tough situation, while optional parking sensor cutouts retain your truck's OEM amenities.

MSRP*: \$1,798.98

ADDICTIVE DESERT DESIGNS F550305080103 2019-2024 RAM 1500 BLACK LABEL FRONT BUMPER

Fits: 2019-2024 Ram 1500

Plate steel design
(1) 20-inch LED light bar mount
Retains OEM parking sensors
2-Stage hammer black powder-coat finish
Satin black accent panels
Fully bolt-on installation
Made in the USA

Our front bumper features a low-profile design and tight fitment. The center mount is compatible with one 20-inch LED light bar. The bumper is finished in a 2-stage hammer black powder-coat, and it features satin black accent panels. The OEM parking sensors are retained. The bumper is made from steel, and it is fully bolt-on. Made in the USA.

*Please Note: The bumper is not compatible with the TRX trim level.

68781035AA

MSRP*: \$1,798.98

ADDICTIVE DESERT DESIGNS F960272110103 2018-2026 JEEP® JL/JT STEALTH FIGHTER FRONT BUMPER

Fits: 2018-2026 Jeep® Wrangler, Gladiator JL, JLU, JT

Hammer black powder-coat finish
Satin black powder-coat panel finish
Winch mount
20" light bar mount

Our Stealth Fighter Front Bumper features a radius plate steel construction that gives your Jeep® the perfect combination of strength and style. A universal light mounting system in the center of the bumper allows you to mount up to a 20-inch radius light bar or 5 cube lights. Mounts for two additional cube lights, per side, can be found on the top corners of the Stealth Fighter to give your rig additional lighting while off-road. The Stealth Fighter provides a greater approach angle and includes top hoop for additional protection. A winch mount sits behind the top hoop, and the bumper includes two reinforced clevis mounts that accept a 3/4-inch D-Ring for recovery options. This completely bolt-on front bumper comes in a hammer black powder-coat with satin black powder-coat panels. *Note: WARN winches require aftermarket fairlead for fitment.

68781028AA

MSRP*: \$2,098.98

ADDICTIVE DESERT DESIGNS F561423030103 2019-2024 RAM 2500/3500 STEALTH FIGHTER FRONT BUMPER

Fits: 2019-2024 Ram 2500, 3500

Hammer black powder-coat finish
Satin black powder-coat panel finish
Mount for 40-inch radius light bar or 10 cube lights
Mounts for cube lights behind side panels

Addictive Desert Designs is proud to bring the Stealth Fighter line of bumpers to the 2020 Ram 2500/3500 platform. A radius plate steel design allows the bumper to stay tight to the front of the truck. Our universal light mount system in the center of the bumper allows the use of a 40-inch radius light bar or up to 10 cube lights. There is an additional cube light mount behind each side panel. Standard cutouts allow this bumper to retain OEM parking sensors. The Stealth Fighter comes standard with a winch mount that bolts directly to the vehicle's frame for greater strength. Access holes in the top of the bumper ensure maximum winch functionality. Our clevis mounts also provide a reinforced mounting point for 3/4-inch D-Rings. As always, this product is fully bolt-on and made in America.

68781046AA

MSRP*: \$3,298.98

AEV RX FRONT BUMPER KIT FOR JL WRANGLER & GLADIATOR

After pioneering the aftermarket's first stamped steel front bumper over a decade ago, AEV is once again pushing the boundaries of innovation with the introduction of the RX Front Bumper for JL Wrangler and Gladiator! The RX Front Bumper features new materials, updated styling, unique lighting options and the attention to detail that you have come to expect from AEV. Hot Stamped Boron Steel (HSBS) is an ultra-high strength, press-hardened steel and is most commonly used in automotive applications for passenger impact protection because it is lightweight with an extremely high yield strength.

68740505AA

MSRP*: \$2,294.00

AEV EX FRONT BUMPER FOR JL WRANGLER & GLADIATOR WITH HIGHLINE FLARE

The AEV EX Front Bumper for JL Wrangler and Gladiator raises the bar for front end protection with a host of innovative design features and manufacturing processes that truly set this bumper apart from all the rest – even the factory options. Designed by enthusiasts and tested in the real world, the EX Front Bumper provides the ultimate level of functionality, style and protection for your vehicle.

68740506AA

MSRP*: \$2,524.00

AEV EX FRONT BUMPER FOR JL WRANGLER & GLADIATOR WITH STANDARD FLARE

The AEV EX Front Bumper for JL Wrangler and Gladiator raises the bar for front end protection with a host of innovative design features and manufacturing processes that truly set this bumper apart from all the rest – even the factory options. The AEV EX Front Bumper is manufactured out of Hot Stamped Boron Steel (HSBS), an ultra-high strength, press-hardened steel that is commonly used in automotive applications for passenger impact protection because it is lightweight with an extremely high yield strength.

68740507AA

MSRP*: \$2,524.00

AEV RX/EX FRONT BUMPER WINCH DELETE PLATE FOR JL WRANGLER & GLADIATOR

AEV's Non-Winch Hole Cover Plate for JL Wrangler and Gladiator will close off the opening on the top of your AEV RX/EX Front Bumper if you choose to not install a winch. E-coated and powder-coated to match the front bumper's finish and for maximum corrosion resistance.

68740508AA

MSRP*: \$188.50

AEV RX/EX FRONT BUMPER US LICENSE PLATE MOUNT KIT FOR JL WRANGLER & GLADIATOR

This License Plate Mounting Kit offers a headache-free solution for customers who live in a state that requires a front license plate and have a winch installed in their AEV EX/RX Front Bumper with a hawse fairlead.

68740509AA

MSRP*: \$70.50

AEV RX/EX FRONT BUMPER WINCH MOUNT GEN 2 FOR JL WRANGLER & GLADIATOR

AEV's GEN 2 RX/EX front bumper winch mount is constructed from 1/4" steel and given an e-coat finish for industry-leading durability. The AEV Winch Mount tucks neatly between the frame rails and is compatible with our RX and EX Front Bumpers. This winch mount is compatible with GEN 2 AEV Front Bumpers only.

68740510AA

MSRP*: \$216.00

AEV UNIVERSAL FAIRLEAD

AEV's Universal Hawse Fairlead is a direct-fit upgrade for most standard sized roller and hawse fairleads. Please Note: DO NOT use with a steel winch cable. Color may vary slightly due to different lots of base material (6061 aluminum) during the anodizing process.

68740511AA

MSRP*: \$184.53

AEV RX/EX JL FRONT BUMPER CAMERA RELOCATION KIT FOR JL WRANGLER & GLADIATOR

The AEV Front Trail Cam Relocation Kit is an effective solution for JL Wrangler and Gladiator owners who already have or want to add an AEV Front Bumper to their Trail Cam-equipped Jeep® Brand vehicle. The factory location of the Front Trail Cam is perfectly fine for a stock bumper. However, once an aftermarket front bumper is added, the center hoop blocks the Trail Cam's field of vision.

68740512AA

MSRP*: \$189.50

AEV REAR BUMPER KIT FOR JL WRANGLER

The AEV Rear Bumper and RX Tire Carrier for the 2018+ JL Wrangler are essential upgrades for anyone serious about off-roading adventure. The O.E. rear bumper and spare tire carrier on the JL Wrangler work perfectly fine for a stock vehicle that seldom leaves the road, but they are not really meant to withstand much off-road abuse.

68740513AA

MSRP*: \$1,494.00

AEV REAR BUMPER FLARE EXTENSION FOR JL WRANGLER WITH HIGH FLARES

To make sure the bumper fits correctly on all Wranglers, we even designed two unique fender-flare extension kits for Jeep® Brand vehicles with either the "high" fender flare option or the standard fender flares.

68740514AA

MSRP*: \$127.00

AEV REAR BUMPER FLARE EXTENSION FOR JL WRANGLER WITH STANDARD FLARES

To make sure the bumper fits correctly on all Wranglers, we even designed two unique fender-flare extension kits for Jeep Brand vehicles with either the "high" fender flare option or the standard fender flares.

68740515AA

MSRP*: \$127.00

AEV RX TIRE CARRIER KIT FOR JL WRANGLER

The RX Tire Carrier is very similar to the proven design of our Tire Carrier for the JK Wrangler, taking all the stress and weight from your oversized spare wheel and tire off the tailgate and onto the frame of the vehicle. This not only offers a more secure mounting solution but will eliminate the risk of damaging your tailgate by overloading it, while still maintaining a one-handed operation. Many of the other signature features from our previous generation Tire Carrier also carry over, such as mounting provisions on the top of the mast for a reverse/chase light and antennas, as well as a shovel holder behind your spare tire. Additionally, a relocation kit for the O.E. rear camera and a newly designed CHMSL (third brake light) are both included with this kit. The RX Tire Carrier will also accept an AEV Fuel Caddy, allowing you to carry an extra 10.2 gallons of fuel safely and securely behind your spare tire (sold separately) and will carry up to a 40" tall tire or a 37" tall tire, when used with the optional Fuel Caddy. Both the AEV Rear Bumper and RX Tire Carrier are e-coated and powdercoated for maximum corrosion resistance and are proudly manufactured in the USA. Due to being more exposed to road debris and trail obstacles than most components, the AEV Rear Bumper also has a zinc plating applied prior to e-coat for added corrosion resistance. Please note: The AEV Rear Bumper will not work with the factory spare tire mount unless an adapter is added to move the spare tire up and away from the bumper. Additionally, AEV's RX Tire Carrier will only work with AEV's Rear Bumper and is not compatible with the O.E. rear bumper. Fits 2018+ Jeep Wrangler JL. Maximizes departure angle. Removes weight and stress off your tailgate. Two heavy-duty steel recovery points. Compatible with OEM tow package. Optional 10.2-gal AEV Fuel Caddy available. ParkSense compatible. Durable e-coat/powdercoat finish. Proudly made in the USA.

68762026AA

MSRP*: \$1,314.00

AEV RX/EX FRONT BUMPER SKID PLATE FOR 2018-25 JL/GLADIATOR

AEV's Front Skid Plate for JL/Gladiator is not only good looking, but protects your sway bar, impact beam and steering as well. Manufactured out of Hot Stamped Boron Steel (HSBS), the Front Skid Plate is designed to work with both our RX and EX Front Bumpers. It has two dedicated lift points for a Hi-Lift Jack that holds the tongue in place beneath the bumper safely and prevents the jack from sliding sideways during use.

68762027AA

MSRP*: \$414.50

PSS-24WRA

The PSS-24WRA is a 300-Watt Complete Sound System Upgrade Package for the four-door, non-amplified 2018 - Up Jeep® Wrangler and non-amplified 2020 - Up Jeep Gladiator.

The PSS-24WRA has 5 channels of powered sound that replace your factory system.

The package includes two sets of 6.5" weather-resistant mid-bass drivers and 1" weather-resist tweeters that replace the front and rear soundbar factory speakers, an 8" powered, compact subwoofer and a 4-channel power pack amplifier.

The weather-resistant speakers are designed for powerful, top-off performance that's unhindered by weather, wind or other noise while driving.

The 6.5" mid-bass drivers bring out the full potential of your sound, while the tweeters capture the high frequencies often lost in music reproduction.

The 8" compact subwoofer adds deep, accurate bass that grounds your sound system.

Vehicle-specific speaker connectors and pods designed for the 2018 - Up Jeep Wrangler and 2020 - Up Jeep Gladiator are included for plug-and-play installation.

Tweeter adapter plates use the original factory tweeter locations to take the guesswork out of installation.

Vehicle-specific mounting brackets are included to secure the 8" compact subwoofer and 4-channel amplifier under the passenger seat without drilling.

The PSS-24WRA is compatible with the i407-WRA-JL 7" Multimedia Receiver and X409-WRA-JL 9" Weather-Resistant Navigation System with Off-Road Mode.

The PSS-24WRA also includes a vehicle-specific T-harness for installation with the factory radio into a compatible four-door, non-amplified NEW 2018 - 2020 Jeep Wrangler and non-amplified 2020 - Up Jeep Gladiator.

68775828AA

MSRP*: \$2,419.95

PSS-22WRA

The PSS-22WRA includes 9 direct-fit speakers and power sources, including a preloaded subwoofer with a remote control bass knob, two sets of component speakers, one 4-channel amplifier and one mono amplifier, all built to handle any driving condition for uninterrupted music performance.

The weather-resistant SBV-10-WRA 10" Pre-Loaded Subwoofer and KTA-30MW Mono Tough Power Pack Amplifier can be installed under the passenger's seat for stealth installation that also maximizes the bass extension of your music.

The included 4-channel and mono amplifier have Dynamic Peak Power (DPP) technology to double in power during dynamic musical passages and then roll back to maintain efficiency so you get up to 1,200 watts of DPP to your speakers and subwoofer.

With the included Jeep®-specific brackets, adapters and wiring harness the PSS-22WRA has easy plug-and-play installation.

The included T-harness gets the necessary audio signal connections from behind the Jeep radio, making installation a breeze.

The PSS-22WRA is compatible with the X409-WRA-JK 9" Weather-Resistant Navigation System with Off-Road Mode (recommended), any aftermarket Alpine radio or factory non-amplified Jeep base radio.

68775829AA

MSRP*: \$2,015.95

PSS-23WRA2

The PSS-23WRA2 is a 300-watt sound system upgrade featuring a powered subwoofer, amplifier and tweeters for the 2018-23 Jeep Wrangler Unlimited JL and Jeep Gladiator JT.

The PWE-S8 subwoofer is engineered to load and disperse lower-frequency sound into the passenger's foot well area to maximize bass extension throughout the Jeep Brand vehicle for improved bass you can feel.

Included with the subwoofer is a remote bass knob so you can control the bass level from the convenience of your dashboard.

The included 4-channel amplifier more than doubles the power over the factory system allowing you to enjoy your tunes with the top off.

The PWE-S8 Powered Subwoofer and KTP-445U Power Pack Amplifier mount directly under the passenger's seat with the included mounting brackets and come pre-connected for easy, bolt-in installation.

The included SPR-10TW-WRA High-Performance Component Tweeters replace the factory tweeters on the top of the dash and add a high-frequency response for crisp, clean audio that is lacking in factory Jeep systems.

68775830AA

MSRP*: \$1,719.95

PWE-S8-WRA

Alpine's PWE-S8-WRA measures at 3" deep, 13.5" wide and 9" tall for a compact subwoofer system that can be installed under the driver's seat of the 2007-2018 Jeep® Wrangler.

The PWE-S8-WRA gives you bass you can rely on, with a rugged, cast metal enclosure that's built for a rough ride, while protecting the subwoofer inside.

Using a Class D amplifier rated at 120 watts, the 8" subwoofer is high-excursion to deliver strong bass output.

A side panel gives you access to the built-in amplifier controls for phase, gain and a low-pass crossover so you can blend your bass with your factory or aftermarket sound system.

Control your bass level from the driver's seat with an input for a wired remote level knob. The remote level knob has a 15' cable attached for flexible installation anywhere on the dash.

Adding the PWE-S8-WRA is easy with the easy-access RCA inputs and speaker-level inputs with automatic turn-on.

With the included Jeep-specific brackets, adapters and wiring harness the PWE-S8-WRA has easy plug-and-play installation.

The PWE-S8-WRA is compatible with the X409-WRA-JK 9" Weather-Resistant Navigation System with Off-Road Mode (recommended), any aftermarket Alpine radio or factory non-amplified Jeep base radio.

68775831AA

MSRP*: \$669.95

SPV-65-JLT

The kit includes a 6.5" mid-bass driver and 1" terolon dome tweeter that replaces the factory 3" and 4" drivers in the 2018 - Up Jeep Wrangler and 2020 Jeep Gladiator rear soundbar.

The kit is designed to replace the factory rear soundbar speakers with a 2-way speaker system that's weather-resistant (IP55 rating) and boasts 90W RMS/270W Peak.

The 1" terolon dome tweeters reach higher-end frequencies and improve the range of sound reproduction for top off performance.

An installation kit includes a template for cutting into the rear soundbar so you can cut out the guesswork.

Vehicle-specific connectors are included for plug-and-play installation.

The SPV-65-JLT works with the Jeep factory head unit or the Alpine X409-WRA-JL 9" Weather-Resistant Navigation Receiver with Off-Road Mode for the new 2018 - Up Jeep Wrangler and 2020 - Up Jeep Gladiator.

68775832AA

MSRP*: \$619.95

SBV-10-WRA

Alpine designed the SBV-10-WRA as a pre-loaded subwoofer enclosure that can be pressure fit under the front passenger's seat rails of your Jeep Wrangler without mounting hardware.

The SBV-10-WRA captures the lower frequencies of your music to draw out the bass and drum instruments for the impact you can feel in your chest.

Installing under the passenger's seat not only saves space, it optimizes the bass extension for deep, impactful bass performance.

The SBV-10-WRA will still perform in the rain, thanks to the weather-resistant, sealed enclosure.

The subwoofer's impedance and power rating ensure maximum output from Alpine's KTA-30MW Mono Tough Power Pack Amplifier (sold separately). The KTA-30MW is compact for stealth installation in a glove box or under a seat and is weather-resistant for powerful, reliable performance with your SBV-10-WRA.

68775833AA

MSRP*: \$519.95

HCE-RCAM-WRA

The HCE-RCAM-WRA is a Spare Tire Rear-View Camera System designed to mount behind your spare tire and poke through the spokes of your tire for rear visibility. The camera image is displayed on your Alpine aftermarket or factory Jeep® screen.

With Alpine's High Dynamic Range (HDR) technology, the camera can manage a wider range of luminance so both bright and dark areas are captured and adjusted for even exposure and white balance for clear imaging.

The weather-resistance (IP67) camera housing will ensure a reliable image no matter the driving condition.

The HCE-RCAM-WRA uses the 2007 - 2018 Jeep Wrangler's bolt pattern to mount behind the spare tire and poke through the 5x5 wheel pattern. The upper portion of the bracket hosts the rear-view camera and can be positioned to the left or right of the wheel's spokes, so you have a clear view of what's behind your vehicle.

The HCE-RCAM-WRA works with any Alpine aftermarket dash system with a composite (RCA) camera input. When using the HCE-RCAM-WRA with your factory Jeep screen, add the SGS-CH01 Camera Interface (sold separately) with active guidelines to integrate the camera with select Jeep Wrangler factory dash systems.

If you want to add a front camera for more visibility, the SGS-CH01 is compatible with Alpines KCX-C2600B Universal Camera Switcher (sold separately) that can add a front camera (sold separately) to your dash system.

68775834AA

MSRP*: \$319.95

SPV-65X-WRA

The kit includes a 6.5" mid-bass driver and 1" teteron dome tweeter that replaces the factory 3" and 4" drivers in the 2007 - 2018 Jeep Wrangler.

The 1" teteron dome tweeters reach higher-end frequencies and improve the range of sound reproduction for top off performance.

Vehicle-specific connectors are included for plug-and-play installation.

The SPV-65X-WRA comes with adapters that allow the speakers to be installed as a component set by mounting the tweeters into the tombstones of older Jeep Wranglers or onto the dash for newer Jeep Wranglers. For older Jeep Wranglers that have a soundbar, the adapters convert the speakers into a coaxial design so they can be installed into the soundbar.

The SPV-65X-WRA is weather-resistant and rated IP55, so it's protected from limited dust ingress and low-pressure water spray from any direction.

68775835AA

MSRP*: \$296.95

SPV-10TW-WRA

Tweeter for 07-17 WRA.

68775836AA

MSRP*: \$199.95

KCX-F200INT

The KCX-F200INT is designed to retain the Alpine OEM Premium Amplifier when installing the X409-WRA-JL 9" Weather-Resistant Navigation Receiver with Off-Road Mode into the NEW 2018 - Up Jeep® Wrangler and 2020 - Up Jeep Gladiator.

The KCX-F200INT mimics the signals from your Alpine OEM Premium Amplifier to retain the integrity of your system while upgrading the technology on your dash.

The compact KCX-F200INT can be easily installed for a plug-and-play interface that's hidden behind your dash.

68775837AA

MSRP*: \$219.95

ALP-HRN-CAMCH

The ALP-HRN-CAMCH Custom Camera Input Harness allows you to add an aftermarket camera to the 2007 - 2018 Jeep Wrangler.

The custom 4-foot RCA camera input cable is the correct length to reach down to the passenger side kick panel where the dash system connection is made.

The camera's composite video cable plugs into the ALP-HRN-CAMCH, which then plugs into the vehicle-specific input on the back of your Jeep Wrangler's radio. The camera image can then be viewed on your factory screen.

While the ALP-HRN-CAMCH is a perfect match for the HCE-TCAM1-WRA or the HCE-RCAM-WRA (sold separately), it also works with any Alpine rear-view camera system that has a universal connection. Additional programming will be required to activate the camera input with your Jeep Wrangler factory dash system and can be done at your local Jeep dealership.

68775838AA

MSRP*: \$49.95

DVR-C320R

No matter the driving condition, the DVR-C320R captures the footage of your drive in full 1080p HD with a 140° viewing angle and night vision.

Built-in safety features like front collision warning, lane departure warning and front car movement warning can be heard audibly and displayed on your Alpine screen.

The DVR-C320R is compatible with the X308U and INE-987HD Alpine AV/AVN Receivers via a universal RCA video output.

Wide Dynamic Range (WDR) technology automatically adjusts the exposure and white balance for a clear recording during sudden lightening changes.

When parked, the DVR-C320R enables impact triggered recording and will record up to 10 seconds after impact.

A universal mounting bracket is included for stealth installation on the inside of your windshield for a factory fit with minimal obstruction.

A secondary camera is included to monitor activity inside the cabin or to capture rear-video footage.

Built-in Wi-Fi and a 32GB SD card ensure that you can quickly transfer your files to your phone, avoiding data loss in emergencies.

Download the free ALPINE Recording Viewer app to view real-time and past recordings and control various camera configurations now available on the App Store or Google Play™.

68775839AA

MSRP*: \$519.95

HCE-C2600FD

High Dynamic Range (HDR) drive assist cameras have incredible image quality in varying levels of light that eliminates image wash-out common when going from areas of heavy shade into areas with bright sunlight.

The HCE-C2600FD has three viewing modes to show obstacles on the sides and in front of your vehicle from different angles: Panorama, Corner and Ground Views.

The camera system includes automatic imaging functions such as metering and white balance adjustment for clearer viewing.

The HCE-C2600FD is compatible solely with Alpine in-dash multimedia receivers. The direct connection ensures the highest picture quality day or night. If you're using the HCE-C2600FD along with an Alpine rear-view camera system, you need to add the KCX-C250MC Multi-Camera Selector Interface (sold separately) to switch back and forth between the images from the various cameras.

The HCE-C2600FD pairs perfectly with Alpine's License Plate Camera Mounting Kit (KTX-C10LP - sold separately). The KTX-C10LP has a direct mount for the HCE-C1100 and a built-in LED light for extra brightness.

The HCE-C2600FD is rated at IP68 (International Protection Rating), so it's protected from dust and water immersion up to one meter.

The HCE-C2600FD was designed to help with the unique challenges when off-roading with your Jeep® Brand vehicle. The HCE-C2600FD can also be installed as a forward-facing application underneath your Jeep Brand vehicle. This allows you to position the camera so it can be used to monitor the suspension or front wheels, giving you immediate viewing of these items from your Alpine touchscreen.

MSRP*: \$2,474.99

AMP RESEARCH 78239-01A POWERSTEP XTREME RUNNING BOARDS PLUG-N-PLAY FOR 19-24 RAM 1500 CLASSIC, 2018 RAM 1500, 19-24 RAM 2500/3500-DIESEL ONLY FOR 2019, ALL CABS EXCEPT FOR MEGA CAB WITH AIRRIDE

Fits: 2018 Ram 1500, 2018-2024 Ram 2500/3500, All Cabs Except Mega CB w/AirRide

- Legendary reliability with durable high-texture powder-coated finish to resist corrosion
- OEM-quality motors drive system and wiring harness that sets the industry standard
- 5-year/60,000-mile warranty
- Dual motors drive this electric-powered running board to deliver more power when deploying and retracting
- LED lights illuminate boards when deployed

For those owners who live and work in challenging environments. Sub-zero winters, mud-caked rockers - AMP Research PowerStep XTreme is designed to hold up to the extreme.

68770497AA

MSRP*: \$2,249.99

AMP RESEARCH 96139-01A VISION BOARDS FOR 2018 RAM 2500/3500 CREW CAB/MEGA CAB

Fits: 2018 Ram 2500/3500 Crew Cab/Mega Cab

- Full-length LED Glow Light seamlessly integrates into the AMP PowerStep SmartSeries for an upgraded illumination experience
- Light projects at full brightness when the step is activated then dims output for a cool running accent light feature with color-changing functionality
- Utilizes the convenient AMP Research SmartSeries app for iOS/Android devices to give the user total control of all step and LED lighting functions, including manual step override
- Easy to install with plug-and-play technology and all necessary wiring and hardware included
- Backed by a 5-year/60,000-mile warranty

See the intelligence of the AMP Research SmartSeries in a whole new light with AMP Vision by RealTruck. The AMP Research team has built a reputation for driving innovation, so they've integrated a new LED Glow Lighting system seamlessly into a reimagined step profile to create a unique electric running board experience. The new AMP Vision represents the latest and greatest in PowerStep technology by combining the ease and convenience of a power retracting step with built-in full-length LED lighting. During regular step operation, AMP Vision provides a steady and stable stepping surface with effective ground illumination to help guide your step so exiting your vehicle into darkness is a thing of the past. When the steps retract, AMP Vision transforms to color-customizable accent lighting that gives your ride an exciting visual enhancement. AMP Vision's intuitive design automatically deploys when you open a door, so it's always there when needed. Of course, you can always command your power steps and all lighting functions via your smartphone with the AMP Research SmartSeries app, giving you total control in a flash. Best of all, the AMP Vision PowerSteps feature an easy installation thanks to its simple plug-and-play technology. Even the driveway do-it-yourselfer will find themselves stepping out in record time.

ARB 0750009 JEEP WRANGLER 2018-2025 DIFFERENTIAL COVER

ARB's Air Locker engineers have expanded the range of differential covers and are pleased to release new versions of their competition differential cover to suit the Jeep® Wrangler JL Sport Sahara and Rubicon models. These new differential covers are a great addition to the already extensive range which exists for the Jeep Dana differentials. ARB's Differential Cover will protect your differential against the hazards of competition or extreme off-road use. When off-road, it is inevitable that obstacles encountered could potentially inflict expensive damage on your differential. To prevent this, ARB's Differential Cover has been specifically engineered to protect the differential and ring and pinion set and your ARB Air Locker from any off-road hazards.

ARB 10000011 SPEEDY SEAL TIRE REPAIR KIT

It's frustrating to get flat tires, but sooner or later, it's going to happen. Being prepared can turn your emergency into a quick fix and save you from using your spare. Supplied in a compact high-visibility carry case, the ARB Speedy Seal Series II includes all the components necessary to repair up to 40 tubeless radial or cross ply tires without removing the tire from the vehicle or rim. The perfect companion to your recovery kit, the ARB Speedy Seal II includes a premium spring steel insertion needle with cast handle, hardened steel reamer tool, 40 vulcanizing repair cords, lubricant, quality pliers, blade, spare valve cores, spare valve caps, Allen key, and a dual chuck pencil-type tire gauge to make checking your pressures a snap. Great value at the same affordable price, the updates to the ARB Speedy Seal II over its predecessor include 10 additional self-vulcanizing repair cords, quality pliers, spare valve stems, blade and improved high-vis orange case making the ARB Speedy Seal Series II a true all-in-one kit for emergency tire repairs. Additional packs of self-vulcanizing repair cords (50 cords) can be ordered as part number 10100010 to keep your ARB Speedy Seal Series II stocked and ready for many years of service.

68755419AA

MSRP*: \$60.95

ARB ARB505 E-Z TIRE DEFLATOR KIT WITH PSI GAUGE

The unique patented design of the E-Z Deflator allows for removal of the valve core for rapid tire deflation while also providing accurate pressure reading via the simple movement of a sliding valve. Corrosion-resistant brass/stainless deflator tool. Quality bronze bourdon tube gauge design ensures accuracy and is not affected by changes in temperature, humidity or altitude. Fully geared solid brass precision movement. Protective rubber gauge guard. Easy-to-read dial with one PSI increments. Thoroughly designed and tested to ensure accuracy. Includes protective canvas pouch and instruction sheet.

68755420AA

MSRP*: \$66.95

ARB ARB510 E-Z TIRE DEFLATOR

Adding to the E-Z Deflator, the ARB E-Z Deflator Digital Gauge makes tire deflation even easier thanks to accuracy of up to +/-1 psi @ 15-75 psi, a large digital read-out with blue backlight display, as well as multiple pressure readouts including PSI, BAR, KPA and KgF.

68755421AA

MSRP*: \$95.95

ARB ARB601 DIGITAL TIRE INFLATOR

Most four-wheel drivers understand the importance of running the correct tire pressures for different situations and/or load variances. This is why it's so important to carry an accurate air pressure gauge and tire inflation equipment in your vehicle, especially when driving off-road. The ARB digital tire inflator makes checking and adjusting your vehicle's tire pressures a fast and simple operation thanks to its large easy-to-read digital blue backlight display, big thumb-operated inflator button and easy access deflator bleed button.

68755422AA

MSRP*: \$82.95

ARB ARB705LB SNATCH STRAP

This ability to stretch is a distinction between a snatch strap and a tow strap. ARB Snatch Strap is elastic when under load, whereas a tow strap is not – the benefits of which are twofold. Firstly, the kinetic energy generated by the elasticity actually aids the recovery itself; and secondly, the elasticity greatly reduces the likelihood of vehicle damage during recovery. The enormous weight of each 4x4 and the weighted force of whatever caused the immobilization puts enormous strain on the point where the strap is attached and without some elasticity, there is a substantial risk of damaging the vehicle. For vehicle recovery, a snatch strap is more suitable than a tow strap.

68755423AA

MSRP*: \$82.95

ARB ARB710LB SNATCH STRAP

This ability to stretch is a distinction between a snatch strap and a tow strap. ARB Snatch Strap is elastic when under load, whereas a tow strap is not – the benefits of which are twofold. MSRP*: \$141.95

ARB ARB730LB TREE TRUNK PROTECTOR STRAP

When using a tree as an anchor point in a recovery situation, wrapping cable rope or chain around it causes damage to both your equipment and the tree. Tree trunk protectors help eliminate the risk of ring barking and ensure safe vehicle recovery while keeping your recovery gear undamaged and anchor point unharmed.

68755434AA

MSRP*: \$60.95

ARB ARB735LB TREE TRUNK PROTECTOR STRAP

When using a tree as an anchor point in a recovery situation, wrapping cable rope or chain around it causes damage to both your equipment and the tree. Tree trunk protectors help eliminate the risk of ring barking and ensure safe vehicle recovery while keeping your recovery gear undamaged and anchor point unharmed.

68755435AA

MSRP*: \$71.95

ARB ARB2091A SNATCH BLOCK

ARB Snatch Blocks feature side plates that sit snug against the pulley, eliminating the possibility of the winch cable becoming trapped between the pulley and the side plates. The groove on the pulley itself tapers down to the center, allowing for a variety of cable sizes (1/4-1/2) to be used and ensures the cable is seated securely in the pulley minimizing lateral movement.

68755436AA

MSRP*: \$115.95

ARB CKMA12 SINGLE 12V ONBOARD AIR COMPRESSOR

Few 4x4 accessories offer as many advantages to off-roaders as readily available on-board air. Considered by 4x4 owners around the world to be a staple accessory for off-road travel, an ARB 4x4 Air Compressor provides an immediate source of compressed air anywhere a 12- or 24-volt power source is available. Tires perform best when they are set at a pressure that is appropriate for the terrain. While highway use calls for a relatively high pressure rate, lowering your air pressure will dramatically improve your 4x4's traction in a range of off-road environments. Compressed air allows you the freedom to adjust the tire inflation level of your truck to suit the conditions. An equally beneficial feature of on-board air is the ability to re-inflate tires that have been repaired - it is not unusual to get several punctures in one day when traveling in extreme off-road conditions. In this environment, the value of owning an air compressor is priceless. When coupled with good quality tire repair equipment, an ARB Air Compressor provides the off-road traveler with independence and peace of mind. ARB 4x4 Air Compressors are individually leak tested, current draw tested and flow tested under load at the factory before packaging and come with a comprehensive 2-year warranty. And ARB's after-sales service is second to none with many of the compressor components readily available and easily sourced. Along with ARB Air Compressors, ARB also offers a range of tire accessories, including tire deflators, tire inflators and tire repair kit. A perfect pairing with ARB Air Compressors.

68755437AA

MSRP*: \$361.95

ARB RK9A PREMIUM RECOVERY KIT

The updated ARB Premium Recovery Kit sports a new heavy-duty outer shell and modernized colors. The 600gsm outer provides a rugged exterior that is perfect for recovery situations because it makes cleaning easier and helps keep the bag and its contents from getting damp. Additional updates include named compartments within the bag to keep vital vehicle recovery equipment in its place and on-hand should the need arise, a #10 SBS zippered top and improved carry handles. The multiple named compartments provide space for the included snatch strap tree trunk protector winch extension strap shackles gloves snatch block and recovery damper. Included in the kit is the highly regarded and awarded ARB 17,600-lbs Vehicle Snatch Strap (ARB705LB). The ARB Snatch Strap which has been a winner of many recovery strap tests throughout Australia and the world has a genuine 20% stretch to reduce shock to components on your vehicle and will assist in recovery situations. Also included in the ARB Premium Recovery Kit (RK9A) is the highly regarded competition snatch block (10100020) which is used by elite drivers in some of the world's toughest challenges and courses, as well as military applications in most parts of the world. When selecting a vehicle recovery strap (snatch strap) it is recommended that the minimum breaking strength of the strap should be between two and three times the gross vehicle mass (GVM) of any vehicle it is used with and that the strap must be suited to the GVM of the lighter of the two vehicles used in the recovery process. The 17,600-lbs recovery strap is therefore suitable for vehicles with a GVM between the range of 5,800 to 8,800 lbs, encompassing a majority of 4WD vehicles.

68755441AA

MSRP*: \$516.95

ARB RK11A ESSENTIALS RECOVERY KIT

The updated ARB Essentials Recovery Kit sports a new heavy-duty outer shell and modernized colors. The 600gsm outer provides a rugged exterior that is perfect for recovery situations because it makes cleaning easier and helps keep the bag and its contents from getting damp. Included in the kit is the highly regarded and awarded ARB 17,600-lbs vehicle snatch strap. The ARB Snatch Strap, which has been a winner of many recovery strap tests throughout Australia and the world, has a genuine 20% stretch to reduce shock to components on your vehicle and will assist in recovery situations. The ARB Essentials Recovery Kit also includes an ARB 19,800-lbs Ultra Light Snatch Block, two type S galvanized 4.75t rated shackles, one set of cow grain leather palm with cow split leather back gloves, a 10-ft ARB Recovery Tree Protector and the updated 600gsm recovery bag with multiple compartments highlighted in the ARB topographic styling. When selecting a vehicle recovery strap (snatch strap), it is recommended that the minimum breaking strength of the strap should be between two and three times the gross vehicle mass (GVM) of any vehicle it is used with and that the strap must be suited to the GVM of the lighter of the two vehicles used in the recovery process. The 17,600-lbs recovery strap is therefore suitable for vehicles with a GVM between 5,800 and 8,800 lbs, encompassing a majority of 4WD vehicles.

ARB RK12A WEEKENDER RECOVERY KIT

The updated ARB Weekender Recovery Kit sports a new heavy-duty outer shell and modernized color. The 600gsm outer material provides a rugged exterior that is not only ideal for recovery situations but also provides easy cleaning and prevents the bag from getting damp. Its slim design allows easy storage in your vehicle or ARB Outback Solutions drawers and keeps vital recovery equipment at-the-ready. Included in the kit is the high-quality ARB 17,600-lbs Snatch Strap (ARB705LB), two type S Galvanized 4.75T rated shackles, one set of recovery gloves and the rugged recovery bag featuring dual internal pockets with the ARB topographic design print. Dual compartments provide space for a recovery dampener (ARB220 sold separately) to further complement your weekend recovery setup. When your vehicle is stuck in knee-deep mud, bogged in the desert or aiding a recovery at the beach, reliability, performance and durability of your recovery gear is paramount. You can rely on ARB recovery products for you and your vehicle's safety.

ARB TPMKBA01 TRED RECOVERY BOARD MOUNT BASE ADAPTER

TRED has released two new mounting adapters allowing for either a side-mount or flat-mount option when used with the TPMK mounting plate. The TRED Mount Adapters are made from glass-reinforced nylon a similar material to the famous ARB TRED PRO Recovery Boards but containing a higher concentration of glass to improve strength. This material provides a lighter-weight option and a more flexible solution for keeping your TRED Recovery Boards within easy reach and out of the way of cargo storage on your vehicle's roof rack. The TRED Mount Adapter system also includes all stainless hardware for whatever mother nature can throw at it. The TRED Flat-Mount Adapter was specifically developed to be used in conjunction with the TRED Mount Baseplate (Part Number TPMK) for mounting TRED Recovery Boards to the 1-inch crossbar support tube under the mesh of your roof rack. If there is no mesh on the roof rack, additional bracing might be required to eliminate twisting and the supplied hardware might need to be shortened for a neater finish.

68755444AA

ARB TREDHDAQ TRED HD AQUA RECOVERY BOARDS

The TRED HD is the ultimate recovery board for the off-road enthusiast whose trips demand exceptional quality gear. TRED HD is made from a high-quality custom blend engineered nylon enabling high levels of flex while delivering superior strength and durability. The mix of elasticity and tough rigid design in the main body means that the TRED HD will maintain a high level of pressure on your tire to provide ultimate traction whilst still being able to take the flex from the vehicle's weight on unstable and uneven ground. TRED HD's special all-season formulation will aid you all year round in ambient temperatures from -15°C (5°F) to 70°C (158°F).

ARB 814412A HARD CASE AWNING WITH LIGHT 2.5M BLACK

The esteemed ARB Aluminum Awning just got even better. Introducing the ARB Black Edition Aluminum Awning with LED light strip. ARB has encased all the best parts of the current awnings into an 8.2 x 8.2 ft gloss black powdercoated aluminum housing. Its shock-cord-loaded opening doors are easy to use and help keep the housing from rubbing on the canvas awning when deployed. UV-treated marine-grade shock cords keep the unit closed removing all use of zippers. Stylish and practical with matching black aluminum poles, the ARB aluminum awning looks fantastic and sets up in minutes.

68763319AA

MSRP*: \$886.00

ARB 814409 SOFT CASE AWNING WITH LIGHT 2.0M

Attaching neatly to most vehicles, these self-standing retractable awnings fit onto the side of most roof racks and roof bars and are conveniently stored for immediate use on arrival. Specifically designed for harsh wilderness conditions, the awnings feature anodized height-adjustable telescopic legs, hook and loop ties to secure roof, thick reinforced aluminum extrusions, all secured and free from the outside elements in a heavy-duty nylon reinforced bag. Constructed from tough PU-coated 300gsm poly/cotton rip stop canvas, the awnings are fully waterproof and offer a UVP 50+ rating. ARB Awnings come in three great sizes and fit up to 6.9 ft (2.1 m) high mounting points. (Length being the distance from the vehicle out). Comes with pegs and guy ropes for securing legs, stainless steel mounting nuts and bolts, and comprehensive instructions.

ACTIVE CATALYTIC CONVERTER SHIELD

The Active Catalytic Converter Shield and Security Module is the only production-integrated alarm of its type. By triggering your vehicle security alarm, this solution provides a level of protection from theft of your catalytic converter that is unmatched by any other product. This device, coupled with the underbody protection plate, ensures thieves are interrupted before damage occurs. The patented tamper-detecting module listens for the precise vibration frequencies produced by attempts to remove your vehicle's catalytic converter. Contact with hand tools and cutter blades triggers your production vehicle alarm, resulting in a thief with no place to hide. Highly sensitive and smart enough to ignore other non-theft triggers, there's no need to worry about false alarms. Developed and tested together with Mopar® engineers, our design is optimized for vehicle integration. Proprietary programming is written specifically for your vehicle make and model. Production-style wiring harnesses and connectors ensure a direct and dependable connection with vehicle systems.

68709201AA

APPLICATION: RAM 1500 TWO-WHEEL DRIVE 2019-PRESENT
MSRP*: \$625.00

CATALYTIC CONVERTER SHIELD

The Catalytic Converter Shield is an underbody shield made of high-strength, corrosion-resistant aluminum. The plate features the added protection of the same underbody powdercoat as production. Fasteners are grade 8.8, with MagniCoat for superior corrosion protection. It features shielded fasteners, hidden reinforcements and coverage that prevents bending edges out of the way. It's the perfect combination of easy-to-install and hard-to-remove.

CASCADIA 100-WATT SOLAR SYSTEM™

The Cascadia 4x4 VSS 100-Watt Solar System™ hard-mounts to the hood of your Jeep®, and, during daylight hours, provides a constant flow of clean solar energy to your primary or secondary vehicle batteries. This gives you the ability to run 12V accessories like fridges, phone/laptop chargers, lights, power inverters, etc., without the need to start your engine and without the fear of draining your battery and leaving you stranded. The VSS System™ can be installed in as little as 1.5 hours. We chose the most stable and durable multilayered semi-flexible solar panel construction available to ensure that these solar panels can withstand extreme environmental conditions, maintenance-free, for years. Designed to fit Jeep Wrangler (JK version) equipped with a standard hood.

12V ACCESSORY CHARGING KIT

The 12V Accessory Kit option gives deeper functionality to the VSS System 2.0. It plugs into the Cascadia 4x4 MPPT Bluetooth® Charge Controller (15A) and draws power directly from the battery being charged by solar. Users can program the voltage cut-off parameters via the CascadiaTether™ app to automatically cut power to the device when the battery reaches a user-defined voltage.

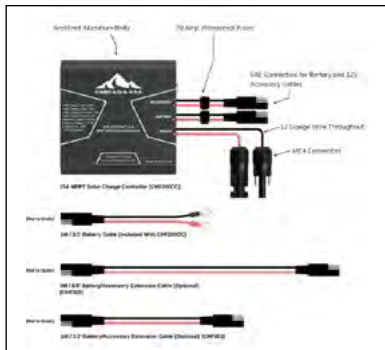

The 12V Accessory Kit features a USB-C (PD 65W), a USB-A (QC 3.0), a 12V power socket and a digital power meter.

A 3m / 9.8ft power cable is supplied, and Cascadia 4x4 offers extension cables that can be daisy-chained together depending on where the user wants to place the 12V Accessory Kit.

The 12V Accessory Kit is the easiest way to draw energy directly from the VSS System 2.0 to power fridges, solar generators, power stations, smartphones, laptops and more.

HOOD SOLAR PANEL FOR JEEP® JL/GLADIATOR STANDARD HOOD

The Cascadia 4x4 VSS System™ 2.0 is the latest iteration of the world's first vehicle-specific hood solar panel system, and it's packed with new technology. The solar panel attaches directly to the vehicle hood using Cascadia 4x4's SolarClasp™ Technology, enabling it to be removable, and creating an insulative air-pocket for cooling.

Cascadia 4x4's vehicle hood solar panel provides high-efficiency, clean energy generation on otherwise empty space. It uses the power of the sun to keep the vehicle battery fully charged.

The system is capable of powering solar generators, fridges, handheld devices, emergency devices, lights, tools and overlanding accessories without any maintenance or setup beyond initial installation. System monitoring and programming is available via the CascadiaTether™ Bluetooth app.

CTEK MXS 5.0 - 12V BATTERY CHARGER

The CTEK MXS 5.0 Charger features capabilities for improved charging in all weather. It is the perfect charger for the user with multiple vehicle types and higher demand battery charging and maintenance requirements. The MXS 5.0 offers features such as a special reconditioning function that restores stratified and deeply discharged batteries, unique maintenance charging and the charging of demanding AGM batteries (i.e., Optima). The charger is splash- and dust-proof, designed to protect vehicle electronics, non-sparking, reverse-polarity protected and short-circuit-proof. It's a fully automatic microprocessor-controlled charger with built-in automatic temperature sensor features and a unique combination of advanced charging modes which makes the new MXS 5.0 the fastest, most effective and versatile consumer charger CTEK has ever made. Alligator clamps and eyelets included. The MXS 5.0 charges batteries up to 110AH and maintains larger batteries up to 160AH. It features a unique reconditioning mode, built-in temperature sensing capabilities, AGM and new EFB (enhanced flooded battery) battery charging capability, completely sealed unit, clean voltage and current, premium input and output cable with robust strain relief. The Charger carries a five-year warranty and works for all types of lead-acid 12V batteries (WET, EFB, MF, CA/CA, AGM, GEL).

68679179AA

MSRP: \$119.99

CTEK CT5 TIME-TO-GO CHARGER

The CTEK CT5 TIME-TO-GO battery charger and maintainer is a world first because it answers the question "When will my battery be fully charged?" The CT5 TIME-TO-GO gives you an accurate prediction of the remaining charging time in hours. Not only that, but it'll also tell you when you can safely attempt to start your vehicle before the battery is fully charged. The CT5 TIME-TO-GO uses advanced technology to give you three charging and maintenance programs - Normal, AGM and Recond. It's easy to use and fully automatic, so it can be connected directly to the battery indefinitely if required, and it won't over or undercharge. The CT5 also has built-in temperature-sensing capabilities. Alligator clamps and eyelets included. Features include charging for all types of lead-acid 12V batteries (WET, EFB, MF, CA/CA, AGM and GEL), tells you how long before the battery is charged and ready to go, indicator to tell you when you can try to start your vehicle after a dead battery, fully automatic charging with max 4.3A, tests and restores battery capacity, and non-sparking, reverse polarity protected and carries a five-year warranty.

68679181AA

MSRP: \$119.99

CTEK D250SE 20A BATTERY CHARGER

The CTEK D250SE Charger is a fully automatic, five-step charger that supplies up to 20A of power to any 12V lead-acid or lithium service battery (LiFePO4, Li-Fe, Li-iron, LFP). It has selectable charge algorithms for AGM and lithium batteries and can use power through its dual input from the alternator, solar panel and wind power. When the service battery is fully charged, the D250SE will automatically redirect maintenance charge power to the starter battery. The D250SE can maintain a stable output up to 20A to vehicles fitted with smart ECU controlled alternators and also has a temperature sensor for optimized charging, regardless of weather conditions. With award-winning Swedish technology, the dual input D250SE allows you to enjoy your vehicle more with maximized battery capacity as the ideal charger for vehicles without access to a main power supply. It carries a two-year warranty.

68679183AA

MSRP: \$599.99

CTEK PRO25SE BATTERY CHARGER

The CTEK PRO25SE Charger is an innovative, versatile and highly efficient 25A battery charger and power supply. Supplied with 236-inch charging cables, you can install the unit on ramp-posts or in work bays. Combining power and advanced technology with safety and compatibility to work with any 12V vehicle battery, including 12V lithium batteries (LiFePO4, Li-Fe, Li-iron, LFP). It's the perfect solution for battery charging in a professional workshop. Advanced technology will ensure that a safe, fast charge is delivered to exactly meet the needs of the individual battery. The PRO25SE has a dedicated lead-acid battery reconditioning program to restore battery life and recondition dead batteries. "Supply" mode will support the battery during diagnostic or fault-finding work. It has low voltage and current ripple, so it's safe for the battery and the vehicle's delicate electronic systems. Fully automatic and easy to use, it's also very simple to connect, spark-proof and reverse-polarity protected to protect the user and the battery. The PRO25SE is designed to ensure easy handling in both the workshop and the showroom. Features include 19.6-ft. charging cables, wall hanger/bracket, mounting points within the casing for permanent installation on ramp posts or in work bays, compatibility with batteries from 40 Ah to 500 Ah (30 Ah to 450 Ah lithium, 12V lithium batteries - LiFePO4, Li-Fe, Li-iron, LFP), built-in temperature sensor to achieve maximum charge levels, lightweight and highly portable. This charger carries a two-year warranty.

68679184AA

MSRP: \$499.99

CTEK PRO25S BATTERY CHARGER

The CTEK PRO25S Charger is an innovative, versatile and highly efficient 25A battery charger and power supply designed around the needs of the automotive professional. Combining power and advanced technology with safety, portability and flexibility to work with any 12V vehicle battery including lithium (LiFePO4, Li-Fe, Li-iron, LFP), the PRO25S is the perfect solution to professional battery charging, in the workshop or the showroom.

Advanced technology will ensure that a safe, fast charge is delivered to exactly meet the needs of the individual battery. The PRO25S has a dedicated lead-acid battery reconditioning program to restore battery life and recondition dead batteries. "Supply" mode will support the battery during diagnostic or fault-finding work. It has low voltage and current ripple, so it's safe for the battery and the vehicle's delicate electronic systems. Fully automatic and easy to use, it's also very simple to connect, spark-proof and reverse-polarity protected to protect the user and the battery. The PRO25S is designed to ensure easy handling in both the workshop and the showroom. It's lightweight and portable, and the rugged, impact-resistant casing means it can also handle the toughest workshop environment. Features include compatibility with battery types 12V: WET, EFB, MF, Ca/Ca, AGM, GEL, LiFePO4, dedicated lithium mode (12V lithium batteries - LiFePO4, Li-Fe, Li-iron, LFP), built-in temperature sensor to achieve maximum charge levels, dedicated lead-acid reconditioning program to restore battery life and recondition dead batteries. This charger carries a two-year warranty.

The CTEK USB-C Charge Cable Clamps allows you use a separate 12V service battery to power your CS FREE without being connected to a power outlet. It is to power your CS FREE quickly, safely and easily from a 12V service battery. The clamps let you charge and maintain your vehicle battery wherever you are by simply attaching the red and black clamps to the service battery's corresponding positive and negative terminals and connect the USB-C plug to the CS FREE's charge input port. The USB-C Charge Cable Clamps have tough, hardwearing and tangle-free cables that have been rigorously tested.

CTEK COMFORT CONNECT M6 EYELET

The CTEK Comfort Connect M6 Eyelet (for smaller batteries like motorcycle/lawn tractor) gives you the opportunity to quickly and easily reach well-hidden batteries in the vehicle and satisfy all of your battery charging needs without any hassle. CTEK offers three different sizes depending on the type of battery terminals. There is no need to hassle with battery clamps every time, just permanently mount Comfort Connect on every battery that needs charging and easily charge and maintain the batteries after use for prolonged life. Designed to fit UC 800, MULTI US 3300, MULTI US 7002, US 0.8, MUS 4.3, Murs 7.0, MXS 5.0, Lithium US, CT5 Powersport and CT5 TIME-TO-GO battery chargers.

68679195AA

MSRP: \$9.99

CTEK COMFORT CONNECT M8 EYELET

The CTEK Comfort Connect M8 Eyelet (for top post batteries) gives you the opportunity to quickly and easily reach well-hidden batteries in the vehicle and satisfy all of your battery charging needs without any hassle. CTEK offers three different sizes depending on the type of battery terminals. There is no need to hassle with battery clamps every time, just permanently mount Comfort Connect on every battery that needs charging and easily charge and maintain the batteries after use for prolonged life. Designed to fit UC 800, MULTI US 3300, MULTI US 7002, US 0.8, MUS 4.3, Murs 7.0, MXS 5.0, Lithium US, CT5 Powersport and CT5 TIME-TO-GO battery chargers.

MSRP*: \$403.00

CTEK WALL HANGER 300 HANGING BRACKET

The CTEK Wall Hanger 300 has been specially designed to let you mount larger 300W CTEK chargers on walls, ramp posts or hang it off vehicle doors, making it perfect for workshops and garages. Its plate screws directly onto the back of the charger and it also comes with a hook to help you store cables safely. The unit has durable rubber feet so you can place your charger on windshields or bodywork without scratching the vehicle's paintwork. It carries a two-year warranty and is designed for use with MUS 25000 (56-674).

68679199AA

MSRP: \$39.99

CTEK COMFORT CONNECT M10 EYELET

The CTEK Comfort Connect M10 Eyelet is the ideal solution if your battery is difficult to get to, hidden or when you can't use clamps. Just connect the easy-to-fit eyelet terminals to the battery and charge as usual.

68679200AA

MSRP: \$9.99

CTEK MUS 7002 BATTERY CHARGER

The CTEK MULTI US 7002 is the ideal universal battery charger for your camper, car and boat. The battery charger is well suited for year-round use as it can stay connected for months. Thanks to its "Supply" mode, the battery charger provides power even without a battery. The Supply mode is indispensable when changing the battery as you avoid losing complicated program settings. It is perfect for vintage cars, boats with one battery, boats with start and service batteries, boats with start and service banks, scooters, motorcycles, Quads/ATVs, lawnmowers, RVs, and tractors (equipped with minimum 14Ah battery). The MULTI US 7002 includes two interchangeable connection leads, one with clamps and one with eyelet terminals. It has a unique eight-step charging curve. This newly refined technology developed by CTEK ensures that the vehicle's battery gets the best possible care. It even analyzes if the battery can hold the charge given. If it cannot, the battery is faulty and needs to be replaced. The CTEK chargers are developed for personal, vehicle and battery safety. It is fully automatic for charging and maintenance. There is no need for any specific knowledge of batteries or their charging methods; the MULTI US 7002 will take care of that. Once you switch to the preferred mode, the charger takes its own readings and then begins to charge the battery in eight steps, including pulse maintenance for best performance and service life (arguably the most caring mode for a battery connected for a long time, a CTEK patented system). It is also perfectly suited for Optima Yellow Top batteries. Unused batteries lose their power and their life is shortened through sulphation. It is also more difficult to charge sulfated batteries. The MULTI US 7002 has a patented method for reconditioning sulfated batteries. The charger analyzes the state of the battery and, if possible, recovers the battery and its power. It is made for all weather conditions and situations and is prepared to charge and maintain, no matter the weather, temperature or situation. The MULTI US 7002 is extremely robust, water- and dust-resistant (IP65 classification) and is certified for use between -4°F and +122°F. Most vehicles today are equipped with sensitive electronic systems. Unlike less-sophisticated chargers, there is no need to disconnect the battery; the MULTI US 7002 is specially designed to not damage electronic systems. All CTEK models are designed to consider the safety of the user. They are spark-free, making the connection much easier and safer considering the gases batteries normally produce. The MULTI US 7002 is also protected from reverse-polarity connections and is short-circuit proof. A red light on the charger will simply indicate that the charging cannot begin until the user has connected the charger correctly. The Supply mode serves as a power supply unit that can run 12V equipment up to 7A. When changing a battery, important settings will therefore not be lost. The unique Recond mode restores the power capacity in a stratified battery, prolonging its life. The stratifying process starts after just a few deep discharges of the battery.

68679201AA

MSRP: \$209.99

CTEK COMFORT INDICATOR PANEL

The CTEK Comfort Indicator Panel is designed and developed to make the maintenance of the battery in the vehicle easy and convenient. The Comfort Indicator Panel easily shows the status of the battery and makes sure that the battery always gets the care it needs. It can prolong the life expectancy of the battery as it makes sure it can always be fully charged and indicates when the harmful sulfation process begins. It is designed to fit MULTI US 3300, MULTI US 7002, US 0.8, MXS 5.0, Lithium US, CT5 Powersport, MUS 4.3 Test & Charge, MUS 4.3 Polar and CT5 TIME-TO-GO battery chargers. An indicator is the easiest way to monitor the charge in your battery. An accurate voltage reading for your battery is displayed two hours after you've used your vehicle. Green means the battery voltage is more than 12.65V. No need for charging. Yellow means the battery voltage is between 12.4 and 12.65V. It's time to consider charging the battery. Red means the battery voltage is below 12.4V. It's definitely time to charge the battery.

68679202AA

MSRP: \$49.99

CTEK COMFORT INDICATOR EYELET

The CTEK Comfort Indicator Eyelet is designed for permanent installation with a direct connection to the battery. For use with CTEK chargers, it enables you to charge batteries that are in hard-to-reach places or where using clamps is inconvenient or impossible. Should charging be required, plug in your CTEK charger and charge the battery. Extended cable length: 19.6 inches. Designed to fit MULTI US 3300, MULTI US 7002, US 0.8, MUS 4.3, MXS 5.0, Lithium US, CT5 Powersport and CT5 TIME-TO-GO battery chargers. The M8 Eyelet is practical for all automotive battery applications. An indicator is the easiest way to monitor the charge in your battery. An accurate voltage reading for your battery is displayed two hours after you've used your vehicle. Green means the battery voltage is more than 12.65V. No need for charging. Yellow means the battery voltage is between 12.4 and 12.65V. It's time to consider charging the battery. Red means the battery voltage is below 12.4V. It's definitely time to charge the battery.

CTEK ADAPTER

The CTEK Comfort Connect-Plug Adapter allows older (pre-2008) models of CTEK chargers to be compatible with the new generation accessories. Just connect to the CTEK charger fitted with the old-style connector and the unit immediately becomes ready for use with all our modern Comfort Connect and Comfort Indicator accessories. Cable length 4.7 inches.

68679211AA

MSRP: \$7.99

CTEK US 0.8 BATTERY CHARGER

The CTEK US 0.8 Battery Charger is CTEK's smallest 12V charger. It offers state-of-the-art technology and is perfect for charging smaller 12V batteries that can be found in motorcycles, jet skis, ATVs and lawnmowers. It is also suitable for maintenance charging normal-sized batteries such as car batteries. The unique display allows the user to follow the entire charging process. The US 0.8 Battery Charger is a compact and fully automatic six-step charger for 12V batteries from 1.2-32 Ah and is suitable for maintenance charging up to 100 Ah. It is splash- and dust-proof, delivers 0.8A and is designed to protect vehicle electronics. It is non-sparking, reverse polarity protected and short circuit proof. Features include simplifying by using the same charger for multiple batteries, water-resistant so that the solution can be taken to the problem even if it rains or snows, patented maintenance charge for a unique combination of maximized life and performance, patented desulphation that extends the battery life, no sparks, short-circuit proof and reverse-polarity protected for untroubled usage. This product carries a five-year warranty. Alligator clamps and eyelets included.

68679212AA

MSRP: \$64.99

CTEK COMFORT INDICATOR 12V PLUG

The CTEK Comfort Indicator 12V Plug allows charging through a vehicle's 12-volt socket. The connector has our intelligent comfort indicator which shows how much power is left in the battery. The socket in the vehicle must be live when the ignition is in the "off" position to charge your battery using this accessory. Compatible with CTEK US 0.8, MULTI US 3300, MUS 4.3, MUS 7002, MXS 5.0 Lithium US, CT5 Powersport and CT5 TIME-TO-GO battery charger. An indicator is the easiest way to monitor the charge in your battery. An accurate voltage reading for your battery is displayed two hours after you've used your vehicle. Green means the battery voltage is more than 12.65V. No need for charging. Yellow means the battery voltage is between 12.4 and 12.65V. It's time to consider charging the battery. Red means the battery voltage is below 12.4V. It's definitely time to charge the battery.

MSRP: \$39.99

CTEK BUMPER, BLACK

The CTEK Bumper is a black silicon rubber case to protect both the charger and the vehicle's paintwork from being damaged by hitting hard surfaces or your vehicle. Designed to fit MUS 4.3, MXS 5.0, Lithium US, and CT5 TIME-TO-GO and CT5 Powersport battery chargers.

68679214AA

MSRP: \$29.99

CTEK 12V BATTERY ANALYZER

The CTEK 12V Battery Analyzer tests the condition of all types of 12V lead-acid batteries including Wet, Maintenance Free, Ca/Ca, Gel and AGM with high accuracy. Easy to use, it provides fast and easy-to-understand results. Operating voltage range is 8-15V with a test range of 200-1200EN. Simply connect the clamps to the battery and follow the step-by-step instructions on the display. The easy-to-read display gives clear information on the condition of any 12V lead-acid battery and advises what action is required. With no need to disconnect the battery from the vehicle, the patented technology used by the CTEK Battery Analyzer is safe for the user and vehicle electronics. It is reverse polarity protected, creates no battery loads, heat or sparks. Features include ease of use – simply attach to the battery (no need to disconnect) and follow the on-screen instructions, provides fast, accurate results – the CTEK Battery Analyzer tests the battery in seconds providing an instant on-screen result which advises what action should be taken, safe – the patented technology not only provides fast, accurate results but undertakes the test without placing a load on the battery and generates no potentially dangerous heat or sparks and works equally well with all lead-acid battery types and requires no adjustment to perform an accurate test. This product carries a two-year warranty.

68679215AA

MSRP: \$139.45

CTEK LITHIUM US BATTERY CHARGER

The CTEK Lithium US Battery Charger is an advanced microprocessor-controlled charger specially designed to recharge and maintain the cells of Lithium-Iron (LiFePO4) batteries thus maximizing their performance and lifespan. With up to 4.3A of charge current available the Lithium US Battery Charger is extremely flexible and will charge LiFePO4 batteries from 5Ah to 60Ah and maintain up to 120Ah. The operation is simple and charging will commence upon connection. With no need to disconnect the battery from the vehicle, at charge start it will automatically reset any low voltage protection electronics (Battery Management System) fitted. Charging can be restarted manually at any time using the Reset button. The CTEK Lithium US Battery Charger is a fully automatic connect and forget charger with eight charging steps including a testing sequence to show if the LiFePO4 battery can take and retain the charge, a unique maximization step to restore full capacity, and patented maintenance charging to ensure maximum performance even after months of inactivity. Splash-proof and dust-proof (IP65) it is easy and safe to use, protects vehicle electronics, is spark-free, is reverse polarity protected and short circuit proof. This product carries a five-year warranty.

WALL HANGER FOR PRO25 WITH MAGNETIC MOUNT

Sold by CTEK, the Wall Hanger Pro is specially designed to allow the MUS25000, MXS 25EC and PRO25S chargers to be mounted in an easy "on-off" fashion on a wall, vehicle lift post, or hung on a vehicle door or window. The wall hanger has rubber feet to avoid scratching vehicle paintwork and includes a hook for safety and conveniently storing output cables and clips. Kit includes: charger mounting plate that attaches directly to the back of the charger, wall mounting plate with magnets for wall/surface mounting without drilling, screws and rubber feet.

68722793AA

MSRP*: \$51.99

CTEK MUS 4.3 POLAR COLD WEATHER BATTERY CHARGER

The CTEK MUS 4.3 Polar Cold Weather Battery Charger has been specially developed to offer excellent all-around charging with special cold weather performance and adapted AC and DC cables to handle severe cold down to -22°F (-30°C). The MUS 4.3 Polar Cold Weather Battery Charger is an advanced microprocessor-controlled battery charger providing unrivaled performance on batteries from 1.2Ah up to 110Ah. Features include the ability to diagnose a battery's condition to establish if it can receive and retain a charge, a patented automatic desulphation program, and a special reconditioning function that will revive and restore deeply discharged and stratified batteries. Snowflake mode ensures ideal charging performance even in the most extreme cold conditions. Patented Float/Pulse maintenance makes it ideal for long-term maintenance. The entire process of battery testing, charging and maintenance is easily followed on the clear LED display. The MUS 4.3 Polar Cold Weather Battery Charger is a fully automatic connect and forget 12V charger with eight charging steps and offers selectable 0.8A and 4.3A programs. The Recond and Snowflake modes operate individually or together in both 0.8A and 4.3A programs providing great flexibility for the user. It has a wide charging range on all lead-acid battery types from 1.2Ah up to 110Ah with additional maintenance capability to 160Ah. Splash-proof and dust-proof (IP65), it is easy and safe to use, protects vehicle electronics, spark-free, reverse polarity protected and short circuit proof. This product carries a five-year warranty. Alligator clamps and eyelets included.

68679217AA

MSRP: \$189.99

CTEK MUS 4.3 TEST&CHARGE BATTERY CHARGER/TESTER

The CTEK MUS 4.3 Test&Charge Battery Charger/Tester combines an advanced microprocessor-controlled battery charger with a battery and alternator test function to provide the ultimate in battery testing, charging and maintenance. It provides excellent performance on batteries from 1.2Ah up to 110Ah. The charger solves a broad range of battery problems and features include a patented automatic desulphation program and a special reconditioning function that will revive and restore deeply discharged and stratified batteries. The patented Float/Pulse maintenance makes the charger ideal for long-term maintenance. The Recond and Snowflake modes operate individually or together in both 0.8A and 4.3A programs providing great flexibility for the user. It features three easy-to-use programs to test battery voltage, start power, and alternator performance to provide a complete picture of battery and vehicle charging system health. The MUS 4.3 Test&Charge Battery Charger/Tester is easy and safe to use, protects vehicle electronics, spark-free, reverse polarity protected and short circuit proof. The MUS 4.3 TEST&CHARGE features a 5-year warranty. Alligator clamps and eyelets included. This product carries a five-year warranty.

MSRP: \$149.99

PRO25SE WITH MAGNETIC MOUNT

Sold by CTEK, the PRO25SE comes with a 19.6-foot charging cable, wall hanger and bracket with magnets to mount without drilling. Mounting points are within the casing for permanent installation on ramp posts or in work bays without drilling. Works with battery types 12V: WET, EFB, MF, Ca/Ca, AGM, GEL, LiFePO4, and compatible with batteries from 40 Ah to 500 Ah (30 Ah to 450 Ah lithium - 12V lithium batteries [LiFePO4, Li-Fe, Li-iron, LFP]). Includes supply mode to support the battery during diagnostic or fault-finding work and dedicated lithium (12V lithium batteries [LiFePO4, Li-Fe, Li-iron, LFP]) mode. Integrated safety features, it's safe for the battery and the vehicle. Built-in temperature sensor to achieve maximum charge levels. Fully automatic and easy to use. Simple to connect, spark-proof and reverse-polarity protected. Dedicated lead-acid reconditioning program to restore battery life and recondition flat batteries. Lightweight, highly portable, tough and robust, it includes a two-year warranty.

MSRP*: \$509.99

CTEK SMARTPASS 120S ONBOARD CHARGER

The CTEK SMARTPASS 120S charges and supplies the service battery and equipment with 120A. Separate critical equipment from non-critical equipment ensuring that radio, emergency lights and navigation systems always have power. SMARTPASS 120S is a 120A power management solution which distributes, controls and maximizes the available energy from your alternator to power service batteries and consumers. It handles all 12V batteries between 28-800Ah. Its Battery Guard function ensures that critical equipment such as radio, emergency lights and navigation systems always have power and take priority when the voltage on the service battery is low disconnecting non-critical consumers. The unit's Battery Guard will protect your service battery from total discharge and built-in over-temperature protection reduces charge current before the battery temperature gets too high. SMARTPASS 120S is compatible with the D250SA and D250SE 20A onboard chargers. Features include smart alternator compatible, quick recharge of batteries 28-800Ah and start assistance function.

CTEK (40-704) CS ONE (GEN 2) 8 AMP 12V LEAD-ACID, AGM AND LITHIUM BATTERY CHARGER & MAINTAINER

CS ONE (Gen 2) NA

The CS ONE sets a new standard in battery charging - delivering elite performance yet powerful simplicity for those who demand the very best. Through its revolutionary polarity-free APTO™ technology, the CS ONE does all the thinking for you, automatically adapting its charge to what your battery needs. The Wi-Fi and Bluetooth®-connected CTEK app unlocks advanced features and functionality, giving you full control of battery care when you want it. Powerful simplicity, elite performance.

The CS ONE has been created for serious enthusiasts and vehicle owners who demand the very best from an intelligent battery charger. From the revolutionary APTO™ technology to the black polarity-free clamps, the CS ONE offers unparalleled ease of use and functionality, automatically recognizing the battery type, size and health, to deliver a customized charging program for your specific battery. The Gen 2 version of the CS ONE offers Wi-Fi and Bluetooth connectivity to the CTEK app, unlocking additional features such as RECOND, WAKE UP and SUPPLY, as well as advanced charging insights. Remove the guesswork, eliminate frustration. The CS ONE is the ultimate charging solution for those who settle for nothing less than perfection.

FEATURES

- Adaptive charging: APT™ technology automatically adapts charging to any 12V battery, including lithium
- Polarity-free: The clamps can be safely connected to either charging point when charging
- Connect and forget: Can be left safely connected for long periods during maintenance charging
- Seamless connectivity: Wi-Fi and Bluetooth-enabled app for additional features and insights
- Improve battery life: Extend battery lifetime by up to 3 times through regular charging
- WAKE UP lithium batteries with under voltage protection or deeply discharged lead-acid batteries
- RECOND program to restore and recondition lead-acid batteries
- SUPPLY program to support the battery during service work and retain contact power to the vehicle during battery replacement/removal
- Charge session monitoring, detailed charging history and activity log
- Custom charging reminders and automatic notifications on errors and updates
- Automatic temperature compensation for extreme weather
- 5-year warranty

CTEK (40-727) NXT 15, 15 AMP 12V LEAD ACID, AGM AND LITHIUM-ION BATTERY CHARGER & MAINTAINER

The NXT 15 is a tough, high-performance 15A battery charger designed to handle any type of 12V battery. Award-winning Swedish technology offers versatile modes like reconditioning, supply mode and temperature compensation – ensuring fast and dependable charging and maintenance – whether performance cars, boats or leisure vehicles.

Take charging to the next level with NXT 15.

Introducing the NXT 15 battery charger. It's a powerful, high-performance 15A charger, packed with award-winning Swedish technology – and with CTEK's DNA running through it. NXT 15 ensures flawless charging and maintenance for 12V lead acid and lithium-ion batteries. Features include DE sulphation modes, reconditioning for deeply discharged batteries, constant 13.6V supply mode and built-in temperature sensor for optimal charging in any weather. It's fully automatic so just 'connect-and-forget' – safe, spark-free and perfect for performance vehicles, boats, caravans, trucks and more.

Features

- 15A power for faster charging and consistent performance
- Supports 12V lead acid and lithium* batteries (30-350Ah)
- Supply mode delivers constant power (13.6V/15A) to support the battery
- Automatic temperature compensation for extreme weather
- Fully automatic, spark-free and reverse polarity protected
- Compact design with robust rubber cables
- Patented DE sulphation and reconditioning modes restore battery life
- Convenient 'connect-and-forget' usability
- Backed by a 5-year warranty for total peace of mind
- Award-winning Swedish technology for unmatched performance

TECHNICAL SPECIFICATIONS

Charging category: AC charging

Input: 110-120 VAC, 50-60 Hz, 3.0 A

Output: 14.4/15.8/13.6V, 15 A, lead-acid battery types. 13.8V/14.4V/13.3V, 15 A, LiFePO

Battery chemistry: Lead acid; Lithium-ion.

Battery types: 12V; WET; MF; Ca/Ca; AGM; EFB; GEL; LiFePO

Battery capacity: 30 Ah – 350 Ah

Back current drain*: Corresponding to less than 1Ah/month

Battery voltage: 12V

Ambient operating temperature: -4 °F to +122 °F (-20 °C to +50 °C)

Cooling fan

Start voltage: 2.0V

Ripple**: Less than 4 %

Temperature compensation: External charge voltage temperature compensation sensor

Degree of protection: IP44

Dimensions (L x W x H): 9.25 x 5.12 x 2.56 in

Net weight (unit with cables): 3.97 lbs.

Gross weight (unit in box): 4.63 lbs.

Warranty for 5 years

68775843AA

MSRP*: \$379.99

CURRIE 44 FRONT AXLE ASSEMBLY - FITS JEEP® WRANGLER JL AND GLADIATOR JT

The Currie 44 front axle assembly is a direct bolt-in solution that reduces the overall cost by enabling you to retain the complete stock JL outer knuckle assemblies (brakes, hubs, etc.), steering and stock wheel bolt pattern. Direct Bolt-in Fit for Jeep® Wrangler JL. Available with ARB Air Locker or Eaton ELocker.

DIFF COVER DANA 30JL M186 (BLACK)

Currie high-strength nodular iron differential covers protect expensive internals from the most extreme trail hazards and adds structural support to the housing's face flange for improved strength. The clean, trim shape has ample clearance for front or rear applications where steering or gas tank clearance is a concern.

MAXIMUM PROTECTION - Enjoy peace of mind that your ring and pinion gears are protected against rocks and other impact damage with a stylish Currie nodular iron differential cover.

HIGH-STRENGTH NODULAR IRON - Cast from the same high-strength steel our housings are made from to withstand the impacts encountered on the most challenging off-road trails.

DESIGNED WITH PRACTICALITY IN MIND - Not just stylish, our covers incorporate a reinforced edge with recessed bolt holes to protect hardware from abrasion against rocks, clean trim shape to provide ample clearance for front or rear applications where steering or gas tank clearance is a concern, and flush mount lip to prevent getting hung up on rocks.

DURABLE FINISH - Comes with UV-stable powder-coat finish for maximum protection and to prevent corrosion.

EASY INSTALLATION - Includes all necessary Allen Head hardware, fill plug with O-ring seal and RTV sealant.

LIFETIME WARRANTY - Currie Enterprises stands behind its differential covers with a limited lifetime warranty.

JEEP JLU SLIPSTREAM 24+ - WITH FACTORY SUBWOOFER

This cargo area security enclosure system is made for the Jeep Wrangler JL and JLU (2024 and after). It is made with a sturdy steel frame and fully powdercoated for a perfect finished look.

68755477AA

MSRP*: \$1,599.95

JLU RIDGEBACK (NO FACTORY SUBWOOFER)

The Ridgeback for Jeep JLU (without factory subwoofer) features both a folding and removable wall AND folding and removable top (like the Slipstream). Two side walls with access to light and 12V systems hold the top and wall with quick knurled spin knobs for ease of removal. Installation is easy; only mounting to factory D-Ring locations. If you want full body-to-body coverage and no compromise, look at the industry-leading Slipstream Security enclosure and all that it offers.

68755490AA

MSRP*: \$884.95

JLU RIDGEBACK (WITH FACTORY SUBWOOFER)

The Ridgeback for Jeep® JLU (with factory subwoofer) features both a folding and removable wall AND folding and removable top (like the Slipstream). Two side walls with access to light and 12V systems hold the top and wall with quick knurled spin knobs for ease of removal. Installation is easy; only mounting to factory D-Ring locations. If you want full body-to-body coverage and no compromise, look at the industry-leading Slipstream Security enclosure and all that it offers.

68755489AA

MSRP*: \$884.95

JLU SLIDE FLOOR

The Slide Floor 2.0 for the JLU by Diabolical Inc is here! This aluminum tray and mount brackets are fully assembled with steel slides that lock in and out. This system is ready to install and does not require drilling or modification to your vehicle. Simply remove the D-Rings, and bolt in the Slide Floor System.

68755488AA

MSRP*: \$974.95

MARINE DECK MATS - BLACK ON GRAY - TEAK

The Marine Deck Foam Pads are a great accessory for the Slipstream. These pads are durable and cool to the touch. They will prevent damage and scratches to the folding top, while creating a non-slip surface for anything you plan to tie down on top.

68755486AA

MSRP*: \$384.95

MARINE DECK MATS - BLACK ON GRAY - TOPOGRAPHY

The Marine Deck Foam Pads are a great accessory for the Slipstream. These pads are durable and cool to the touch. They will prevent damage and scratches to the folding top, while creating a non-slip surface for anything you plan to tie down on top.

68755485AA

MSRP*: \$384.95

SLIPSTREAM FOLDING TOP MOLLE PANEL (PAIR)

These MOLLE Panels can be riveted or bolted on to all slipstream 2-piece tops. Slipstream units shipped after May 2019 are pre-drilled for these MOLLE Panels. All MOLLE Panels are pre-drilled, so if you have an older top, it will make it simple to align and drill holes for installation.

68755484AA

MSRP*: \$339.95

POWERED COOLER

The CFX3 25 Powered Cooler is Dometic's smallest electric portable cooler (25L) and is designed for your toughest adventures. Its single zone electric cooler can be used as a car fridge or freezer, reaching temperatures as low as -7°F, while using less power than a 60W light bulb. The high-performing compressor cooler was built for backroads, mounted on springs to isolate noise and reduce vibration. Powered by AC (110-240), DC (12 volt / 24 volt) or solar power, it connects to a phone app, allowing easy temperature monitoring and control.

68625098AA
MSRP*: \$839.99

POWERED COOLER

The CFX3 35 Powered Cooler is a 36L electric portable cooler designed for your toughest adventures. Its single zone electric cooler can be used as a car fridge or freezer, reaching temperatures as low as -7°F, while using less power than a 60W light bulb. The high-performing compressor cooler was built for backroads, mounted on springs to isolate noise and reduce vibration. Powered by AC (110-240), DC (12 volt / 24 volt) or solar power, it connects to a phone app, allowing easy temperature monitoring and control.

68625055AA
MSRP*: \$899.99

POWERED COOLER

The CFX3 45 Powered Cooler is the same footprint as the CFX3 35, but is 2.75 inches taller, creating a 46L space. Its single zone electric cooler can be used as a car fridge or freezer, reaching temperatures as low as -7°F, while using less power than a 60W light bulb. The high-performing compressor cooler was built for backroads, mounted on springs to isolate noise and reduce vibration. Powered by AC (110-240), DC (12 volt / 24 volt) or solar power, it connects to a phone app, allowing easy temperature monitoring and control.

68625056AA
MSRP*: \$959.99

POWERED COOLER

The CFX3 55IM Powered Cooler is the first portable electric cooler with its own ice maker – with a rapid freeze plate that makes ice in just a few hours, without compromising the temperature elsewhere. Reaching temperatures as low as -7°F, while using less power than a 60W light bulb, the small car fridge freezer can be powered by AC (110-240), DC (12 volt / 24 volt) or solar. The tallest fridge cooler (53L) in the CFX3 series, the 55IM is constructed with lightweight fender frames and strong aluminum alloy handles, while the high-performance compressor is built with noise and vibration reduction.

68625057AA

MSRP*: \$1,099.99

POWERED COOLER

The CFX3 75 Powered Cooler with Dual Zone is the best cooler for any long camping adventure with a 75L capacity. It lets you set each side to a different temperature – two car fridges, two car freezers, or a car fridge and freezer combo. Reaching temperatures as low as -7°F, while using less power than a 60W light bulb, the CFX3 series can be powered by AC (110-240), DC (12 volt / 24 volt) or solar. CFX3 75 dual zone electric cooler is built for rugged outdoor travel, with lightweight fender frames and strong aluminum alloy handles, the CFX3 series' user-friendly phone app allows easy temperature changes from nearby.

68625058AA

MSRP*: \$1,299.99

POWERED COOLER

The CFX3 95 Powered Cooler with Dual Zone is Dometic's largest dual zone car fridge option at 94L capacity. Set independent temperatures for each side for a car fridge freezer that fits perfectly in the back of your pickup truck or trailer slide out. Reaching temperatures as low as -7°F, while using less power than a 60W light bulb, the large CFX3 95 dual zone cooler can be powered by AC (110-240), DC (12 volt / 24 volt) or solar, and is ruggedly constructed with lightweight fender frames and strong aluminum alloy handles. The high-performance compressor is built with noise and vibration reduction, and the phone app allows easy temperature control from nearby.

E50 FIRE EXTINGUISHER, 10 PACK

The E50 Fire Extinguisher offers 50 seconds of firefighting protection. The E50 is recommended for professional use (automotive, power sports, garage, marine, etc.). Element extinguishers are suitable for use on small fires and for protecting supplementary risks. It is made to fight all major fire classes, including cooking oil and grease fires (not recommended on live coal or wood fires). It is compact, portable and easy to use. The E50 makes no mess, leaves no residue, is non-toxic, non-corrosive and environmentally friendly. It has a zero-pressure discharge and will not spread oil and liquid fires. It has no moving parts or compressed gas that requires service. It is weatherproof, unaffected by extreme temperature, humidity or vibration, safe to store in wet environments or hot climates. The E50 is internationally tested and certified.

EZ TRUNK FOLDING SECURITY TRUNK/STORAGE BOX, JEEP® WRANGLER UNLIMITED (FOUR-DOOR)

Sold by EZ 4x4, the EZ Trunk Folding Security Box enhances the security of your Jeep® Wrangler. It creates a large and lockable enclosed security space for protecting valuables from being stolen while not having to forfeit precious cargo space with a typical permanent bolt-in style trunk. The EZ Trunk never needs to be removed. The patented fold-down design allows you to make full use of your cargo area when needed for those large items, then pops up in seconds to a fully secured box for all your valuables – a must-have when your top or doors are off. Works with Jeep Wrangler vehicles equipped with either soft top or hard top. No need for extra keys, the box is secured with the vehicle rear door and lock. No drilling required, bolts to your existing tie downs to secure in place. It is constructed with heavy-duty aluminum and fasteners and is finished with a durable textured powdercoating. This product is designed to fit Jeep Wrangler Unlimited (four-door).

AIR-TOPPER® CAP - MID-SIZE 5'1" SHORT BED

Built for the Gladiator. Ready for anything. Designed specifically for the Jeep, Gladiator, this cab-height Air-Topper® CAP delivers a sleek, low-profile fit with big-time utility. Made with durable drop-stitch construction, it inflates in minutes to create a lightweight, rigid shell that protects your gear without weighing you down. Far lighter than traditional hard-shell caps, the Air-Topper® is easy to install, remove and store - no tools, no hassle. Whether you're headed off-road, hauling gear or setting up basecamp, it's a rugged, flexible solution built to move with you. Pair it with the FLATED® Air-Deck® to convert your truck bed into a ready-to-roll camp setup or a weatherproof gear hauler. Built with rugged drop-stitch construction, this topper holds its shape, holds its own and lets you switch between adventure mode and truck bed duty anytime. When the adventure winds down, just deflate, roll it up and stash it away. Clean lines, tough build and dialed for the Gladiator lifestyle.

68740961AA

MSRP*: \$1,494.00

AIR-TOPPER® CAP - FULL-SIZE 5'6" - 5'8" SHORT BED

Full-size fit. Adventure-ready form. Designed for full-size Dodge Ram with 5.5' beds, the cab-height Air-Topper® CAP delivers a clean, low-profile solution without the bulk of traditional hard shells. Built with rugged drop-stitch construction, it inflates in minutes and locks in a solid, secure fit - all while weighing under 60 lbs. Whether you're hauling gear, covering equipment or setting up your truck for overnight adventures, the Air-Topper® is your fast, flexible shell solution. Easy to install. Effortless to remove. And when you're done? Just deflate, roll it up and stash it until the next mission. Pair it with the FLATED® Air-Deck® to convert your truck bed into a ready-to-roll camp setup or a weatherproof gear hauler. Built with rugged drop-stitch construction, this topper holds its shape, holds its own and lets you switch between adventure mode and truck bed duty anytime. Smart, durable and adventure-tuned - this is cargo coverage the FLATED® way.

68740962AA

MSRP*: \$1,644.00

AIR-TOPPER® CAP - FULL-SIZE 6'4" TO 6'6" DT STANDARD BED

Full-size strength. Zero compromise. Designed to fit full-size Dodge Ram standard beds, the Air-Topper® gives you all the function of a traditional cap without the weight or hassle. Built with durable drop-stitch construction, it inflates in minutes to form a rigid, reliable shell that's tough enough for workdays, road trips and off-grid weekends. At under 65 lbs., it's light enough to install solo and packs down fast when not in use. Just deflate, roll it up and stash it in your truck or garage. No tools. No roof rack. No problem. Pair it with the FLATED® Air-Deck® to convert your truck bed into a ready-to-roll camp setup or a weatherproof gear hauler. Built with rugged drop-stitch construction, this topper holds its shape, holds its own and lets you switch between adventure mode and truck bed duty anytime. Whether you're protecting gear, building a mobile basecamp or just keeping your setup flexible, the Air-Topper® CAP delivers dependable coverage with streamlined style - built for the road ahead.

MSRP*: \$2,144.00

AIR-DECK® - MID-SIZE 5'0" SHORT BED

Adventure-ready sleep for your Gladiator. Designed specifically for Jeep® Gladiator 5' beds, the Air-Deck® transforms your Gladiator into a reliable mobile sleep setup without sacrificing the utility you bought it for. Inflate it when it's time to rest, deflate and roll it up when it's time to haul - it's that simple. This raised, inflatable platform creates a stable and supportive sleep surface while still leaving room underneath for all your gear, tools and travel essentials. No sagging, no bowing and no shifting weight or temps through the night - just solid support wherever you roam. The Air-Deck® packs down small, sets up fast and helps your Gladiator go full send into adventure mode.

68740967AA

MSRP*: \$579.00

AIR-DECK® - FULL-SIZE 5'5" TO 5'8" SHORT BED

Built to fit. Designed to roam. The Air-Deck® for Dodge Ram short beds (including models with RamBoxes) turns your truck into a sleep-ready basecamp – without giving up the bed storage space you rely on. It inflates in minutes, deflates even quicker and rolls into its included travel bag when it's time to haul, tow or load up. Engineered to create a stable, elevated platform, the Air-Deck® gives you a solid sleep setup while leaving room underneath for your gear, tools and toys. No bowing. No sagging. No shifting through the night – just even weight distribution and reliable support, every time. From overland trips to quick getaways, this is the gear that lets your truck do it all.

68740968AA

MSRP*: \$629.00

AIR-DECK® - FULL-SIZE 6'4" TO 8'0" STANDARD/LONG BED

Sleep level, pack heavy. Built to fit Dodge Ram standard and long beds (including models with RamBoxes), the Air-Deck® turns your truck into a mobile basecamp in minutes. Inflate it when you're ready to crash, deflate and roll it into the included travel bag when it's time to haul gear. No tools, no hassle – just functional freedom. This raised inflatable platform solves the classic truck-camping challenge: sleep space and storage. Keep your tools, toys and gear stashed underneath while the Air-Deck® provides a stable, sag-free surface up top. No bowing, no sliding, no weird cold spots – just a level night's sleep wherever the road takes you. When it's time for work or play, the Air-Deck® gets out of the way just as fast.

68740969AA

MSRP*: \$679.00

AIR-DECK® - MID/FULL-SIZE 6'0" TO 8'0" STANDARD BED

Sleep level, pack smart. Built to fit Dodge Ram standard and long beds (including models with RamBoxes), the Air-Deck® COT is a compact (takes up half of the truck bed for single sleepers), inflatable raised platform that transforms your vehicle into a sleep-ready setup in minutes. Whether you're hauling gear, road tripping or chasing the next remote campsite, this platform keeps you elevated, comfortable and ready for whatever's next. Inflates fast. Deflates even faster. Rolls up into its included travel bag so you can toss it in your trunk or gear bin without taking up space. The patent-pending design stays level and stable through the night – no bowing, no sagging, no weird weight shifts or cold spots. Need storage? There's plenty of room underneath. Need comfort? Just add a pad and you're good to go. The Air-Deck® COT is built stiff for a reason – to give you a solid foundation and long-lasting support wherever you set up camp. This is mobile comfort done the FLATED® way – minimal bulk, maximum utility.

68740970AA

MSRP*: \$569.00

AIR-CARRIER® MEDIUM

Smart storage that goes where you go. Add up to 15 cubic feet of rooftop storage in minutes with the Air-Carrier® Medium – perfect for weekend getaways, beach runs, ski days or full-on road trips. It's quick to inflate, easy to strap down and light enough (just 23 lbs.) to be a true one-person job. Built with our universal strap rack system, it mounts securely on just about any vehicle – with or without roof racks. Dual-side, lockable access means your gear is always within reach, while the streamlined design cuts down on drag and saves fuel when not in use. When the adventure's done, it packs down into a compact duffel that fits in your trunk – or checks as luggage when you're flying to your next destination. From daily drives to cross-country treks, the Air-Carrier® Medium delivers big function in a minimalist package.

68740971AA

MSRP*: \$579.00

AIR-CARRIER® LARGE

Big adventures need big cargo space. With 23 cubic feet of inflatable rooftop storage, the Air-Carrier® Large gives your vehicle room to haul more without sacrificing style or fuel efficiency. From ski trips to surf missions to cross-country summer road trips, it's built to handle it all – and then disappear when you don't need it. Inflates and installs in minutes, no tools needed. At just 28 lbs., it's a one-person job from setup to takedown. When the trip's over, deflate it and stash it in your trunk or closet. The included duffel is even airline checkable, so you're always ready – even when adventure starts far from home. With our universal strap rack system, it fits almost any vehicle – with or without roof racks. Dual-side, lockable access makes loading and unloading a breeze, while its low-profile design keeps drag down when not in use. More space. Less hassle. All adventure.

68740972AA

MSRP*: \$629.00

AIR-CARRIER® SPORT

Your rooftop cargo solution, reinvented. Built to haul your gear without the hassle, the Air-Carrier® adds 18 cubic feet of aerodynamic storage to your vehicle in just minutes. Inflate it, strap it down and hit the road – whether you're chasing waves, snow, trails or sunshine. Weighing in at just 25 lbs., it's light enough for solo setup and tough enough for the long haul. Our integrated strap rack system works with or without roof racks, making it a perfect fit for almost any vehicle – daily driver or rental car. With dual-sided, lockable access and the ability to deflate and store small, the Air-Carrier® keeps your fuel efficiency intact and your travel plans flexible. When not in use, it packs down into its included duffel and fits in a trunk, closet or even checks easily as luggage. From weekend escapes to full-on road trips, this patented cargo solution is ready to roll wherever adventure calls.

68740973AA

MSRP*: \$629.00

ELECTRIC PUMP

Built for power, precision and ease. Designed to take the work out of setup, this 12V dual-motor pump delivers fast inflation and deflation with up to 140W of power – perfect for getting your FLATED® gear to that ideal 5-8 PSI in no time. It's compact, easy to use and built to keep up with your adventures. Preset your desired pressure (up to 20 PSI), hit start and let the pump handle the rest. With staged inflation, it kicks off with rapid fill, then automatically switches to high-pressure mode at 1 PSI for efficient, controlled inflation. When it hits your target pressure, it shuts off on its own. Equipped with a dual cooling system to prevent overheating and extend the pump's life, plus dust covers on both ports to keep debris out when stored. An easy-to-read LCD display keeps everything dialed in from start to finish. Powerful, portable and designed to let you multitask – this pump lets you save your energy for the fun part.

68740974AA

MSRP*: \$136.50

AIR-PUMP L-ION BATTERY

Smart power, packed and ready. This intelligent, battery-powered air pump is your all-in-one solution for inflating every FLATED® product – and other inflatables. From Air-Toppers to Air-Carriers, Air-Decks, Air-Exec furniture, paddleboards, tents and even pool floats, it delivers high and low pressure with quad-fan performance and zero guesswork. Just set your target PSI, hit start and let it do the work. The Air-Pump L/I auto-stops when it hits the mark, and also deflates with ease when it's time to pack up and roll out. Built with a high-capacity 74Wh battery (TSA flight-approved), it powers up to 4 FLATED® inflatables on a single charge – and still has juice to top off your extras. Bonus: it doubles as a power bank and even lights up the night with built-in LED lamps for after-dark setup. With an active cooling system and auto-off function, it's rugged, reliable and ready to go when you are. Note: Ships via ground only. Expedited shipping not available.

68740975AA

MSRP*: \$206.50

AIR-EXEC MID-SIZE CHAIR

Comfort that travels. From campsites to patios to living rooms, this inflatable chair is built to keep you comfortable wherever you post up. Designed with ergonomic support and rugged materials, it inflates fast, holds firm and handles the elements like a pro. Whether you're tailgating, chilling fireside or hosting indoors, the Air-Exec Chair brings modern style and packable convenience to any setup. It's lightweight, weather-ready and deflates to a compact size that's easy to stow and go. Strong on performance. Minimal in footprint. Big on chill. Note: Compact Hand Pump, DC Pump or Li-Air Pump sold separately.

68740976AA

MSRP*: \$214.00

AIR-EXEC COMPACT SIDE TABLE

Your go-anywhere, do-everything tabletop. Whether you're posted up at a tailgate party, campsite, backyard hang or making space indoors, this inflatable table brings solid surface support without the bulk. It's lightweight, tough and packs down small – so you can take it anywhere, stash it easily and set it up in minutes. Built with FLATED®'s Drop Stitch construction, it stays stable, firm and weather-ready wherever you place it. Its clean, modern design makes it just as at home in the wild as it is in your living room. When space, style and function matter – this is the table that shows up ready.

68740977AA

MSRP*: \$159.00

AIR-EXEC MID-SIZE LOVESEAT

Next-level comfort, anywhere you want it. Lightweight, portable and tough enough for the outdoors, this inflatable loveseat is a game-changer for chill time. Whether you're setting up at a campsite, tailgate, concert or just kicking back on the patio, the Air-Exec Loveseat brings clean design and serious comfort to any scene. Made with UV-resistant Drop Stitch fabric, it's durable enough to skip the furniture cover and sleek enough to stand out. It inflates fast, packs down small and holds up on all kinds of terrain – from sand to grass to pavement. Forget clunky folding chairs – this is comfort and style, FLATED®-style.

68740978AA

MSRP*: \$374.00

AIR-EXEC FULL-SIZE SOFA

Take comfort wherever the road leads with the FLATED® Air-Exec Couch. Designed for beach days, campsite hangs, backyard barbecues and everything in between, this inflatable couch brings big comfort with zero hassle. Lightweight, stylish and rugged enough for any surface – grass, sand or asphalt – it's your go-anywhere, chill-anytime solution. Made with durable Drop Stitch construction and UV-resistant materials, the Air-Exec is built to last and look good doing it. The single-valve system makes setup fast and simple, so you can focus on relaxing – not wrestling with gear. Wherever you post up, the Air-Exec delivers elevated comfort with a clean, modern aesthetic that fits right in at basecamp or backyard.

68740979AA

MSRP*: \$494.00

AIR-PUMP MANUAL COMPACT

Compact. Capable. Ready when you are. This FLATED® Single-Chamber Dual-Action Hand Pump is built for efficiency without the bulk. Shorter than your average hand pump, it slides easily into a backpack or gear bin – perfect for travel, trailhead or quick setups on the go. With sturdy handles and a solid foot base, it delivers fast inflation: about 2-3 minutes for the Air-Exec Chair and 3-4 for the Air-Exec Table. Actual times may vary depending on how much hustle you put into each pump – but either way, you'll be fully inflated and fully relaxed in no time.

68740980AA

MSRP*: \$46.50

9" LED 3RD BRAKE LIGHT KIT

Add function and clean design to your setup with the FLATED® Universal Third Brake Light. Built to mount seamlessly to the back window flap of your FLATED® Air-Topper, this multi-function LED brake light features a sleek, flush-fit black housing that looks as good as it performs. It's a perfect fit for Jeep® or Dodge vehicles. The wiring is simple: red for brake light, white for ground, and brown for constant power to enable startup animation and full functionality. Whether you're upgrading visibility or just adding that extra bit of style, this light is ready to plug in and shine.

68740981AA

MSRP*: \$62.99

AIR-TOPPER® FULL-LONG CAP80

The Air-Topper® CAP is a sleeker, cab height design perfect for your full-size 8ft truck bed.

The FLATED® Air-Topper® Full-Size Long 8.0' Bed is the world's first inflatable truck cap, built to seamlessly fit full-size Dodge Ram 8' bed. Crafted with durable drop-stitch material, the Air-Topper provides a rigid, secure fit while weighing less than 60 pounds for easy handling. It inflates and installs in just minutes, offering a reliable, lightweight option for storing and protecting your gear, camping out or adding versatile space to your truck. When it's not needed, it deflates and packs down compactly for convenient storage. With the FLATED Air-Topper, adventure is always a step away, making every journey smooth, flexible and ready for the unexpected.

FLATLINE VAN CO 159 DIY BED MOUNT KIT (2014-2025 RAM PROMASTER), PM0302B

The ProMaster DIY Bed Mount Kit provides a sturdy and adjustable foundation for the bed in your Ram ProMaster®. We offer a complete ProMaster Bed System here, but many of our customers wanted to create their own bed platform, but use our durable, high-quality side rail system so they have adjustability and can easily change the mounting height of their DIY bed platform.

68780997AA

MSRP*: \$431.00

FLATLINE VAN CO 136 LOW PRO ROOF RACK WITH LIGHT BAR FAIRING (2014-2025 RAM PROMASTER), PM0109B

Our new ProMaster 136" Van Roof Rack is adjustable, lightweight and low profile. It's also easy to install, and it ships for free to anywhere in the lower 48 states. Our Low Pro Roof Rack series is built for the DIYer, so installation is quick and easy. This roof rack is engineered to fit with the ProMaster side ladder and a Fiamma F45S awning, which creates a seamless weather gap to keep the elements out. This ProMaster roof rack looks great with or without all the extras like solar panels, SUP racks and more. The Low Pro Roof Rack brings superior functionality to your ProMaster 136" van. Adjustable 80/20 compatible crossbars with drop-in hardware slots allow for an endless amount of options, and you can easily adjust them to accommodate solar panels, fans and other accessories.

68780987AA

MSRP*: \$2,045.00

FLATLINE VAN CO TIRE CARRIER AND LADDER (2014-2025 RAM PROMASTER®), PM1102B

Store the spare tire on the rear door and gain easy roof access on your adventure van with our ProMaster Rear Door Ladder and Tire Carrier. Combining these two essential upgrades into one saves you money and reduces added weight to your van. The ProMaster Rear Ladder and Tire Carrier allows you to carry a spare tire on the back of your van – no more crawling under the van or climbing on the roof to access your spare. The tire mount is designed to fit any tire size that works on a ProMaster van and includes zinc yellow wheel studs and locking lug nuts for security. This ProMaster version of our Rear Ladder and Tire Carrier also includes a limit strap to prevent damage to the side of the van. A license plate relocation kit with an LED light is also included to keep your license plate visible.

68780989AA

MSRP*: \$2,295.00

FLATLINE VAN CO 136 HIGH ROOF LOW PRO ROOF RACK (2014-2025 RAM PROMASTER), PM0101B

Our new ProMaster 136" Van Roof Rack is adjustable, lightweight and low profile. It's also easy to install, and it ships for free to anywhere in the lower 48 states. Our Low Pro Roof Rack series is built for the DIYer, so installation is quick and easy. This roof rack is engineered to fit with the ProMaster side ladder and a Fiamma F45S awning, which creates a seamless weather gap to keep the elements out. This ProMaster roof rack looks great with or without all the extras like solar panels, SUP racks and more. The Low Pro Roof Rack brings superior functionality to your ProMaster 136" van. Adjustable 80/20 compatible crossbars with drop-in hardware slots allow for an endless amount of options, and you can easily adjust them to accommodate solar panels, fans and other accessories.

MSRP*: \$2,045.00

FLATLINE VAN CO REAR DOOR PLATFORM (2014-2025 RAM PROMASTER), PM1103B

Transform your ProMaster into the ultimate adventure van with our ProMaster Rear Door Platform. The ProMaster Rear Door Storage Platform combines superior construction with unmatched versatility and significantly expands your gear-carrying capacity to mount storage boxes, bikes, skis, snowboards, MaxTrax and more. We've designed the ProMaster Rear Door Platform for ease of use and long-lasting durability. Constructed with an aluminum round tube frame, mounting plate and stainless steel structural brackets, this gear carrier is the most robust and versatile ProMaster-specific option on the market. The sizable mounting surface sits flush with the frame and has a combination of patterned 1/2" and 3/8" mounting holes and slots for endless mounting capabilities. The ProMaster Van Rear Door Platform keeps your van looking good with the platform sitting tight to the van, but leaves ample space behind it for access. To prevent gear mounted on the platform from swinging into the side of your van, we also include a door strap so you can set the maximum distance the door opens. Fits: 2014-2025 Ram ProMaster® High Roof.

68780990AA

MSRP*: \$1,795.00

FLATLINE VAN CO REAR DOOR PLATFORM (2014-2025 RAM PROMASTER®), PM1104B

Transform your ProMaster into the ultimate adventure van with our ProMaster Rear Door Platform. The ProMaster Rear Door Storage Platform combines superior construction with unmatched versatility and significantly expands your gear-carrying capacity to mount storage boxes, bikes, skis, snowboards, MaxTrax and more. We've designed the ProMaster Rear Door Platform for ease of use and long-lasting durability. 68780991AA

MSRP*: \$1,795.00

FLATLINE VAN CO TIRE CARRIER (2014-2025 RAM PROMASTER), PM1101B

Unlock valuable space while gaining better access to the spare with the ProMaster Rear Door Tire Carrier. The ProMaster Tire Carrier relocates the spare to the rear door, freeing up underfloor space for water tanks or auxiliary fuel tanks below. It includes a strap to prevent the door from swinging all the way open and allows you to carry larger-than-stock tires. The main frame of the ProMaster Van Tire Carrier is constructed from 1.75" aluminum round tube and 3/16" formed aluminum for a lightweight yet durable structure. An adjustable lock rod is included to accommodate different wheel sizes and wheel lug patterns.

68780992AA

MSRP*: \$1,495.00

FLATLINE VAN CO SURF POLE (2014-2025 RAM PROMASTER), PM0202B

Get on the water quicker and gain more space inside your ProMaster van by transporting surfboards and SUP boards on the side of the van with our ProMaster Surf Pole. No more cluttered interiors or tricky roof loading - our ProMaster Surf Pole works seamlessly with our Surf Hooks for a streamlined way to transport, store and access your boards. The expertly designed Surf Pole for ProMaster mounts to the side rail of FVC ProMaster Roof Racks at the top, and the pinch seam at the bottom. The sturdy dual-tube design enhances stability, ensuring it won't vibrate while driving at high speeds. The ProMaster Surf Pole's profile matches the body of the ProMaster van and our ProMaster Ladders for a cohesive look. Pair the ProMaster Surf Pole with a ProMaster Side Ladder or a second surf pole. Our compatible Surf Hooks can fit two surfboards or a full-size stand up paddleboard, allowing you to carry as many as four surfboards and SUPs. Fits: 2014-2025 Ram ProMaster High Roof.

68780993AA

MSRP*: \$409.00

FLATLINE VAN CO SIDE LADDER (2014-2025 RAM PROMASTER), PM0201B

The Ram ProMaster side ladder is designed to work directly with our Low Pro Roof Racks for ProMaster vans. The side ladder is built with sturdy aluminum, it's lightweight, easy to install and it ships for free to the lower 48 states. The ProMaster side ladder gives you quick and easy access to your roof rack area for cleaning off solar panels, mounting MaxTrax or even lounging on your rooftop deck to catch the sunset. The side ladder is made from 1.25" aluminum round tube with formed and dimpled steps for increased traction and superior safety. Most of our competitors continue to use round tubes for the steps, which can become slippery and dangerous when trying to access your roof rack area. Our flat and dimpled steps give you extra traction and confidence when you are climbing your ladder. The kink of the ladder follows the lines of the ProMaster giving it improved functionality and a slick look.

68780995AA

MSRP*: \$845.00

FLATLINE VAN CO 159 HIGH ROOF LOW PRO ROOF RACK (2014-2025 RAM PROMASTER®), PM0110B

The Ram ProMaster® 159" Low Pro Roof Rack is here! Lightweight, adjustable, aerodynamic, this rack is everything you need to majorly upgrade your ProMaster. We designed our Low Pro Roof Rack to be a lightweight and functional way to meet your ProMaster roof rack needs. It allows you to easily mount accessories, without any unnecessary features that take up space or add weight. The Low Pro is also easy to install and the aerodynamic design keeps your ProMaster fuel-efficient. The ProMaster Low Pro is made from lightweight aluminum and powder-coated black. The 6x adjustable crossbars are 80/20 compatible and designed to seamlessly move forward or backward to make room for MaxxAir fans, AC units and other accessories. We've also included drop-in hardware slots on the crossbars so you can easily add accessories. Solar panels, gearboxes and kayak carriers can be mounted up in a flash.

68780996AA

MSRP*: \$2,145.00

FLATLINE VAN CO 159 BED SYSTEM WITH DIY BRACKETS (2014-2025 RAM PROMASTER®), PM0304B

Big adventures in your Ram ProMaster call for a good night's sleep. Make sure you sleep safe and sound and ditch the saggy and unreliable wooden bed options out on the market for our premium ProMaster Bed System. Our ProMaster bed system is durable and removable, and the fit and finish will elevate any van build. Installation is straightforward, and most DIYers can complete it themselves with hand tools and a Saturday afternoon. The ProMaster bed can be mounted between 30" and 58" inches above the van floor, so you can choose to set up your bed according to your preferred sleeping height. You may want to mount it up high, so you can easily store bikes and other gear underneath the bed, or lower to accommodate additional bunk-style beds for kids or other guests above the main sleeping area.

MSRP*: \$2,808.93

2007-2018 JEEP® WRANGLER JK, 2018-2025 JEEP WRANGLER JL; J-LINK REAR ADJUSTABLE UPPER CONTROL ARM - RUBBER

Enhance your Jeep's off-road prowess and reliability with JKS J-Link Adjustable Control Arms - now available with premium rubber bushings! Engineered specifically to reduce NVH characteristics (noise, vibration, harshness), these factory-style maintenance-free rubber bushings come pre-installed at both ends and will ensure a quiet, controlled ride with hassle-free operation in any environment. CNC-bent from stout DOM tubing with a forged end, the fully adjustable design allows you to fine-tune suspension geometry and alignment. With heavy-duty 1-1/4"-12 threads and hex-shaped weld-in bungs, tightening of the included jam nuts is super easy for quick and secure adjustments. Arms are powder-coated for a durable, long-lasting finish. Sold in pairs.

68766369AA

MSRP*: \$419.95

2007-2018 JEEP WRANGLER JK, 2018-2025 JEEP WRANGLER JL REAR ADJUSTABLE REAR SWAY BAR END LINKS

Retain the handling of your Jeep Wrangler JK with rear adjustable sway bar links to retain proper sway geometry after lifting your Jeep. The adjustable rear sway bar end links allow for proper use of the rear sway bar and improve handling on and off road. A common misconception among Jeep owners is that the rear sway bar is unnecessary off-road and should be removed. This is not true however, as the rear sway bar is small and flexible enough to allow plenty of suspension articulation.

68766370AA

MSRP*: \$100.95

2007-2018 JEEP WRANGLER JK, 2018-2025 JEEP WRANGLER JL; J-LINK REAR ADJUSTABLE LOWER CONTROL ARM - RUBBER

Enhance your Jeep's off-road prowess and reliability with JKS J-Link Adjustable Control Arms - now available with premium rubber bushings! Engineered specifically to reduce NVH characteristics (noise, vibration, harshness), these factory-style maintenance-free rubber bushings come pre-installed at both ends and will ensure a quiet, controlled ride with hassle-free operation in any environment. CNC-bent from stout DOM tubing with a forged end, the fully adjustable design allows you to fine-tune suspension geometry and alignment. 2018-2025 JEEP® WRANGLER JL - 2DR - J-KRAWL 3" SUSPENSION LIFT KIT - HD RATE COIL SPRINGS FRONT/REAR - FOX 2.0" ADVENTURE SERIES SHOCKS FRONT/REAR

From hardcore rock crawling to high-speed desert, the J-Krawl System brings a level of performance and adjustability that makes it the go-to package for many Jeep® enthusiasts. These systems build on the base systems and add components for a full overhaul of the factory suspension to maximum articulation, strength and allow for adjustability. Components include J-Flex or J-Link upper and lower control arms, JSPEC dual rate coil springs, an adjustable front track bar, a rear track bar bracket, quicker disconnect front sway bar end links and bump stop extensions. Choose from a variety of shock options tailored to your needs, including FOX Adventure Series, FOX 2.0 Performance Series, FOX 2.5 Performance Series, FOX 2.5 Elite Series and FOX 3.0 Factory Race Series shocks. Each setup ensures superior ride quality, letting you conquer rugged trails while maintaining daily driving comfort. J-Krawl builds off Jeep's factory suspension mounting points and upgrades everything front to rear. Adjustability is important for fine tuning suspension geometry. J-Krawl delivers. Dial in front caster, rear pinion and overall vehicle wheelbase. Take your Jeep's off-road performance and strength to the next level. It should be noted that an aftermarket front driveshaft is strongly recommended due to potential additional travel.

2018-2025 JEEP WRANGLER JL - 4DR - J-KONNECT 2.5" SUSPENSION LIFT KIT - HD RATE COIL SPRINGS FRONT/REAR - SHOCK EXTENSION BRACKETS

For serious off-road use, step up to a JKS J-Konnect 2.5" suspension system for your Wrangler JK 4-door. J-Konnect can tackle aggressive terrain including rocks and ruts without giving up street manners or breaking the bank. J-Konnect system takes suspension component strength and suspension geometry a step further by adding front and rear fixed-length J-Link lower control arms along with a drag link flip kit and track bar braces. In addition to being significantly stronger than factory control arms, J-Link lower control arms add front caster and rear wheelbase. Built from 2" x .250-wall DOM tubing, J-Link control arms provide street-friendly NVH isolation with large factory-style rubber bushings at both ends. The drag link flip kit flattens the steering angle to mimic factory angles, while the track bar adds strength and protection. Combined with the matched dual-rate coil springs, and your choice of a selection of custom-valved FOX shocks, an adjustable track bar, quicker disconnect sway bar end links and more. J-Konnect is ready for aggressive trail performance. Get connected with J-Konnect.

68766389AA
MSRP*: \$1,649.70

2018-2025 JEEP JL / 2020-2024 JEEP GLADIATOR JT FRONT SHOCK RELOCATION BRACKETS

Extend the shock mounts on your Jeep Wrangler JL & JT with these JKS Front and Rear Shock Extension Brackets. The heavy-duty design extends the factory shock mounts 2", allowing use of factory shocks with up to 2.5" of lift. Durable powder coated finish provides excellent corrosion resistance. Easy, bolt-on installation requires no modifications.

68766371AA
MSRP*: \$70.95

COIL SPRING BOX KIT: 2018-2025 JEEP WRANGLER JL / 2020-2024 JEEP GLADIATOR JT - 3.5" FRONT COIL SPRINGS - HD

68766413AA

MSRP*: \$155.95

2018-2025 JEEP WRANGLER JL, 4 DOOR, 1.5" SUSPENSION LIFT KIT, 1" REAR, COIL SPRINGS - FOX 2.5 IFP PS FRONT AND REAR SHOCKS

If JKS designed the factory JL Wrangler suspension, this is how it would be done! Introducing the JKS 1.5" JSPEC Suspension System with your choice of specially tuned FOX 2.0 IFP Adventure Series, FOX 2.0 IFP Performance Series, FOX 2.5 IFP Performance Series, or FOX 2.5 Performance Elite Series shocks. Whether your focus is improving on-road characteristics or suspension performance in the backcountry, this system has been carefully engineered to excel in a variety of terrain while providing clearance for up to 35" tires. The JKS dual rate coil springs are a tried-and-true design that provides excellent versatility – on-road comfort is provided by the softer rate, while the firmer rate increases capacity for your gear and improved control off-road. All springs are scragged to eliminate settling after install and shot-peened to add more surface area, significantly increasing long-term durability. The springs have a longer free length, creating a low-lift height system with excellent wheel travel when you need it during off-road expeditions. The FOX 2.5 IFP Performance Series shocks have been tuned side-by-side these dual rate springs to create a complete fine-tuned package. Tuned specifically for optimum ride and performance on plus-sized wheel and tire packages, these shocks feature the same high-quality aluminum bodies and internal floating piston architecture used in FOX Performance Series 2.0 shocks, now in a new 2.5-inch diameter body. The larger diameter valve shims translate to a smoother feel – think firmness without harshness, allowing for a softer tune. 50% more piston surface area provides less damping fade and more bottom-out control at higher speeds, increasing on- and off-road control. Paired with JKS dual rate springs, this shock and spring combo creates control and comfort even with moderate increases in weight, giving you the freedom to loadout your vehicle with the gear you need. Additional weight may affect net ride height – for very heavy vehicles, make sure to check out JKS 2.5"-3.5" kits with HD springs. JKS quick disconnect sway bar links are provided to properly angle the sway bar on-road and make accessing full wheel travel off-road quick and easy. Replacement links are also provided for the rear, along with bump stop extensions and all necessary hardware. Alignment cams will allow you to dial in front axle caster. J-Link front lower control arms for a beefy upgrade over the stock arms properly set caster without any adjustment. Weekend camping trips, exploring fire roads and washboards, comfortable commuting – this kit will handle it all. Designed by enthusiasts for enthusiasts – get out and explore with JSPEC.

2018-2025 JEEP WRANGLER JL - 4DR - J-KONNECT 2.5" SUSPENSION LIFT KIT - HD RATE COIL SPRINGS FRONT/REAR - FOX 2.0" PERFORMANCE SERIES SHOCKS FRONT/REAR

For serious off-road use, step up to a JKS J-Konnect 2.5" suspension system for your Wrangler JK 4-door. J-Konnect can tackle aggressive terrain including rocks and ruts without giving up street manners or breaking the bank. J-Konnect system takes suspension component strength and suspension geometry a step further by adding front and rear fixed-length J-Link lower control arms along with a drag link flip kit and track bar braces. In addition to being significantly stronger than factory control arms, J-Link lower control arms add front caster and rear wheelbase. Built from 2" x .250-wall DOM tubing, J-Link control arms provide street-friendly NVH isolation with large factory-style rubber bushings at both ends. The drag link flip kit flattens the steering angle to mimic factory angles, while the track bar adds strength and protection. Combined with the matched dual-rate coil springs, and your choice of a selection of custom-valved FOX shocks, an adjustable track bar, quicker disconnect sway bar end links and more. J-Konnect is ready for aggressive trail performance. Get connected with J-Konnect.

BEACON LIGHT KIT - A

Hook Fastener Based Multi-Use Beacon

Rechargeable Beacon Light - Kit-A (red LED) can be mounted on any loop-side patch area on gear/apparel via its hook mount. Included loop adhesive portion also allows mounting on drones, vehicles, etc., and curved base is ideal for helmets. Add bright 100 Lumen visibility for bike/moto, jogging, hiking or boating, and for pro use like police, military, agency and industrial. One-button control cycles constant to 3 independent blinking/intensity modes. Constant mode is usable for reading maps, etc. (red light good for eyes' night vision). If mounted facing to packs/bags interiors, these are a unique illumination of bag contents. Spun in the air on any cord, these create a large, bright circular signal; a great option for rescue or rallying purposes. The side loops keep the light oriented to the observer without twisting away on the cord.

The kit centers around the light-core (micro-USB rechargeable lithium-ion battery, multi-LED array circuit, lens and controls) in a heat-dissipating aluminum body. The core loads in/out of a protective hook-backed light-boot which protects it and allows switching cores between mounts. So you can have multiple mounts and just move the core between them. An optional rubber boot/hardware allows the core to be mounted onto our packs/bags' Hard Point® ports (available in BL-Kit-B which also includes the core). This will be ideal for Hazard 4® shell packs such as the Pillbox®, Grill, etc. When mounting this unit to our packs and bags, the loop function is still retained, since carabiners, cords/bungees can be passed through the base's loops.

The LED core takes about 1.5 hours to charge (depending on power source) for approx. 8 hours of flash signal at max bright (at low battery mode, it will only flash). The weatherized center-logo is the power/control button and the flanking LED indicators show charging/charged/low-power states. It is easy to press but the rubber raised edge prevents inadvertent presses and protects the lens as much as possible.

68783261AA

MSRP*: \$57.00

BEACON LIGHT KIT - B

MULTI-MOUNT ARMORED LED BEACON WITH RUBBER LIGHT-BOOT

Rechargeable Beacon Light - Kit-B (red LED) screws into our packs/bags' Hard Point® ports via its rubber boot/hardware. Molded loops and screw backer also allow mounting to cords, carabiners or ½" webbing. Add bright 100 Lumen visibility for bike/moto, jogging, hiking or boating, and for pro use like police, military, agency and industrial. One-button control cycles constant to 3 independent blinking/intensity modes. Constant mode is usable for reading maps, etc. (red light good for eyes' night vision). If mounted facing to packs/bags interiors, these are a unique illumination of bag contents. Spun in the air on any cord, these create a large, bright circular signal; a great option for rescue or rallying purposes. The side loops keep the light oriented to the observer without twisting away on the cord.

The kit centers around the light-core (micro-USB rechargeable lithium-ion battery, multi-LED array circuit, lens and controls) in a heat-dissipating aluminum body. The core rocks in/out of a protective rubber boot bumper which protects it and allows switching cores between mounts. So you can mount multiple boots and just move the core between them. This also gives access to the protected USB-Micro charging port (short USB-A tipped cable is included). An upcoming optional hook-mount molded base allows the core to be mounted on any hook and loop patch, and comes with a loop adhesive portion that can be stuck to drones, vehicles, etc. It will also be available in BL-Kit-A which includes the core. This will be ideal for curved helmets.

When mounting this unit to our shell packs such as the Pillbox®, Grill, etc., the loop function is still retained, since carabiners, cords/bungees can be passed through the boot's molded loops - first around the housing so tension is directed to the solid core and pack shell via the screws, not the rubber loop, retaining load bearing strength.

The LED core takes about 1.5 hours to charge (depending on power source) for approx. 8 hours of flash signal at max bright (at low battery mode, it will only flash). The weatherized center-logo is the power/control button and the flanking LED indicators show charging/charged/low-power states. It is easy to press but the rubber raised edge prevents inadvertent presses and protects the lens as much as possible. To load, pull the top loop and rock in the core from the opposite end. Unload by pushing core up through the finger opening in the boot's bottom side. Boot can host either included screws or nuts to your preference. And the Stop Gap 1 backer is used to secure this to our Hard Point® grommets and to create a seal and an opposite side loop.

68783256AA

MSRP*: \$53.00

CARGO HAMMOCK - SOFT SHELF STORAGE FOR JEEP® WRANGLER (JL, JT), BLACK

Organizes rear cargo in 20 seconds - easy to unfold, hang and remove.

Truck cargo areas piled floor to ceiling trap many items hiding below. Cargo Hammock, a hanging soft shelf divides your gear into upper and lower zones, making it easy to access and organize. Unlike expensive, permanent, heavy and sharp metal shelves, this soft system installs in seconds using factory anchor points and folds flat when not in use.

Our patented steel combo carabiner/strap-locks with durable webbing adjust for different vehicle widths and un-clip easily. A strong strap-grid/tarpaulin bin supports loads up to 50 lbs. (23 kg) and contains small items and spills - perforated metal shelves don't. Underneath, it has a secret lockable zippered compartment for laptops, rifles and valuables. Three upper retention straps secure gear over rough terrain, and 3 lower straps can suspend our optional Smuggler® shuttle bag or long items underneath.

The perimeter is covered in MOLLE webbing for adding pouches and accessories with two middle 6" loop sections for patches, reflectors and our optional red LED Beacon parking lights. If your vehicle has side metal MOLLE in the trunk, consider buying a second Cargo Hammock to stack another tier for ultimate vertical organization!

For overlanders, hardware, contractors, road trips, extreme sports, hunting/tactical gear, grocery shopping, busy moms, kids sports gear and camping.

68783259AA

JEEP MOLDED MOLLE STORAGE HEADLINERS (PAIR)

THE ONLY MOLDED JEEP HEADLINER WITH STORAGE & INSULATION

Jeep® JL/JT's Freedom Panels get hot and cold while offering no utility; our patented 3D headliners turn them into insulated storage space. Unique 2-piece thermo-molded foam panels contour to the 3D roof shape creating internal storage volume. This provides the thickest thermal insulation and acoustic dampening for wind noise and the hollow Jeep echo. It also features our patented Hard-MOLLE® channels for mounting accessories and patches. A solid structural core zippers to the soft outer layer for storage and head protection, while integrated with our HardPoint® ports for optional Beacon Lights with red-light mode for night use.

MSRP*: \$95.00

PERFORMANCE AIR INTAKE SYSTEM

An enclosed air box design helps protect the filter and inlet air from the heat of the engine bay, and the air box lid allows for quick and easy access to the filter without tools. A high-density polyethylene (HDPE) rotationally molded tube helps increase the volume of airflow to your engine, and provides a guaranteed increase in horsepower and torque. These systems are paired with a washable, reusable High-Flow Air Filter™ featuring oiled cotton filter media. The oversized, conical design of the filter allows you to go up to 100,000 miles between filter services under normal highway driving conditions. The system can typically be installed in less than 60 minutes.

68730270AA

MSRP*: \$349.99

REPLACEMENT AIR FILTER

K&N® washable, reusable High-Flow Air Filters feature a state-of-the-art design of layered, oiled cotton media engineered to improve airflow and capture contaminants, and are designed to provide an increase in horsepower. Each performance air filter is reusable, engineered to last for the entire lifespan of your vehicle and backed by K&N's No-Hassle Lifetime Limited Warranty. K&N drop-in replacement filters are designed to install easily into your factory air box. Upgrade today and start enjoying superior airflow and superior performance from K&N's most popular product!

68730271AA

MSRP*: \$64.99

OIL CATCH CAN

The K&N air oil separator protects the engine and intake tract from blowby by capturing the oil in our industry-leading high-capacity reservoir. This helps prevent power loss and possible engine damage caused by blowby. The K&N air oil separator is quick and easy to install in about 30 minutes with basic tools and uses factory-style hose connections to quickly snap on and off. The oil separator replaces the factory line from the crank case allowing the oil separator to be mounted to a convenient location in your engine bay. No tools are needed to check and empty the oil collector reservoir. Each unit is engineered specifically for your vehicle and is backed by our No-Hassle Lifetime Limited Warranty.

68730272AA

MSRP*: \$149.99

CABIN AIR FILTER

K&N's line of washable replacement cabin air filters are designed to filter your incoming air using state-of-the-art filtration technology – protecting your vehicle's occupants, interior and HVAC system from pollutants and unpleasant odors. Engineered to be washable, reusable and durable, this cabin filter is designed to last for the entire lifespan of your vehicle!

68730273AA

MSRP*: \$79.99

68730275AA

MSRP*: \$64.99

PERFORMANCE AIR INTAKE SYSTEM

This system includes BOTH a redesigned larger hood scoop inlet for the ram air scoop and K&N's intake. This unique hood scoop design improves from the restrictive factory unit increasing air volume to the K&N intake. The intake filter is one of our largest ever, an oversized 20 1/8 inch long washable, reusable High-Flow Air Filter™ featuring our premium oiled cotton filter media. On top of this, the intake system benefits from larger drain holes to prevent water buildup in the air box and retains the factory T-Rex eating a raptor graphic. Engineered to deliver enhanced engine and supercharger sound. All these features combine to deliver huge performance gains with an estimated increase of 29 horsepower and 40 lb-ft of torque over stock.

68730276AA

ACTIVE CARGO SYSTEM

Active Cargo System mounts on Ram 1500 truck 5.7-foot bed with no-drill installation. Not compatible with RamBox® or 60/40 Multifunction Tailgate. The system features extreme load-carrying capability due to its single-piece aluminum alloy uprights and custom alloy steel fasteners. Additional features include a sliding load bar which allows you to load large items with a twist of a knob, custom fasteners coated with tough black Zinc-Nickel coating with bolts pre-coated with Loctite to prevent loosening under extreme vibration. The system weighs 85 lbs. and is 23 inches tall when measured from top of the bed caps. The load bars are heavy-duty 2.0-inch square bars and feature rubber wind diffuser load pads to keep your cargo from shifting. The quad-rail load beam design allows for endless mounting options and fits many Thule and Yakima accessories. The off-road dynamic weight capacity is 400 lbs., the on-road dynamic weight capacity is 800 lbs. and the parked static weight capacity is 1,400 lbs.

GEAR POD

Optional integrated Gear Pods provide locking, water-resistant storage within easy reach. Gear Pods feature the spring-activated "Leitner Lid Lifter" for easy opening and closing, water-resistant seal and dual-stage powder coated steel brackets for maximum strength. Gear Pods install easily on all Leitner Active Cargo System racks using four TrakLok nuts and feature locks with two keys. Gear Pods weigh 20 lbs. with a load capacity of 65 pounds and have a volume of 10.5 gallons or 1.4 cubic feet.

68673854AA

MSRP*: \$434.00

HYDRO POD SHOWER KIT

The Hydro Pod is an in-line, rack-mounted shower system. The Hydro Pod tank holds up to 4.8 gallons of potable water. The hose is 20-feet long and reaches the engine compartment even when mounted at the back of the Active Cargo System. The unit is pressurized using the integrated, high-efficiency hand pump.

68673855AA

MSRP*: \$394.00

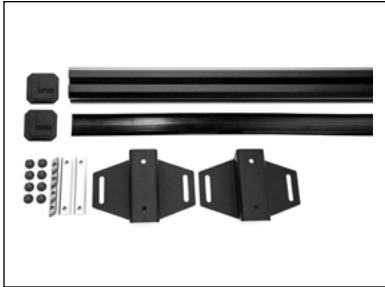

LOAD STOP

The Active Cargo System Load Stop is simple and refined and allows carrying of wood or ladders. Load Stop is made of dual-stage, powder coated steel, is easy to install without tools and keeps cargo from shifting laterally on your ACS rack. Features include an integrated tie-down strap point for tightening the load and easy adjusting with dual compound knob.

68673856AA

MSRP*: \$205.00

EXTRA LOAD BAR

The Heavy Load Bar can be added to the existing ACS to allow for heavier loads. The 60-inch bar ships with all necessary mounting hardware and installs in minutes with simple T-slot installation using TrakLok nuts and hardware. Load Bar installs with bolts and is static for extra security and includes dual-stage powder coated steel brackets.

68673857AA

MSRP*: \$242.00

LOAD BAR RISER KIT

The stock height of the ACS forged load bars is 23" above the bed rails. The Load Bar Riser Kit allows you to raise one or both load bars. The brackets are adjustable to be raised 1.5, 2.5, 3.0, 3.5 or 4 inches. Each riser kit will lift one load bar.

68673858AA

MSRP*: \$140.00

WIRE CAP

The forged Wire Cap is designed to quickly hide and manage annoying wiring on the upright of the Active Cargo System Forged Rack. The Wire Cap simply snaps into place in seconds creating a clean inner surface of the upright arm. The Wire Cap is made of UV-resistant polyurethane and fits up to a 3/8-inch (9MM) wire bundle.

68673847AA

MSRP*: \$68.00

MAGNAFLOW 2025 RAM 1500 RHO SPEQ SERIES CAT-BACK PERFORMANCE EXHAUST SYSTEM

The MagnaFlow 2025 Ram 1500 RHO SPEQ Series Cat-Back Performance Exhaust System #1004752 brings out the personality of your truck with our signature resonant, powerful exhaust tone and dyno-proven performance. #1004752 3" diameter mandrel bent main piping passes through a No Drone Technology (NDT) chamber before exiting in a dual split rear exit with 5" black chrome tips. This full-size truck exhaust kit is the perfect equalizer between sound and performance. Upgrade your truck to the next level with an exhaust that has the pipes to put other trucks to shame. With this system, your truck will produce moderate exterior and mild interior sound levels while leaving other trucks feeling envious at every stoplight. Exhaust kit #1004752 features a cat-back exhaust layout that replaces your trucks' stock exhaust components from near the catalytic converter on back. Extensive 3D scanning during development has resulted in a direct-fit design that you can easily install yourself. Also included is a mid-pipe standard O.E. valve replacement. #1004752 is produced using CNC precision robotic manufacturing techniques and is backed by MagnaFlow's 1-year limited finish warranty and limited lifetime construction warranty.

68755939AA

MSRP*: \$2,089.00

MAGNAFLOW 2025 RAM 1500 RHO XMOD SERIES CAT-BACK PERFORMANCE EXHAUST SYSTEM

The MagnaFlow Ram RHO xMOD Cat-Back Performance Exhaust System #1004753 provides your already powerful 2025 Ram 1500 RHO with the versatile, configurable exhaust sound that the xMOD Series is known for. Each #1004753 exhaust kit utilizes MagnaFlow's No Drone Technology (NDT) to keep unwanted noises under control at lower RPMs while delivering MagnaFlow's deep, signature exhaust tone in any configuration. The best example of NDT can be found in the exhaust kit's swappable SPEQ module, which utilizes ¼-wave passive noise cancellation to allow for relaxed highway driving while enabling the pipes to really open up and roar under acceleration. Two more interchangeable xMOD modules are included in this exhaust kit, namely the xTreme Deletes (RACE) and Muffler Module (STREET). The former enables a straight pipe, unmuffled and shouty exhaust sound, while the latter provides a deep and powerful, yet more tame tone thanks to MagnaFlow's tried-and-true straight-through muffler design. Each of these modules has been engineered to deliver dyno-proven performance and can be easily swapped in and out at your whim thanks to the use of racing-bred v-band clamps. Also included are two mid-pipe configurations, a standard O.E. valve replacement and a valve delete version. This Ram 1500 RHO exhaust system features mandrel bent 3" tubing that flows to a dual exit configuration featuring black chrome 5" tips. The entire kit is produced using CNC precision robotic manufacturing and features durable, 100% stainless steel construction backed by MagnaFlow's limited lifetime warranty. Check to ensure compliance with local noise regulations.

MSRP*: \$3,099.00

RHINO RACK MSIT STOW IT RECOVERY TRACTION BOARD

Holds up to 4 recovery traction boards securely with key lock and stainless steel core ratchet strap. Can be mounted horizontally or vertically on a Pioneer Platform, Reconn-Deck or Vortex crossbars. To mount vertically, a Stow It Base Bracket must be purchased. Contents included: 2 x recovery traction board holders, 2 x vertical mounting adaptors, Zwifloc channel nuts, hardware and Torx key.

Introducing the new Recovery Board Holder, the perfect accessory for outdoor enthusiasts and off-road adventurers. The holder is designed to carry up to 4 recovery traction boards securely with a key lock mechanism. The holder is versatile and can be mounted horizontally or vertically on a Pioneer Platform, Reconn-Deck or Vortex Bars. Whether you're in the middle of a muddy trail or a sandy desert, you can quickly remove the boards from the holder and get back on track. In addition to recovery boards, the MSIT can safely hold your Aluminum folding ladder (RAFL).

RHINO RACK MTX02BK MAXTRAX MKII BLK

Measuring just 45 inches long X 13 inches wide, each set of MAXTRAX stacks together at a height of just 3.5 inches. Stows easily with the rest of your car camping, overlanding or four-wheel drive touring gear. Made of UV-stabilized, flexible, super tough engineering-grade reinforced nylon, MAXTRAX provides traction and a firm base to get your vehicle quickly back on track. They have been tested at the University of Queensland to wrap completely around a 33-inch tire without breaking. Each recovery track weighs just 7.5 pounds. Easy to carry and thanks to its signature double-edged design, it's easy and quick to maneuver under your tires. Six comfortable built-in handles and a shovel at either end for removing excess earth to help get you unstuck quicker. They have exclusive keyhole accessory points to allow you to securely mount your MAXTRAX. Plenty of hard, rugged teeth to interlock with your tire's tread will get you up and out of a bog in no time.

MAXTRAX is the lightweight, easy-to-use vehicle recovery and extraction device that's easily carried by almost anything with four-wheels ensuring an easy way out if your vehicle becomes stuck.

Made of UV-stabilized, flexible, super tough engineering-grade reinforced nylon, MAXTRAX provides traction and a firm base to get your vehicle quickly back on track. They have been tested at the University of Queensland to wrap completely around a 33-inch tire without breaking. Each recovery track weighs just 7.5 pounds. Easy to carry and thanks to its signature double-edged design, it's easy and quick to maneuver under your tires. Six comfortable built-in handles and a shovel at either end for removing excess earth to help get you unstuck quicker.

They have exclusive keyhole accessory points to allow you to securely mount your MAXTRAX. Plenty of hard, rugged teeth to interlock with your tire's tread will get you up and out of a bog in no time.

The original MAXTRAX recovery tracks! Whether you're showing support or you just like the color pink, here's a set of MAXTRAX that are sure to stand out. Add a bit of sparkle to your recoveries.

68775904AA

MSRP*: \$141.99

RHINO RACK MTXLTBK MAXTRAX LITE BLACK

- Half the weight - all the adventure. 1.8 kg/4 lbs each, 48% lighter than the Mk2's
- Lifetime warranty - manufactured with the similar design as our premium boards
- Proudly Australian Made
- Impact-resistant thermoplastic - achieve lightweight tough construction
- Seamless stacking - stacks together with a sleek, low-profile design
- Double ramp design - patented for quick and easy maneuvering under your tires
- Mounting pin holes - allows for convenient storage, and the LITE can be linked together or to other boards in the MAXTRAX family
- 895mm long for traction
- Aggressive teeth pattern - 66 teeth ensure rapid and effective tyre grip
- Four comfortable handles - designed for ease of handling on the shorter LITE boards
- Shovel at both ends - enables easy digging in tight spots
- MAXTRAX LITE recovery boards are rated to 3,500 kg/7,716 lbs

The MAXTRAX LITE recovery tracks are your entry ticket to off-road adventures whether you're seeking value for money, a part-time explorer or exploring less extreme off-road terrains. What sets the MAXTRAX LITE recovery tracks apart is their weight - they're 48% lighter than our Mk2 recovery tracks, making them perfect for smaller vehicles, those mindful of weight limits and roof load capacity. Measuring 895mm, they're also 22% shorter than the Mk2 and XTREME recovery tracks.

68775906AA

MSRP*: \$171.99

RHINO RACK MTXMB MAXTRAX MINI CARRY BAG BLK

The heavy duty, four-layer, weather-resistant carry bag provides functional and stylish storage for all your MAXTRAX Minis - keeping mud, sand, dirt and snow out of your vehicle. This dynamic bag will safely store up to 4 MAXTRAX minis or 2 MAXTRAX Jaxbases & 2 MAXTRAX minis. Externally, the zippers have provisions for the use of a padlock; internally, the bright safety orange material is teamed with the protective black mesh, protecting the tracks and the bag from all environmental weather factors. Comes complete with additional internal storage. Designed and engineered for adventure.

The heavy-duty Black mesh-lined carry bag provides an attractive tote and storage for your MAXTRAX mini and Jaxbase, keeping mud, sand and dirt out of your vehicle. This stylish, shaped, snug-fitting bag features heavy-duty zippers for reliable storage.

68775907AA

MSRP*: \$131.99

RHINO RACK MTXMJB MINIJAXBASE COMBO SIG ORANGE

Your MAXTRAX mini stacks neatly on top of your Jaxbase to allow for ease of storage and mounting options. The aggressive large cleats on MAXTRAX sink their teeth into the tire tread and the terrain under your 4WD or UTV vehicle to prevent it from slipping back into mud, snow or sand and make vehicle recovery quick and easy. MAXTRAX Mini and Jaxbase are a smaller size - measuring just 640mm long X 330mm wide x 85mm tall (25 inches long X 13 inches wide). Each set of MAXTRAX Mini and Jaxbase stack together at a height of just 85mm (3.5 inches). Made of UV-stabilized, flexible, super tough, engineering-grade reinforced nylon. Package contains 1 x MAXTRAX Mini, 1 x MAXTRAX Jaxbase, a pair of telltale leashes and instructional/warranty card.

The MAXTRAX Mini and Jaxbase are made from the same super-tough, engineering grade reinforced Nylon with a size suited to vehicles with space constraints and a jack base for use with vehicles and trailers.

68775908AA

MSRP*: \$211.99

RHINO RACK MTXML30D MAXTRAX MAXLOX 30 DUAL PACK

Pack of two locks that utilize the same key to unlock. Feature a silicone cover for lock protection. Designed to protect and secure your MAXTRAX 4WD Recovery Tracks from potential thieves when they're mounted on any of our MAXTRAX Mounting Pins.

The MAXTRAX MAXLOX 30mm heavy-duty Stainless-Steel padlock with a silicone cover is designed to protect and secure your MAXTRAX 4WD Recovery Tracks from potential thieves when they're mounted on any of our MAXTRAX Mounting Pins. Simply feed the padlock shank through the padlock hole in the shaft of at least one of the mounting pins and close the padlock. When travelling, we recommend securing your MAXTRAX (when mounted on MAXTRAX Mounting Pins) with this padlock and ensuring that all of the pins are turned to the lock position.

REMOVABLE TRAIL ARMOR CARRY & STORAGE BAG

The MEK Removable Trail Armor Carry & Storage Bag stores your magnetic and ballistic resin with nano-hold technology Armor when not in use. Simply open and unroll the bag and place the Armor IMAGE SIDE DOWN in between the layers of the bag. For the ballistic resin with nano-hold technology Armor, press the carry bag sheets down over the sticky side, removing air bubbles to keep the Armor clean and secure. Once all Armor is in the bag, fold the side flaps in and roll the bag closed, buckle the straps and store! The bag rolls into the size of a camping chair!

83-PIECE ULTIMATE JEEP® TOOL KIT

The 83-piece tool kit has everything Jeep® Wrangler owners need, from basic vehicle maintenance to trail fixes after a day of rugged adventures. This curated tool kit includes everything from a variety of combination wrenches, 1/4-inch, and 3/8-inch ratchets and sockets to a 1/2-inch breaker bar, pliers, drivers, hex and Torx keysets, adjustable wrench, trim tool, wire, tape, zip ties and even a stout ball-peen hammer. All this and more are stored securely within dedicated sewn pockets and two zippered pouches featured in the heavy-duty tool roll.

68640356AA
MSRP*: \$380.00

JEEP® 22-IN-1 MULTI-TOOL WITH BITS AND CASE

The perfect quick emergency tool to store in the glove compartment, under a seat, back seat pocket or general storage area while on the road, in the dirt or hanging around the house. The 22-in-1 Multi-Tool comfortable rubber plier handle folds into the tool. An aluminum body and a combination of stainless steel tools all fold into the body. Tools include pliers, wire cutter, curved jaw gripper, saw blade, slotted screwdriver, emergency glass breaker, 3-in-1 wrench (8 mm, 10 mm and 12 mm), bottle opener, 1/4-inch socket driver, file and a selection of screwdriver bits.

68640357AA
MSRP*: \$55.00

JEEP® LUG MASTER

The Jeep® Lug Master wrench makes tire changes faster, easier and safer. The design works like an L-Type lug wrench to break loose stubborn lug nuts. Then, by sliding the socket drive head to the center, you can quickly spin off loosened lug nuts. Reverse the procedure to install a new tire and then get back on the road. The Lug Master comes complete with two double-sided lug nut sockets to fit virtually every passenger vehicle on the road today and two 3-inch extensions that can be combined for use on deep dish rims. The sockets and extensions store in the handles so everything is there when you need it.

68640355AA
MSRP*: \$99.00

NOCO GBX45 BOOST X 12V 1250A JUMP STARTER

The Boost X GCX45 is a portable 1,250-amp UltraSafe Lithium Jump Starter for 12-volt batteries in vehicles with up to 6.5-liter gasoline and 4.0-liter diesel engines, including cars, motorcycles, trucks, ATVs, boats, RVs, tractors and more. All-new design with extreme jump-starting power for powerful engine starts. This portable lithium car battery jump starter releases maximum energy at every start. This isn't an upgrade. It's a whole new series – the Extreme Series. Equipped with USB-C technology that, combined with power delivery, gives you lightning-fast recharges. Completely recharges in just 48 minutes, or go from 0% to jump starting in just 5 minutes of charge. Charge everything with USB-C power delivery. Its internal power bank provides 60-watts of power – both in and out – to effortlessly power your favorite USB-C devices, like phones, tablets, laptops, wearables and more. We took our UltraSafe technology and made it better. It's still our simple, mistake-free design featuring spark-proof technology and reverse polarity protection, but with enhanced thermal efficiency and power management to provide better performance and longer battery life.

The 66-19180 includes heavy-duty laser-cut powder-coated steel front top mount coil spring spacers providing the ideal 1.75" of front leveling lift. It is that simple to level the front of these new Ram 4WD 2500/3500 HD trucks. New kits include a retention bolt which has been added to lock the spacer to the frame and shock extensions have been added to optimize shock length after leveling the truck.

MSRP*: \$241.95

READYLIFT 66-1920 RAM 1500 2019-2025 2" PRE-LOAD SPACER FRONT LEVELING KIT

The 2019-2025 Ram 1500 2WD/4WD 2" leveling kit is designed for new body style Ram 1500 4WD. It features a front pre-load spring spacer and is made of CNC-machined billet aluminum. The 66-1920 kit provides 2" of front leveling lift and comes with a composite upper control arm with a sheet metal cover. Engineers determined the stresses around the ball joint would be too great for a traditional strut extension leveling kit and have chosen to tap into ReadyLift's popular strut spring pre-load spacer design, which generates lift without putting undo stress on critical areas like the ball joint.

68762043AA

MSRP*: \$221.95

READYLIFT 66-19150 RAM 1500 4WD 2019-2025 1.5" LEVELING KIT

The 66-19150 kit provides 1.5" of front leveling lift in the form of ReadyLift's popular CNC-machined billet aluminum top mount strut extension and a composite upper control arm with a sheet metal cover. To add strength and security to any new leveling setup, engineers have developed a new heavy-duty DOM tube steel upper control arm with corrected ball joint angle cups for proper pivot angle.

68762044AA

MSRP*: \$571.95

READYLIFT 66-1921 RAM 1500 4WD 2019-2025 2" FRONT LEVELING KIT WITH TUBULAR CONTROL ARMS

The 66-1921 kit provides 2" of front leveling lift in the form of our popular CNC-machined billet aluminum top mount strut extension. The 2019-2025 Ram now comes with a composite upper control arm with a sheet metal cover. Our engineers determined the stresses around the ball joint would be too great for a traditional strut extension leveling kit. To add strength and security to your new leveling setup, we have developed a new heavy-duty DOM tube steel upper control arm with corrected ball joint angle cups for proper pivot angle. Our 66-1921 2" front leveling kit will get the job done right and affordably. This kit is not for use on air-suspension equipped trucks.

UNDERHOOD BATTERY CHARGER, 3-STAGE, 25-AMP

Sold by RedArc, this 25-amp, 12V in-vehicle dual battery charger is designed to charge your secondary battery banks to 100% state of charge while on the move. Maximize the performance of secondary battery banks from 75-200Ah. Fully sealed to survive the harshest conditions and work flawlessly in engine bay installations, this charger has been proven to thrive in all types of terrain, including deep water crossings, and stand up against extreme vibration and heat (up to 176 degrees F). Have the reassurance and confidence that your batteries will be charged to their optimal levels, thanks to a unique multi-stage charging algorithm that provides specific charging profiles tailored to all common battery types including lithium (LiFePO4), AGM, GEL, standard lead acid and calcium. Featuring a Maximum Power Point Tracking (MPPT) solar regulator, this charger will charge from both solar and alternator power simultaneously. With built-in 'Green Power Priority' it will always select solar charging first, meaning less load on the vehicle's alternator. Suitable for both 12- and 24-volt vehicle systems, this charger will also work with either standard or variable/smart alternators. Made in Australia by RedArc, it has undergone testing in some of the harshest conditions on the planet, so it's tough enough to take anything nature can throw at it.

SMART BATTERY MONITOR

Sold by RedArc, the Smart Battery Monitor eliminates power anxiety and keeps track of battery levels in real time. Utilizing the latest Bluetooth 5.1 technology, the Smart Battery Monitor delivers reliability over longer distances. Connect at distances up to 137 feet, nearly 1.5x further than the competition. Easily view battery levels and an estimate of how many days power remains, updated in real time, anywhere at camp. Up to five times more accurate than the leading competitor, trust that '2 Hours Left' means '2 Hours Left'. With just three connection points and convenient configuration app, get battery monitoring in minutes. Utilizing RedArc's RedVision app, vital battery information including state of charge, charge remaining and current flow is available at the touch of a button. The Smart Battery Monitor is a simple addition to any 12-volt power system, making keeping track of auxiliary batteries simple. Each Smart Battery Monitor is designed, tested and manufactured in Australia and backed by RedArc's leading technical support. Our rigorous testing ensures that the Smart Battery Monitor won't fail when the road gets rough.

SIDE-BY-SIDE ENGINE BAY WIRING KIT, BCDC1225 CHARGER

Sold by RedArc, the 25A Side-by-Side Engine Bay Install Wiring Kit has been designed to facilitate easy installation of a RedArc battery charger when the start battery and auxiliary battery are in close proximity within the engine bay (less than two feet apart). This kit contains all the cables, fuses, fuse holders and connectors required to install the charger between the batteries. The cables come pre-crimped on one end and, through use of the supplied terminal block, the other end of the cables can be trimmed to length to suit the specific installation. The Wiring Kit includes brown, black and red cables, terminal block with plastic cover, M5 x 25mm socket head screw, M5 nylon locking nuts, M5 flat washer, six-inch red cable, fuse kit, cable ties, Wago connector and boot, blue cable and 39-inch protective conduit.

68719851AA

MSRP*: \$242.68

WIRING KIT, BCDC1225 CHARGER, ENGINE BAY-INSTALLED

Sold by RedArc, the 25A Across Engine Bay Install Wiring Kit has been designed to facilitate easy installation of a RedArc BCDC1225D DC to DC Battery charger when the start battery and auxiliary battery are at opposite ends of the engine bay (more than 2 feet but less than 11 feet apart). This kit contains all the cables, fuses, fuse holders and connectors required to install the charger between the batteries. The cables come pre-crimped on one end and, through use of the supplied terminal block, the other end of the cables can be trimmed to length to suit the specific installation.

68719852AA

MSRP*: \$349.71

WIRING KIT, 25-AMP, BCDC1225 CHARGER, TRAY-INSTALLED

Sold by RedArc, the 25-amp Rear Install Wiring Kit has been designed to facilitate easy installation of a RedArc BCDC1225D DC to DC Battery charger when the start battery and auxiliary battery are at opposite ends of the vehicle (up to 28 feet away from the start battery). This kit contains all the cables, fuses, fuse holders and connectors required to install the charger between the batteries. The cables come pre-crimped on one end and, through use of the supplied terminal block, the other end of the cables can be trimmed to length to suit the specific installation. The kit includes: brown, black and red cables, terminal block with plastic cover, M5 x 25mm socket head screw, M5 nylon locking nuts, M5 flat washer, 6-inch red cable, fuse kit, cable ties, wago connector and boot, blue cable, and 39-inch protective conduit.

ALPHA150 BATTERY TRAY

Sold by RedArc, the Alpha150 Battery Tray simplifies installation and mounting of the Alpha150 12V 150Ah Lithium Battery. Featuring quick, simple installation, the Alpha150 Battery Tray keeps your battery securely locked in position over the roughest terrain. This zinc-plated bracket allows for installation on the floor of a vehicle via ten countersunk fasteners and comes with instructions to complete the installation process.

68719857AA

MSRP*: \$191.80

ALPHA150 12V 150 AH LITHIUM BATTERY

Sold by Red Arc, the Alpha150 12-Volt 150Ah Lithium Battery is the ultimate in performance with an extra-long lifespan and huge discharge rate. Benefit from a long cycle life of over 5,000 cycles at 100% depth of discharge (DoD). With up to 60% longer lifespan than some lithium competitors, it's the ultimate lithium battery. Stay informed with Bluetooth connectivity and the intuitive companion app. State of charge and battery charge remaining are available at the touch of a button. Experience up to 70% more amp hours per cubic inch compared to key lithium competitors, meaning more power in a compact size to maximize storage space without compromising on performance. 30% more amp hours per pound than key lithium competitors, the Alpha150 is a lightweight solution for optimal weight distribution in any vehicle setup. With a continuous discharge of 200 amps, the Alpha150 effortlessly powers high-demand appliances such as a 2000W inverter, without the need for multiple batteries. Streamline installation and power distribution, connect multiple loads effortlessly with versatile terminal options. With a lightning-fast maximum charge rate of 135 amps, charge up to 80% faster than competitors and reduce charge time up to just 1.1 hours. The Alpha150's self-heating feature, charge from as low as -22 degrees F to 113 degrees F and discharge from -4 degrees F to 140 degrees F to conquer extreme climates with confidence. Enclosed in durable PC/ABS with an IP56 rating, the Alpha150 shrugs off vibration, dust or water. Crafted with precision in the Netherlands to meet the highest quality standards, including UL1642 and UN38.3 and FCC certifications.

ROGUE POWER DISTRIBUTION MODULE

Sold by RedArc, the Rogue Power Distribution Module is a total vehicle management system. Control accessories via the physical screen or your Bluetooth-connected mobile device. At just one-inch thick with built-in smart fusing, the TVMS Rogue offers a small footprint, great for vehicles with limited space. The TVMS Rogue allows complete control of multiple on-board devices including fans, fridges, inverters and pumps. Each of its 10 output channels include dimming and the built-in switch inputs make the Rogue perfect for lighting circuits. Save time and energy by using RedVision app to automate those tasks. With the press of a button, switch off everything except for your fridge or power down non-essential loads when your batteries are running low. RedVision Display is required and sold separately.

68719859AA

MSRP*: \$793.44

REMOTE DISPLAY UNIT

Sold by RedArc, the RedVision Display Unit can be used as a replacement or secondary display for the Manager30 or RedVision Total Vehicle Management System. Featuring a modern, user-friendly interface and easy-to-understand system layout, this robust display has been built and tested to withstand the touches and most extreme environmental conditions while providing control of multiple on-board devices and visibility over battery power and water tank levels. The RedVision Display Unit can only be retro-fitted for use on the Manager30 with part number BMS1230S3-NA. The unit includes: 4.3-inch display, optional mounting spaces, display fascia, RJ45 R-Bus cable (15-inch black) and an RJ45 R-Bus terminating resistor.

68719860AA

MSRP*: \$627.89

BATTERY CHARGING MANAGER

Sold by RedArc, the battery Manager30 features a color display, mobile phone connectivity, and is a complete battery management system for charging auxiliary batteries used in RV and overlanding vehicles. Designed to charge and maintain auxiliary batteries by incorporating AC, DC and solar charging inputs, it also features a built-in MPPT solar regulator, battery isolator and remote battery monitor. The Manager30 represents a complete DC to DC charging and maintenance solution for all common battery types including standard lead acid, gel, calcium, AGM and lithium (LiFePO4). The 'Green Power Priority' feature will always look for solar power before supplementing with vehicle power. Combined with a built-in Maximum Power Point Tracking solar regulator, you're guaranteed to get the most out of your solar. The Manager30's simple color display is designed to show auxiliary battery information and charge status, making it simple to see how long until auxiliary batteries are full or flat as well as other vital battery information. The Manager30 also connects to RedArc's RedVision smartphone app, allowing monitoring of the battery state of charge from mobile devices. Designed and manufactured in Australia and developed with ease of installation in mind, the Manager30 is compatible with all vehicle and alternator systems including variable voltage/smart alternators.

68719861AA

MSRP*: \$2,218.94

ENCAPSULATED PROTECTION DEVICE

Sold by RedArc, the Encapsulated Protection Device has been designed to support the installation of RedArc's Tow-Pro Electric Brake Controllers. Utilized on vehicles where 'back-feed' of 12-volt during the Tow-Pro's Manual Override function may interfere with the vehicle systems, the Encapsulated Protection Device is designed to fit in the Trailer Stop Lamp. When installed correctly, the device ensures correct trailer braking and stop lamp operation when the vehicle brakes or the Tow-Pro Manual Override is used. Rated at 7 amps for both 12-volt and 24-volt applications, it is totally encapsulated with sealed connections.

68719862AA

MSRP*: \$76.00

100-AMP FUSE KIT

Sold by RedArc, the 100-Amp Fuse Kit is designed for Smart Battery Isolator installations. Equipped with the best quality fuses and fuse holders, the kit has the cable needed for a specified current to make a solid connection, providing peace of mind for a safe and efficient installation. Kit includes: 2 x fuse holders, 4 x 40-amp fuses, cable crimps and detailed instructions.

68719863AA

MSRP*: \$245.51

23-AMP FUSE KIT

Sold by RedArc, the 23-Amp Fuse Kit is equipped with high-quality fuses and a fuse holder. Designed for the specified current and required to make a solid connection, this ensures any installation is working safely and efficiently. The kit includes: 1 x fuse holder, 2 x 23-amp fuses, cable crimps and detailed instructions.

68719864AA

MSRP*: \$80.50

30-AMP FUSE KIT

Sold by RedArc, the 30-Amp Fuse Kit is equipped with high-quality fuses and a fuse holder. Designed for the specified current and required to make a solid connection, this ensures installation is working safely and efficiently. The kit includes: 1 x fuse holder, 2 x 30-amp fuses, cable crimps and detailed instructions.

68719865AA

MSRP*: \$80.50

40-AMP FUSE KIT

Sold by RedArc, the 40-Amp Fuse Kit is equipped with high-quality fuses and a fuse holder. Designed for the specified current and required to make a solid connection, this ensures installation is working safely and efficiently. The kit includes: 2 x fuse holders, 4 x 40-amp fuses, cable crimps and detailed instructions.

68719866AA

MSRP*: \$104.78

60-AMP FUSE KIT

Sold by RedArc, the 60-Amp Fuse Kit is equipped with high-quality fuses and a fuse holder. Designed for the specified current and required to make a solid connection, this ensures installation is working safely and efficiently. The kit includes: 2 x fuse holders, 4 x 60-amp fuses, cable crimps and detailed instructions.

100AH GOBLOCK PORTABLE DUAL BATTERY SYSTEM

Sold by RedArc, the GoBlock is both a portable power source and flexible in-vehicle dual battery system. With USB, accessory, merit, fridge and Anderson outputs, the GoBlock is ideal for charging smart devices, phones, games, cameras and drones as well as powering lights, compressors, a portable fridge and more. Featuring a 100-amp lithium (LiFePO4) battery, the GoBlock is capable of a rapid 50-amp recharge rate utilizing RedArc's proprietary DC charging technology. Including a start battery recovery feature, the GoBlock can safely charge a vehicle's start battery to get a vehicle out of trouble on the road in just 15 minutes. Utilizing built-in MPPT solar regulator technology, the GoBlock gets the most out of any solar panels. With three ways to charge, utilize 50 amp of fast charge via the vehicle's alternator, trickle charge via the vehicle's accessory socket, charge via shore power while at home or solar while parked at camp. The GoBlock connects via Bluetooth to RedArc's RedVision smartphone app, providing remote access to the battery state of charge, system diagnostics, input source information and the ability to activate Start Battery Recovery mode. Install the GoBlock into vehicles with either standard or smart alternator systems, meaning it's suitable for any vehicle installation. Being portable, it can be moved between vehicles for power anywhere or mounted securely with the PowerDock. The GoBlock is built tough with a rugged exterior, meaning it's prepared for almost any situation. With an IP52 protection rating, its inputs and outputs are neatly recessed with tough shields to protect them from hard knocks and inclement weather. The battery is made of high-quality lithium cells that are safely enclosed within the fully sealed aluminum case.

68719868AA

MSRP*: \$2,712.52

GOBLOCK POWER DOCK

Sold by RedArc, the GoBlock PowerDock provides a 50-amp fast charge and secure docking for the GoBlock Portable Dual Battery System. A semi-permanent installation solution, the PowerDock is lockable with anti-theft in mind and has been tested to suit relevant crash and vibration standards. Utilize the PowerDock as a secure way to transport the GoBlock, the patented design provides both restraint and connection with a single action mechanism. The PowerDock allows Green Power Priority charging for a GoBlock setup, providing simultaneous vehicle and solar charging that will utilize all available solar before supplementing with vehicle power. This reduces the load on a vehicle's electrical system and increases fuel economy.

68719869AA

MSRP*: \$465.02

POWERDOCK WIRING KIT

Sold by RedArc, the Complete PowerDock Installation Kit includes everything you need to install the PowerDock in the rear of a vehicle for a reliable and fast GoBlock charge. The pre-terminated wiring and fuses to connect the PowerDock in the rear of a vehicle to the start battery in the engine bay makes the installation of a PowerDock easier than ever. A genuine Anderson connector and cable is also included to connect fixed or portable solar panels.

68719870AA

MSRP*: \$412.21

GOBLOCK INVERTER ACCESSORY CABLE

Sold by RedArc, the GoBlock Inverter Connector Cable is designed to make connecting a 350W RedArc inverter to your GoBlock portable dual battery system a breeze. The GoBlock Inverter Connector Cable features lug terminals designed to connect to a 350W RedArc inverter, with an Anderson plug on the opposite end, offering a plug-and-play inverter solution.

68719872AA

MSRP*: \$94.86

BATTERY RECOVERY CABLE

Sold by RedArc, the GoBlock Recovery Cable allows you to never worry about a flat battery again. Use these smart battery recovery cables along with your GoBlock to safely and effectively recover your start battery using the start battery recovery feature. You can safely charge yours, or your friend's start battery and get out of trouble in as little as 15 minutes. Fitted with a genuine Anderson connector, this cable measures 1.5m in length and includes alligator-style clamps for quick and effective connection to the vehicle's battery.

2000W PURE SINE WAVE INVERTER

Sold by RedArc, the 2000W Pure Sine Wave Inverter makes it possible to plug in anywhere and power all your 110-volt luxuries from home. With a 2000W inverter in your off-grid setup, you can charge your phones, cameras, laptops and speakers, and run GPS, CPAP, coffee machines, hairdryers, microwaves, irons and power tools without fear of damaging your appliances. Slimmer and lighter, RedArc inverters feature multiple levels of protection including overload, short circuit and an overtemperature and load-controlled cooling fan, which is engaged when power consumption reaches a certain level. This ensures the inverter can work comfortably in even the harshest conditions.

160W FOLDING SOLAR KIT

The 160W Monocrystalline Folding Solar Blanket is a lightweight, compact, rugged solution to portable solar power. Designed to charge 12V automotive, marine and recreational vehicle battery systems, the 160W folding solar blanket has a high-power output. It is constructed from heavy-duty canvas and covered in an anti-reflective and scratch-resistant ethylene tetrafluoroethylene (ETFE) coating, making it perfect for off-road conditions. Bypass diodes connect each solar window, minimizing the impact of shadows and making them the best solar blankets for camping. Drape it over the hood or windscreen, lay it on the ground or hang it from the side of an awning. When it's time to hit the road, just fold up and pack away. It features genuine, industry standard Anderson connectors, so incorporating a solar blanket is simple with no screw terminals and no risk of poor connections from frayed wires or loose terminals. The dimensions are: Open: 64.4" x 29.1" x 1.0", Closed: 14.4" x 14.4" x 2.8".

120W MONOCRYSTALLINE PORTABLE FOLDING SOLAR PANEL

The 120W Portable Folding Solar Panel features highly efficient monocrystalline cells with an adjustable leg design so the panels can be conveniently angled toward the sun. The perfect addition to any dual battery or off-road setup, these ultralight, un-glazed panels feature an ETFE (ethylene tetrafluoroethylene) coating designed to protect the monocrystalline solar cells from damage. This also ensures these folding panels are less fragile than traditional glass designs. These panels have been designed to withstand high temperatures, allow a maximum amount of solar energy to penetrate the solar cell and are more flexible than standard coatings. With genuine industry standard Anderson connectors for convenient plug-and-play portability and an included protective carry bag, it is the perfect panel for any off-grid adventure. The dimensions are: 40.6" x 28.1" x 1.0".

TOW-PRO TRAIL KIT TO SUIT

Electric Trailer Brake Controller Tow-Pro V3 is designed to fit Jeep® Wrangler and Jeep Gladiator and includes all the parts needed to install a Tow-Pro Elite. The ultimate plug-and-play brake controller solution, the Tow-Pro Trail Kit has been specifically designed to enhance off-road adventures. Featuring two braking modes, Manual Off-road Mode and Everyday Mode (proportional braking), it is the best brake controller for tackling challenging conditions such as steep descents, mud and sand, as well as providing smooth, safe braking for everyday hauling. It also includes SwayStop Control Technology to stop trailer sway with one touch, and ensures safe towing over any terrain, anywhere. Engineered and tested for the toughest conditions, the main unit gets mounted behind the dash to not interfere with driver's leg space or airbags and provide a factory-look, dash-mounted control knob. The kit includes: the Tow-Pro Elite Electric Brake Controller, universal pig-tail wiring harness, Jeep Wrangler/Jeep Gladiator wiring harness, universal switch insert and Tow-Pro mounting bracket.

RHINO RACK JC-02073 PIONEER 6 PLATFORM (51" X 56") UNASSEMBLED WITH RLT600 LEGS 2019-2026 RAM 2500 / 3500 4-DOOR

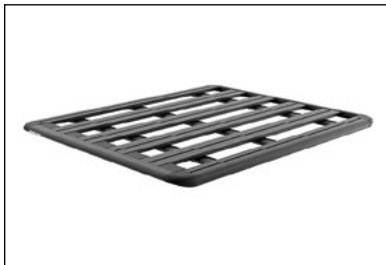

Fits: 2019-2026 Ram 2500 / 3500 4-Door

Quietest & lightest Rhino-Rack Pioneer Platform... ever! Up to 60% reduction in drag from its predecessor. Stronger alloys that maintain strength but reduce weight by 20% too. No channel apertures make 100% of the platform usable for mounting accessories. Improved performance with up to 25% more usable channels. Our hardest coating ever, reducing damage and scuffs. East/West mounting channels for more mounting options than ever before. Integrated wiring capabilities within all extrusions. Detachable wind fairing inserts in leading-edge further enhance drag reduction. Most comprehensive ecosystem of accessories for mounting everything from kayaks to fishing rods in seconds.

The Pioneer 6 Platform is the ultimate roof rack that expands your adventures – not just your vehicle's capabilities. Designed to be the pinnacle of engineering, the Pioneer 6 Platform is a leap ahead of our already impressive predecessors and challenges the boundaries of aerodynamics and durability. Born for the trailblazers, forged without compromise, the Pioneer 6 Platform isn't just an extension of your vehicle – it's an expansion of your potential.

WRANGLER DELUXE ROCK RAIL WITH 4-INCH DROP STEP

The Deluxe Rock Rails for the Wrangler JL are an essential upgrade to your Jeep®, providing protection from rocks and debris for the lower rocker panel during off-road adventures. Made of high-strength low-alloy steel and powdercoated black, they are designed to handle the rigors of mild to moderate off-roading. They provide a sleek yet rugged look to your Jeep and are resistant to corrosion to ensure lasting performance and durability. The bolt-on design makes for a hassle-free fitment for wheel-to-wheel coverage of the pinch seam. In addition to their practical benefits, these rock rails can enhance the passenger accessibility to a lifted Jeep with the removable 4-inch drop steps. The removable drop step easily bolts on and off the rock rail within minutes using the OEM Mopar® JL tool kit. This allows you to transform your rock rail depending on your needs and the terrain during your off-road excursion.

68757982AA

MSRP*: \$1,109.99

WARN MEDIUM-DUTY EPIC RECOVERY KIT

When you hit the trails, you go prepared and carry the right gear for getting the most out of your WARN winch. That's why we offer the WARN Epic Accessory Kit. The components fit neatly inside the modular backpack, which also acts as a winch line damper, and is easy to transport. Available in medium-duty (for winches 12,000 lbs. and under) and heavy-duty (for winches 18,000 lbs. and under).

68762028AA

MSRP*: \$704.21

WARN HEAVY-DUTY EPIC RECOVERY KIT

When you hit the trails, you go prepared and carry the right gear for getting the most out of your WARN winch. That's why we offer the WARN Epic Accessory Kit. The kit includes premium WARN Epic accessories that wear durable powder coatings that protect against abrasion and the elements and stand up to the most rigorous recoveries. The components fit neatly inside the modular backpack, which also acts as a winch line damper, and is easy to transport. Available in medium-duty (for winches 12,000 lbs. and under) and heavy-duty (for winches 18,000 lbs. and under).

68762029AA

MSRP*: \$828.48

WARN WINCHING GLOVES

All-new WARN winch gloves provide superior fit and protection. These gloves are designed to help protect your hands from the sharp barbs and abrasion that may occur when handling winch rope. Recommended equipment when working with winch rope.

68762031AA

MSRP*: \$46.90

WARN EPIC FAIRLEAD

Add durability and rugged style to your WARN winch setup with new Epic and Premium fairleads. Made from forged 6061-T6 billet aluminum, these fairleads are built to last and styled to look great.

68762032AA

MSRP*: \$109.18

WARN PREMIUM FORGED FAIRLEAD

Add durability and rugged style to your WARN winch setup with new Epic and Premium fairleads. Made from forged 6061-T6 billet aluminum, these fairleads are built to last and styled to look great.

68762033AA

MSRP*: \$87.18

WARN SPYDERA 3/8" SOFT SHACKLE

Durable ultra-high-molecular-weight polyethylene construction with UV-stability coating; 3/8" (9.5mm) diameter shackle delivers 29,700 lbs. (13,472 kg) of minimum breaking strength; lightweight and easy to carry.

68762034AA

MSRP*: \$55.18

WARN EPIC D-SHACKLE

Designed to help off-roaders get the most out of their WARN winch, withstand the elements and look great, the newly available WARN Epic Winching Accessories take optional performance to another level. Featuring a WARN-exclusive 12-stage coating process; utilizing e-coat and powder coatings, these market-leading accessories deliver visual appeal, improved impact-resistance and a longer wear cycle than standard winch accessories.

68762035AA

MSRP*: \$87.86

WARN ZEON XD 10K

Redesigned and retooled from the ground up for ultimate performance and durability – ZEON XD is there for the times it just has to work, in all conditions. And with the industry's best warranty, fastest line-speed and most robust waterproof sealing, ZEON XD is the ultra-reliable recovery tool you can count on when you need it most.

68762036AA

MSRP*: \$1,716.14

F55 ULTRAHOOK - RED

All the benefits of Closed System Winching™ with the versatility of having a hook. Originally developed to meet the needs of off-road racers who wanted the speed of a hook and functionality of closed system winching, the low-profile UltraHook features an industry-first closed system shackle mount hole machined into the body of the hook and installs in minutes. A latch pin, which is stored in the hook's body, can lock the safety latch securely into place for a true Closed Loop System™. Integrated finger grips promote proper "Hook Up" orientation. UltraHook is the first winch hook that can be stored neatly against a winch's fairlead, protecting it from a metal-to-metal connection, thanks to EPDM rubber pads, which also eliminate the UltraHook from rattling.

68762037AA

MSRP*: \$289.19

F55 PROLINK - RED

The ProLink is Factor 55's original shackle mount. Trusted and used by first responders worldwide, ProLink is easy to install and allows winch owners the ability to replace the vehicle's winch hook with a stronger shackle/D-Ring mount. Engineered and machined in the USA from lightweight billet 6061 aluminum, ProLink doesn't require splicing and is compatible with steel or synthetic ropes and both hawse and roller fairleads. The cable eye is retained in the ProLink by an ultra-strong aerospace-grade titanium doubleshear pin and internal snap ring and is easily installed in minutes. The EPDM rubber guards protect alloy fairleads and is securely attached to the ProLink with four barbed tips and prevents rattling.

68762038AA

MSRP*: \$205.44

F55 ROPE RETENTION PULLEY

The world's first winch friction pulley with patented rope retention feature. A lightweight alternative to traditional heavy snatch blocks/pulleys. The RRP can be used to increase pulling power or redirect the winch line. The RRP is for use with SYNTHETIC ROPE ONLY and is to be used in conjunction with a soft shackle. During momentary slack, patented rope retention rubber fingers prevent synthetic winch rope from escaping the pulley groove, preventing premature rope failure. The oversized hole radius provides a smooth rubbing surface and keeps the legs of the soft shackle from rubbing on the edges of the RRP. The critical friction surface has also been TEFLON treated to increase slickness and heat dissipation.

68762039AA

MSRP*: \$124.19

F55 RRP + STANDARD SOFT SHACKLE

The world's first winch friction pulley with patented rope retention feature. A lightweight alternative to traditional heavy snatch blocks/pulleys. The RRP can be used to increase pulling power or redirect the winch line. The RRP is for use with SYNTHETIC ROPE ONLY and is to be used in conjunction with a soft shackle. During momentary slack, patented rope retention rubber fingers prevent synthetic winch rope from escaping the pulley groove, preventing premature rope failure. The oversized hole radius provides a smooth rubbing surface and keeps the legs of the soft shackle from rubbing on the edges of the RRP. The critical friction surface has also been TEFLON treated to increase slickness and heat dissipation.

MSRP*: \$169.19

F55 HITCHLINK 2.0 - RED

Easily convert your vehicle's hitch receiver into a recovery point.

68762041AA

MSRP*: \$112.94

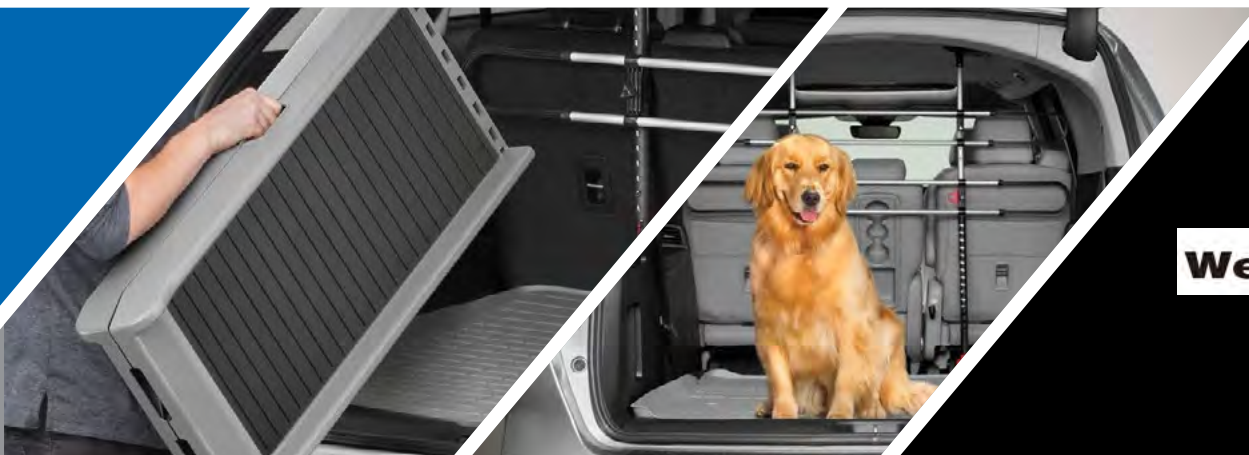

F55 LOCKING HITCH PIN

The Factor 55 high-strength stainless steel hitch pins. The locking style provides theft security when locking a ball mount or accessory to your 2 or 2-1/2" hitch receiver. Grooved pin head for ease of handling, a 50,000+ lb. shear strength, and proudly made in the USA.

68762042AA

MSRP*: \$75.44

WeatherTech®

WEATHERTECH 8APB01 PET BARRIER

Keep those paws and claws off the upholstery. The WeatherTech Pet Barrier is adjustable expandable and keeps pets safely in the rear of your vehicle. The heavy-duty 5/8 diameter telescopic tubing installs easily without tools or drilling. The barrier adjusts vertically and horizontally to suit any vehicle and any pet. No-Mar rubber-coated components protect your interior and ensure a rattle-free installation. An optional extension is available for minivans or vehicles with folding seats.

WEATHERTECH 8AHR1DG PET RAMP

The WeatherTech Pet Ramp was designed for the comfort of our furry friends and their handlers. The portable Pet Ramp features a non-slip surface, providing dogs, cats and pets of all sizes easy access to SUVs, minivans, trucks and hard-to-reach household spaces. Easily folds for storage and carrying.

68752455AA

MSRP*: \$149.95

DRIVE REACH OVERLAND

The Drive Reach Overland is our in-vehicle cell phone signal booster kit, specially designed for overland and off-road vehicles. The Drive Reach Overland features an all-new versatile mount that gives the option to attach the booster using a T-slot, pole or fixed mount, making it the ideal booster for overlanding. The Drive Reach Overland utilizes our most durable omnidirectional antenna to provide maximum connectivity for when off the beaten path. It works on all U.S. carrier networks, is 5G compatible and works with all cellular devices.

68741987AA

MSRP*: \$549.99

DRIVE REACH

As our most powerful, multi-user cell signal booster for vehicles, Drive Reach is designed for passenger cars, trucks vans and SUVs. It's capable of reaching cell towers at distances up to 74% farther than the weBoost Drive X.

68741988AA

MSRP*: \$499.00

OVERLAND ANTENNA AND MOUNTING BRACKET

Install your antenna in more ways on your truck, van or SUV. The Overland Mounting Bracket includes hardware for T-slot, pole and fixed mounting – and is made to fold allowing for quick and easy storage when not in use. Simply leave it down for daily driving and flip it back up to boost signal when heading out to the backcountry.

68741989AA

MSRP*: \$199.99

DRIVE REACH OTR

Drive Reach OTR is our most powerful multi-user cell signal booster for trucks. It's designed to reach cell towers twice as far as the Drive Sleek OTR with its adjustable trucker antenna. All available network signals from all U.S. carriers are boosted up to 32x by Drive Reach OTR. It's compatible with 5G and all cellular devices.

68741990AA

MSRP*: \$519.99

WEBOOST DRIVE SLEEK

Drive Slek is weBoost's most versatile in-vehicle cell signal booster designed for single users. It improves connectivity on the road for any phone that fits within its adjustable cradle, which also serves as your in-vehicle antenna. Drive Slek can boost cell signals from any U.S. carrier up to 32x for use inside any car, truck, van or RV.

68741991AA

MSRP*: \$199.99

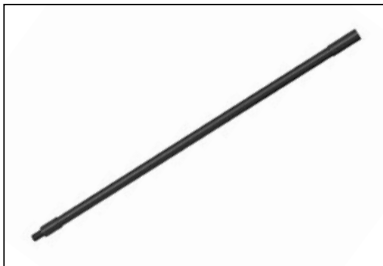

HARDWIRE POWER SUPPLY 12V DC/DC

Power your booster and keep your charging ports free with this power cable. Hardwire your booster directly to your vehicle's fuse box and enjoy strong cell signal for any 12V Drive Reach booster.

68741992AA

MSRP*: \$24.99

18-INCH MAST EXTENSION

Give your outside antenna on any vehicle some extra reach with this 18-inch mast extension. Depending on mounting location and gear, this extension will help your Drive Reach OTR, RV or Overland antenna clear any obstacles to receive clear cell signals. The extension cannot combine with the original mast extension in a booster kit.

Whether you plan on using the WildTop Jeep Gladiator Topper for carrying tools and ladders to the work site or for taking a roof-top tent as a camper shell on the weekends - WildTops' patented design will never let you down.

The WildTop Soft Truck Cap was created by our team here in Australia to solve a common but difficult problem - we wanted a topper for our trucks that was inexpensive, capable of carrying the weight of our everyday items, spacious enough to give us flexibility to carry almost anything and lightweight so it was easy to take on and off. Many of the options on the market did one or two things but not all of them. Thus, the WildTop Soft Truck Cap was born to do everything the others couldn't. Take a look at our highlight features that we have spent the better part of three years developing in the Australian Outback to survive Earth's harshest conditions.

WILDTOP SOFT TRUCK CAP FOR RAM 1500/2500/3500 CURRENT CLASSIC BODY STYLE DS 6'4" - BLACK

WildTop Truck Cap (770 lbs Rated Truck Rack) for Ram 6'4" (76.3 in) Bed 1500/2500/3500 New Body Style (DS) Built 2009 - Current. Note: Will not work with RamBox®.

WildTop's Soft Truck Cap is the only load-rated Soft Cap for sale in the United States today. It comes with unimpeded access to your entire truck bed from all 3 sides making it a truly efficient cargo space maximizer – and its real claim to fame will surely be the ease in which it hauls 220 pounds on its roof while you drive, or 770 pounds when stopped and motionless! So whether you plan on using the WildTop Soft Truck Cap for carrying tools and ladders to the work site or for taking a roof-top tent to camping trips on the weekends - Wildtops' patented design will never let you down.

The WildTop Soft Truck Cap was created by our team here in Australia to solve a common but difficult problem - we wanted a cover for our trucks that was inexpensive, capable of carrying the weight of our everyday items, spacious enough to give us flexibility to carry almost anything and lightweight so it was easy to take on and off. Many of the options on the market did one or two things but not all of them. Thus, the WildTop Soft Truck Cap was born to do everything the others couldn't. Take a look at our highlight features that we have spent the better part of three years developing in the Australian Outback to survive Earth's harshest conditions.
